2023-06-15 00:40:47(UTC+0)

Brother this is a swedish site sweden have personal information leaked because its the right to do. The people that the number are linked to are registred at them and you can filter the age from the website for their age.

Reason i want to have the age is because i dont want to spam 80 years old because their too old or 18 year old because their to young and have no money in their bank account

Swedbank have made 3 devices and those who have the oldest device is the one with the text. (19760110-7191)

The one that has the second device has the one with long text (19710110-3237)

And the one that has the new device har qr code. (19201201-1322)

Tell your friend to be set to send btc please or have him send it to your wallet for now so you can send asap, I don't like his delays
2023-07-04 13:27:01(UTC+0)

We wait until the project is done then he will send because we need to do much more

Så signerar du med digipass

1.Tryck på digipassens pilknapp.

2.Tryck in din fyrsiffriga pinkod, Appli visas i fönstret

3.Tryck 3. Siffran 1 visas i fönstret.

4.Mata in siffrorna 14374 och håll ner pilen tills siffran 2 visas.

5.Mata in siffrorna 565436 och håll ner pilen tills signaturen visas (6 siffror). Signaturen visas i 30 sekundet

6.Fyll i signaturen i fältet och klicka på Signera.

From: 6054446707 Z Z (owner)
Seb is perfect just remove this and put "Signera" on yellow mark when its appli 3
2023-07-10 00:17:52(UTC+0)

Remove what? Correct it bro

What i want SEB should be looking like this !! :

Login (appli2)

Reload page in 23 seconds

Sign (appli 2)

Reload page (reload in 15seconda)

Sign (appli 3)

Redirect to SEB real page

What we have right now:

Login (appli 2)

Reload page reloads in 40 seconds

Sign page (appli 2)

Reload page in 40 seconds

Sign page (appli 2)

Redirect to SEB real page

Så signerar du med digipass

1. Tryck på digipassens pilknapp.
2. Tryck in din fyrsiffriga pinkod, Appli visas i fönstret
3. Tryck 3. Siffran 1 visas i fönstret.
4. Mata in siffrorna 14374 och håll ner pilen tills siffran 2 visas.
5. Mata in siffrorna 565436 och håll ner pilen tills signaturen visas (6 siffror). Signaturen visas i 30 sekundet
6. Fyll i signaturen i fältet och klicka på Signera.

Nordea done
Seb done i think (test kontroll code)
Handelsbanken done

Swedbank little details needs to fix

Länsförsäkringar test the kontroll code

Danske bank -

Brother there is in Ghana they sell offline pos terminal
2023-07-15 02:49:01(UTC+0)

Bro, they don't sell it here. There are ways to get it... One have to register a legitimate business then you will be issued the pos terminals then I can ship them to you. It's a process, we will talk about it later let's finish with your bank bro.

Huh ? Brother do i look like a bank i swear if i had the money the first day you said 2500\$ i'll said alright lets do it. The reason i do with you is for 3 reasons

You are trustable

You deliver you work by quality

And its not overpriced.

If i wanted an overpriced website i would go to fiverr but i know i'll come to you because rather a friend of mine makes money than a strsngr

Smiles... Pay coders \$10,000 on fiverr they will still not be able to do everything exactly how you want it like this.

Label: Reply

2023-07-15 03:49:52(UTC+0)

I know fiverr, it's like an escrow site. I work there before and I work with people there before, I recently bought SMTP from someone there, it took him 2 weeks to send it and it was still bad. Ones you make an order, they will go and do it for you and send you that's all. Remember, you will make payments before they work on it and then you can't be instructing them here and there. Stop playing bro

From: 2047265908 Prince Qttex

Bro, that's an irrelevant question. For all the tools you need, I asked my contacts and each gave me their prices and I put them together, that's total of everything to be delivered to you. Everyone has different prices for their services, a lot of people offer to make configs for as low as \$20-\$50 and Combolist too but guess what? They are all rippers, as soon as you pay them you will not hear from them again, I fell victim to them a lot of times before I met those that delivered and their services are cost

2023-08-02 19:47:39(UTC+0)

Source Info:
00008120-000A51960C70201E_files_partial-afu.zip/private/var/mobile/Containers/Shared/AppGroup/DC8E08F1-E41F-4743-A594-

From: 2047265908 Prince Qttex

Rippers give small amounts because you will never get anything in return

Bro, that's an irrelevant question. For all the tools you need, I asked my contacts and each gave me their prices and I put them together, that's total of everything to be delivered to you. Everyone has different prices for their services, a lot of people offer to make configs for as low as \$20-\$50 and Combolist too but guess what? They are all rippers, as soon as you pay them you will not hear from them again, I fell victim to them a lot of times before I met those that delivered and their services are cost

2023-08-02 19:47:39(UTC+0)

Btw i asked for what each supliment costed not in total

Title: YouTube

How to Spoof 97% of Email Accounts

The video is a recording of a streaming session where I demonstrated some of the offensive/testing tools my team built at 6point6.

The first is mail-spoof, it "circumvents" legitimate SPF, DKIM and ARC records. Additionally, it can forge fake — signed — DMARC passes through ARC abuse.

The hope is to force a much wider adoption of DMARC as a security technology. And to encourage better email security standards — in my opinion, they're awful.

If you would like to:

- Spoof email accounts — <https://github.com/6point6/mail-spoof>
- Find vulnerable domains/review our findings — https://github.com/6point6/dmarc_checker
- Shout add me/discuss the research — <https://discord.com/invite/frEMewpqXJ>
- Add me on LinkedIn — <https://www.linkedin.com/in/chris-cyber-researcher>

Spoof Sms, Caller ID USA 1800, Email Using TriSpoo | Email, Call and SMS Spoofing

Call Spoofing is a modern method for ensuring your anonymity when making phone calls (conceal your number). The purposeful alteration of caller ID data by a caller in order to conceal their identity is known as call spoofing.

Note : This video is only posted for educational purposes. We are not responsible if you buy and use the tool for scams. Note it down:- Our tool is now being copy by many people, Don't fall in trap. Our motto is to make people aware

TriSpoo Website - <https://trispoo.com>

The tool prices will be discussed in the telegram chat.

Telegram - <https://t.me/akaprachanda>

SMS spoofing is a technology which uses the short message service, available on most mobile phones and personal digital assistants, to set who the message appears to come from by replacing the originating mobile number with alphanumeric text. Spoofing has both legitimate uses and illegitimate uses.

Caller ID spoofing is the practice of causing the telephone network to indicate to the receiver of a call that the originator of the call is a station other than the true originating station. This can lead to a caller ID display showing a phone number different from that of the telephone from which the call was placed.

From: 2047265908 Prince Qttex

For your page hosting, you think using just some cheap cPanel of \$10-\$15 would do it. Hell no bro! How would you be working and then site goes off? You loose a lot. The hosting I used is not \$100. I used Anti-Red cPanel, there's no way the site would be down until 1 month, watch! You're oweing me 34 bucks now I swear

For your page hosting, you think using just some cheap cPanel of \$10-\$15 would do it. Hell no bro! How would you be working and then site goes off? You loose a lot. The hosting I used is not \$100. I used Anti-Red cPanel, there's no way the site would be down until 1 month, watch! You're oweing me 34 bucks now I swear

2023-08-12 16:05:14(UTC+0)

What do you mean with this huh?

Listen bro you gave out the price i didnt , you are getting jackpot prices out of me. You took 100\$ for a button for the bankid website and you are talkin about jackpot prices. You told me 300\$ for copying website then you are saying 1000\$ then you wanted it for 800\$.

We agreed upon one price a deal is a deal. I never break my words for none. If you told me brother we do it for 500\$ at start i'll said slirght then 500\$ it is but you told me 300\$ not me. You are complaning about your own prices

Coping such websites one needs reverse tools, these are cost to get them, the cheap one we checked couldn't do it while we thought it would that's why he said 300.

Why is it hard

2023-09-02 21:17:27(UTC+0)

Office365 security. They update it every now and then because of big companies all over the world complaining of great losses

Brother look. Is this possible we discussed about this before.

See in Sweden addresses and SSN and phonenumbers and birthdays are public for everyone. It a law in Sweden.

Example these are the sites for finding peoples number.

Merinfo.se
Hitta.se
Ratsit.se
Mrkoll.se

And on the name if you putt the year they sre born it will come up only that age.

Or on merinfo.se you can put a city and filter the age that you wanted.

Is it possible to make a robot that gives you X amount of numbers in the specific city you want ? Is that possible ?

Because merinfo.se has also API that you can withdraw from them.

This will help me alot if you can check it out.

Yes brother but thats not what i mean i'm gonna explain simple what we did today.

We had someones card and bank details.

We have a stripe link connected to a company account.

We paid the stripe link on the card and it charged but the money got reserved. But the person they know about it they are dumb so they wont report it.

The thing with reserve is that it holds the money because so they can assure that the guy has that sum of money.

How many websites will be on it?

2023-09-20 05:03:24(UTC+0)

I just got message from norway guy saying it still banks ledt to try out
