1 Inledning och syfte

I ärendet har en mobiltelefon tagits i beslag i Sandra Söderstedts bostad¹ på Fridhemsgatan 30, lgh 1203 i Sundsvall. Telefonen anträffades bakom en kudde i en soffa i vardagsrummet² i samband med att Soran Mirzai också greps i lägenheten³.

Syftet med denna analysrapport är att fastställa telefonens brukare, fynden som gjorts i den talar tillsammans med omständigheterna vid anträffandet starkt för att dess brukare är Soran Mirzai.

1.1 Hemlig dataavläsning och avlyssning, HDA/HAK

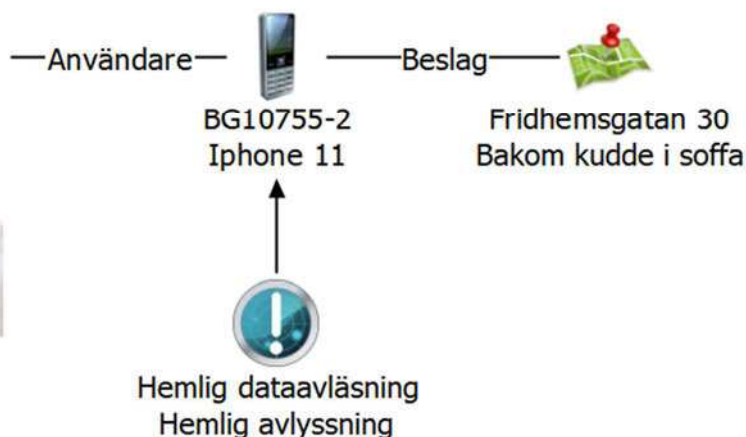

En hemlig dataavläsning har skett gentemot mobiltelefonens IMEI-nummer, ett unikt nummer som identifierar en specifik mobiltelefon i ett mobilnät. I samband med detta har också en hemlig avlyssning, HAK, ägt rum.

HDA-beslut har omfattat perioden 2022-11-02 till 2023-02-20.

HAK-beslut har omfattat perioden 2023-01-20 till 2023-02-20.

Kompletterande brukaranalys, Soran Mirzai

Vid genomgång av utredningsmaterialet så har det framkommit en återkommande felstavning av ordet ”direkt” i form av stavningen ”derikt”. Felstavningen förekommer i både HDA-materialet, meddelandenotiser från avsändaren ”Kp” och mobiltömningen från BG140365-3 (från ärende 5000-K1452305-22) som bedöms ha brukats av Soran Mirzai.

Sökningar i det kompletta materialet avseende data inhämtad via HDA och meddelandenotiser så har den felstavningen endast förekommit i meddelanden skickade från alias ”Kp” eller i utgående meddelanden från HDA-materialet kopplat till BG10755-2.

Se följande sidor gällande meddelanden där ordet ”derikt” förekommer.

Ja kära Parwin, Jag vet det. Igår dödade dem någon och de sköt skott. En av deras bilar har blivit anhållen. Tre personer i en bil har blivit tagna och de hade även pistol på sig. Idag har de också tagit en person där när de hade också skjutit. 2 3 barn hade skjutit och sedan...och de hade hittat pistol i bilen. Det är ingen fara. De har skickat sex personer till. De har nu sex personer i Sundsvall. De har jättemånga barn. Många 14 15 åringar. Det är ingen fara alls.

1 Inledning

Mobiltelefonen med beslagsnummer 2023-5000-BG25090-2 har beslagtagits från Mohamad Nour Shich Khalil, "Kira". Beslaget skedde den första mars 2023 och lagrat i den finns bland annat kontoinformation om snapchat-konton som bedöms tillhöra Soran Mirzai.

Resultatet av genomsökningen på distans presenteras i denna rapport i de delar som bedöms relevanta. Information har säkrats från nedan två konton, kontona tycks dela samma visningsnamn "Z" men ha olika kontonamn – båda med suffixet "sm".

Vad som anträffats i genomsökningen talar starkt för att kontoinformation överläts för att användas av någon annan i samband med att Soran Mirzai grips den 26 januari 2023.

1.1 Byte av konto

Meddelandehistoriken för utgående meddelanden visar en brytpunkt för användning av de två aktuella kontona som sker den 8 januari 2023. Då skickar kontot *nobodynobodysm* (övre, blåmarkerade raden) meddelandet "ny snap" och därefter tar historik för kontot *kapten.sm* vid (nedre raden).

Någon tidsmässig överlappning finns inte för kontona, när det enas historik slutar tar nästa konto vid vilket talar starkt för ett kontobyte natten mot 8 januari.

4 Användning av kontot efter gripandet

I nedan kronologiska tidslinje har ovan beskrivna ljudmeddelande markerats i blått. Därefter syns historik som visar på fortsatt användning av kontot.

De meddelanden som skickas 2023-02-15 visar dubletter av samma meddelande som både inkommande och utgående, vilket tolkas som ett meddelande skickat till det egna kontot som då får funktionen av en anteckning till sig själv.

Det har inkommit en begäran till it-forensiker med nedanstående uppdragsbeskrivning:

"Genomsökning på distans ska genomföras av instagramkontot zoran.sm med instagram-ID 44278749403 som funnits i en mobiltelefonen BG10755-2 som beslagtagits i ärendet från Soran Mirzai."

Undertecknad har genomfört genomsökningen på distans men det har inte gått att slutföra den på grund av kontots säkerhetskfiguration. I samband med genomförandet har lösenordet till instagramkontot "zoran.sm" ändrats på så vis att "123" har lagts till som ett suffix till det ursprungliga lösenordet.

3 Signal-chattar

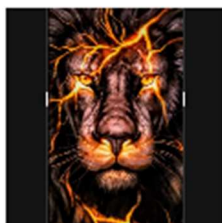

Signal är en chat- och samtalsapplikation för krypterade samtal och meddelanden. Den bygger på att användaren registrerar sig med ett telefonnummer som verifieras med hjälp av en engångskod, det finns dock inget krav på att numret som knyts till Signal överensstämmer med det SIM-kort som används i samma mobiltelefon som Signal-kontot.

En komplett export av de chattar över appen Signal som bedöms ha relevans bifogas som bilaga. För alla chattar gäller att gröna chattbubblor skickats från användaren av mobiltelefonen, blå bubblor är motpartens meddelanden.

Nedan visas det i telefonen sparade Signal-kontots information, användarnamnet är "Kp" och det knutna telefonnumret 46762038099.

4 Wickr-chattar

Wickr är en annan chat-applikation med samma grundfunktioner som de flesta andra kommunikations-appar. Den erbjuder krypterad kommunikation via meddelanden och samtal och användaren får då själv fritt välja ett användarnamn.

Chattarna verkar i det aktuella beslaget närmast uteslutande handla om narkotika. Ett exempel presenteras nedan, ett större urval biläggs.

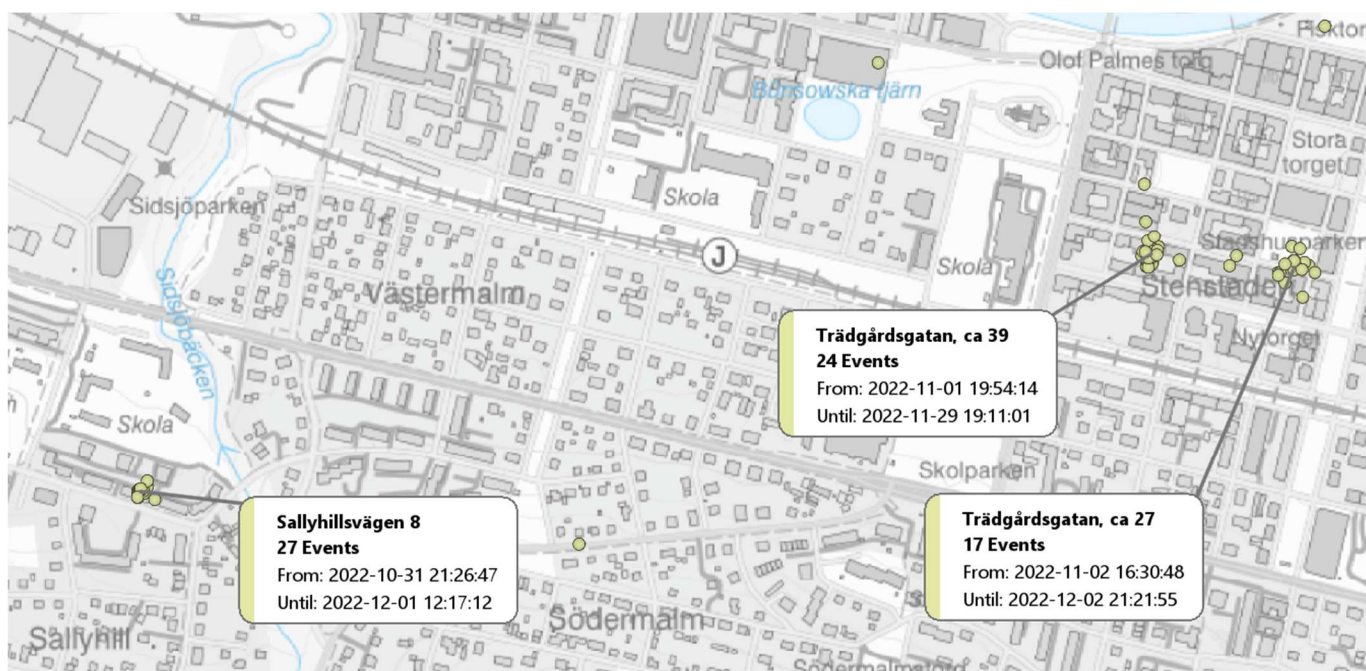

Av chattarna kan utläsas att inloggad användare i Wickr har användarnamnet ”guzzpatrullen” vars meddelanden är gröna – motpartsmeddelanden i blått.

5 Platsdata

Telefonen har en mängd platsdata av olika slag. En filtrering av typen ”Visited” har gjorts för att granska platser som telefonen loggat såsom besökta.

En översikt visar tre platser som har tydliga förtätningar av den typen av logging, vilket talar starkt för att det är platser där telefonen ofta befunnit sig. Adresspunkter har tagits fram utifrån en tänkt mittpunkt kring förtätningarna varför intilliggande adresser inte kan uteslutas i synnerhet i centrala delarna av staden.

9 Samtalslogg för kvällen den andra december

Samtalsloggen visar att de samtal som rings under kvällen för skjutningen sker via Signal och Snapchat. Ett litet rött kryss indikerar att den raden raderats men att det återskapats vid IT-forensisk spegling av telefonens innehåll. Närmast i anslutning till brottstiden talas flera gånger med "nessaa" vilket i utredningen knutits till Moa Kristiansson¹.

10 Snapchat-uploads, "My Eyes Only"

I mobiltelefonen finns ett antal loggade uppladdningar av media som skett via snapchat. Uppladdningarna som här kommer att redovisas är med undantag för biljardfilmen kategoriserade som "Private (My Eyes Only)". Detta är en funktion i Snapchat som innebär att man i ett separat galleri med lösenordsskydd kan spara de bilder och videos man önskar extra skydd för.

10.1 Skärmdumpar, personer och adressuppgifter

Det finns i detta privata galleri ett flertal skärmdumpar som kopplas mot olika personer, de redovisas med skärmdumpen till vänster och tillhörande metadata för filuppladdningen intill varje bild.

10.2 "My Eyes Only" - bilder på vita klossar, logo "Fox"

Ett flertal bilder finns i samma privata snapchat-galleri av vad som ser ut som vita, vakuumpackade klossar med vitt innehåll och en logotyp med en räv samt stämpeln "FOX". Nedre bilden är beskuren för att endast visa motiv.

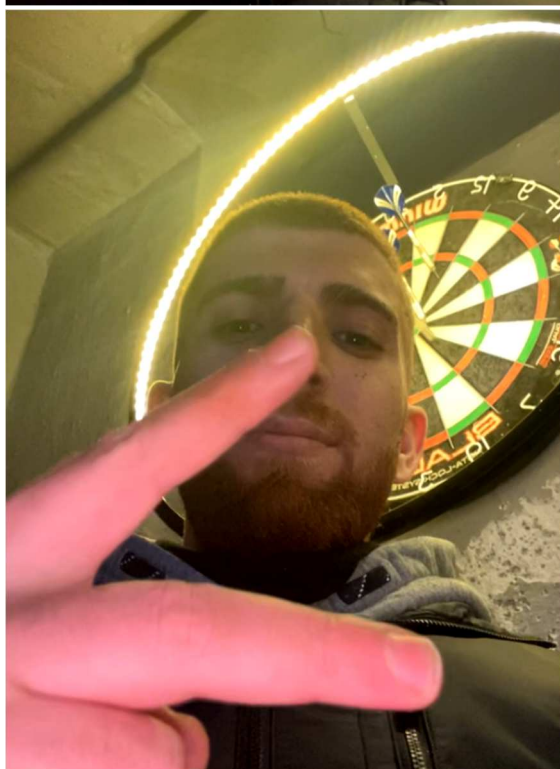

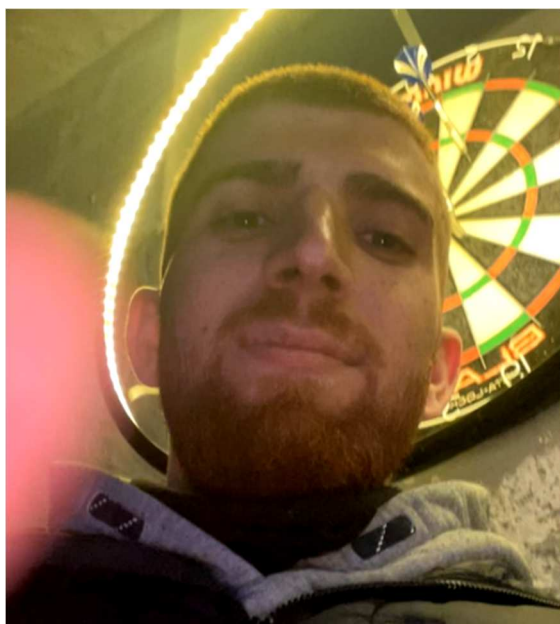

Bilderna är alla datumsatta 2022-11-28 klockan 00:30 med någon sekunds mellanrum. Det lilla vita strecket längst ned på två av bilderna talar för att bilderna är skärmdumpar av en telefonskärm.

10.3 Film, biljardspelande

I den icke lösenordsskyddade delen av snapchat finns en kortare filmuppladdning tidssatt klockan 21:22 den andra december där man ser Soran Mirzai filma sig själv med selfiekameran, därefter uppfattas det som att filmande kamera växlas till baksidans kamera och då syns hur en annan person spelar biljard.

Stillbilder ur filmen nedan.

Uppladdningsdatan för filmen i fråga visar en platsdata som indikerar mot adressen Trädgårdsgatan 27 i Sundsvall, på adressen finns en biljardhall.

Telefonen loggar kort efteråt också att den kopplat upp mot ett trådlöst nätverk döpt "Biljarden" vilket ytterligare talar för att det är på denna plats som filmen skapas.

11 Skärmdumpar, tumnaglar

Det finns i telefonen ett antal filer vars motiv talar starkt för att det är skärmdumpar av en iPhone-skärm, bilderna kommer att presenteras i detta avsnitt.

Alla filer kommande filer döpta "**thumbnail-200.jpg**" knyts till appen Signal.

Slutsatsen dras med anledning av att alla dessa filer anträffats i samma mapp döpt "Caches", se nedan bild. På samma plats finns även mappen "Preferences", vars innehåll visar *org.whispersystems.signal.shareextension.plist*.

Filnamnet indikerar att detta är kopplat till appen Signal och shareextension innebär sannolikt funktionen "Dela – via Signal"

Detta talar starkt för att alla kommande filer döpta thumbnail-200.jpg har hanterats via appen Signal, sannolikt via delning.

12 Anteckningar

I mobiltelefonen finns endast en anteckning. Anteckningen är skapad första gången den 14 november 2022 och redigerades senast den sjunde december.

Anteckningens språk talar starkt för att det handlar om en narkotikarelaterad anteckning. ”Zutt” är ett slangord för hasch².

De två bilderna ovan är skärmdklipp från två olika videoklipp. I den första videon syns en man som visar en pistol i byxlinningen samtidigt som han går utomhus i vad som ser ut som ett bostadsområde. Mannen ser ut att vara Hubert Viklund.

I den andra videon ser man en man som går utomhus och han håller i ett vapen som han sedan siktar mot kameran. Mannen ser ut att vara Nor Al-Gilani.

Kartbilden nedan visar var mobiltelefonen är positionerad vid tidpunkten för uppladdningarna av de två nyss nämnda videoklipp. Kartan visar ett bostadsområde i norra delarna av Växjö.

Bilden nedan är ett skärmsklipp från en video där en mansröst rappar samtligt som man rör vapnet som att man siktar på något. Vid tidpunkten för uppladdningen av videon till appen Snapchat positioneras mobiltelefonen i närheten av adressen Skogsnäsvägen 6. Platsdatan i mobiltelefonen visar att den har befunnit sig i Växjö mellan 23-24 januari för att sedan börja röra sig norrut omkring kl 18:00 den 24 januari. Natten mot den 25 januari anländer mobiltelefonen till Sundsvall där den sedan befinner sig t o m den 26 när den tas i beslag.

4.1 Resan mellan Växjö och Sundsvall

I höjd med trafikplats Mjölby Västra finns det flera platser som är registrerade som "visited" mellan kl 20:45-21:04 den 24 januari. I samband med att flera punkter markeras i närheten av varandra under denna tidsperiod så registrerar även "activity sensor data" att 190 steg tas mellan kl 21:02-21:22. Området nedan är ett urklipp från Google maps och visar området där mobiltelefonen registrerat flera platser som "visited".

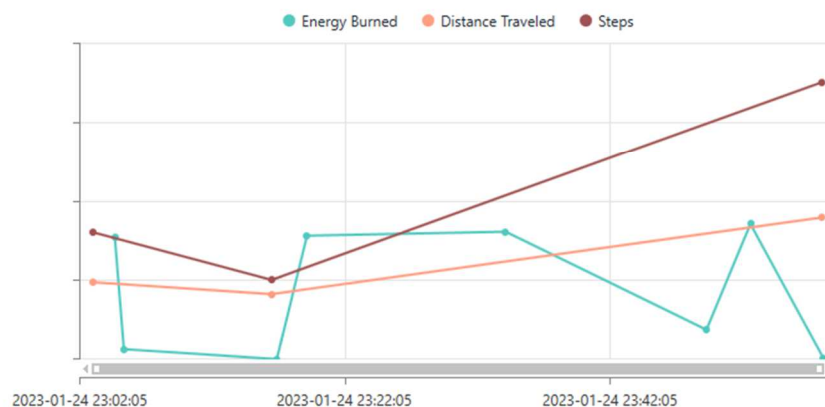

Mellan kl 23:02-23:58 har det registrerats steg i "activity sensor data".

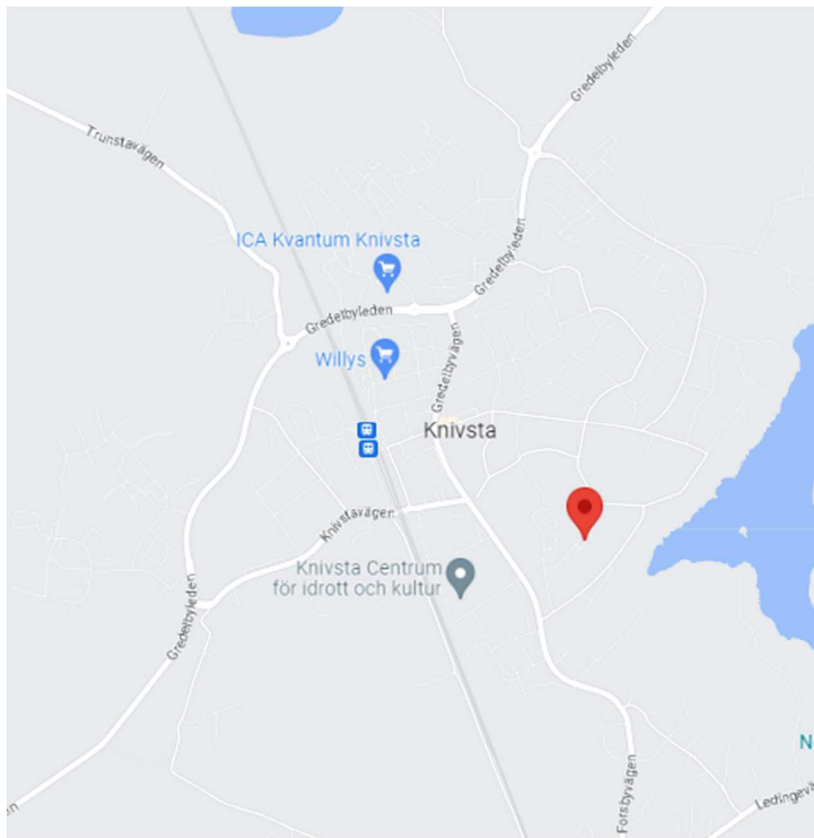

Graph

Data type

Total

Under samma tidsperiod som stegen registrerats så registrerar mobiltelefonen flera positioner som "visited" i området kring Knivsta. Den röda markeringen är ett exempel på en av positionerna som registrerats.

4.2 I Sundsvall

Mellan kl 02:33-02:37 positioneras mobiltelefonen i området kring Rubinvägen (se karta nedan). Kring denna tidpunkt finns det ett foto, taget från Rubinvägen, som skickats från alias "Van Nistelrooy" till Soran Mirzai via appen Signal. Utifrån konversationen kring den skickade bilden talar det för att den som står på gatan väntar på att lämna något till Matilda Fält.

Efter att telefonen har befunnit sig vid Rubinvägen så positioneras den även i närheten av adresserna Trafikgatan 7, Granmodalsgatan 10, Köpmangatan 18 och slutligen Granmodalsgatan 10 igen.

Mellan positioneringarna vid Trafikgatan 7 och Granmodalsgatan 10 (första gången) så registreras en punkt strax utanför Shell Kolvägen kl 03:06-03:09 som "visited". Nor Al-Gilani är synlig från övervakningsfilm från den bensinstationen vid den tidpunkten, se separat PM.

5 Övrig data

I mappen ”notes” finns det anteckningar som tyder på att brukaren av telefonen är involverad i narkotikaförsäljning då texten bedöms vara en prislista för narkotika.

PM

1 (8)

Datum 2023-01-28

Diariennr (åberopas) 5000-K91779-23

Export från BG10810-1 (mobiltelefon som togs i beslag från Nor Al-Gilani). Bilderna som följer i dokumentet är skärmdklipp från videofiler som lagrats på mobiltelefonen. Personen på första bilden bedöms vara Nor Al-Gilani (sida 2) och i en annan video (sida 3) som laddats upp en minut innan syns liknande handskar som Nor har på sig i första videon. I den videon ser man handskbeklädda händer som hanterar ett vapen genom att stoppa in ett magasin i en pistol och därefter göra en mantelrörelse.

I en konversation via chatt-appen Signal finns det en konversation med alias "Lala G" som verkar handla om ett köp av ett vapen den 6-8 januari 2023, se bilaga "Chatt_Nor-Lala G".

I mobiltelefonen finns det flera videor där man ser att ett vapen hanteras. Det förekommer även ett flertal foton och videor föreställandes vad som ser ut att vara hasch, både förpackad i plast och oförpackad. När haschen hanteras oförpackad så ser en hand bryta upp en del av haschkakan. I mobiltelefonen finns det ett foton och videor där personer bär maskering, skyddsväst, hanterar narkotika, skjutvapen samt stora summor pengar. Ett urval av dessa syns på sidorna 4-8.

Detta PM är endast en kortare sammanfattning av innehållet i BG10810-1 då allt material inte är genomgången vid tidpunkten för skapandet av detta PM.

Uppgift

I den undersökta mobiltelefonen 2023-5000-BG10810-1 har det påträffats förekomster av ett flertal skjutvapen. Utredare har bedömt det som intressanta att utröna om de kan styrkas att den undersökta mobiltelefonens kamera har använts för att fotografera eller filma två av dessa skjutvapen. Det handlar om vad som förefaller vara en kulsprutepistol av märket Skorpion och en pistol av märket Walther.

Kulsprutepistolen

Filmen på kulsprutepistolen har tagits emot av den undersökta mobiltelefonen den 7 januari 2023 klockan 21:47:31 genom appen Signal där användaren av den undersökta mobiltelefonen kallar sig "Mac". Troligtvis är avsändaren av filmen signalanvändaren "Lala G". Filmen skickas därefter vidare med Signal till mottagaren "Stepperz" kopplad till telefonnumret "+4672[REDACTED]91" klockan 21:48:21. Därefter inkommer det tre röstmeddelanden från "+Stepperz" som förefaller handla om vapnet och där Falkenberg nämns som platsen där vapnet finns.

I filmen med kulsprutepistolen syns en reklamlapp för städföretaget "Solklart Städ & Fönsterputs" där telefonnumret till företaget förekommer. Telefonnumret börjar med riktnumret 0470 som är riktnumret till Växjö.

Den undersökta mobiltelefonen har enligt sparad platsdata befunnit sig i Växjö den 7 januari 2023 mellan klockan 21:57:49 och 22:10:49.

Undersökningen har dock inte kunnat visa att filmen har spelats in med den undersökta mobiltelefonens kamera vid detta tillfälle.

Walther

Undersökningen av mobiltelefonen har inte kunnat fastställa när filmen som visar pistolen ursprungligen har skapats eller på vilket sätt den har skapats. Vad den kan visa är att användaren av mobiltelefonen den 14 december 2022 klockan 11:31 spelar upp den fyra sekunder långa filmen på sin mobiltelefon samtidigt som användaren gör en skärminspelning i form av en ny film. Denna nya film delas därefter omedelbart med användaren "GG" på Signal varefter användaren av mobiltelefonen skriver "Okey akhoye skiver så fort jag löst araba". Användaren "GG" är i den undersökta mobiltelefonen kopplad till telefonnumret "+4676[REDACTED]53" och har en profilbild som består av ett rött "G" mot rosa bakgrund.

3 Bilder och video

Bland de filuppladdningar som finns i telefonen har ett antal videoklipp och bilder påträffats. Filerna har skapats under tidsintervallet den 2023-01-25 klockan 00:55 t.o.m. 07:44:50.

Nedan följer ett par skärmdokument som tagits från ett videoklipp som är 10 sekunder långt. Initialt filmas ett registreringsnummer på den personbil som personerna står invid, som också är den bil som Jamshid framfört. Ca 7 sekunder in i klippet avfyras tre pistolskott. Utöver den person som filmar sekvensen kan man urskilja tre personer till på platsen.

1 Inledning

Jag har gjort en ytterligare kontroll i mobiltelefonen 2023-5000-BG21357-1 som i ärendet påstås tillhöra Jamshid Qasimi. Kontrollen har gjorts utifrån frågor kring den film som påstås visa en provskjutning vid en parkeringsficka. Frågeställningen rör vad mer som kan sägas om denna film och dess ursprung och om det går att avgöra ifall den undersökta telefonen är den som använts för att filma.

2 Om provskjutningsfilmen

Videofilen för provskjutningen har i huvudsak två klockslag kopplat till sig, Skapandetid 00:56:57 och modifierad / ändrad 00:57:07 resp. 00:57:08. Den är sparad i den mapp som motsvarar mobiltelefonens ordinarie kamerarulle.

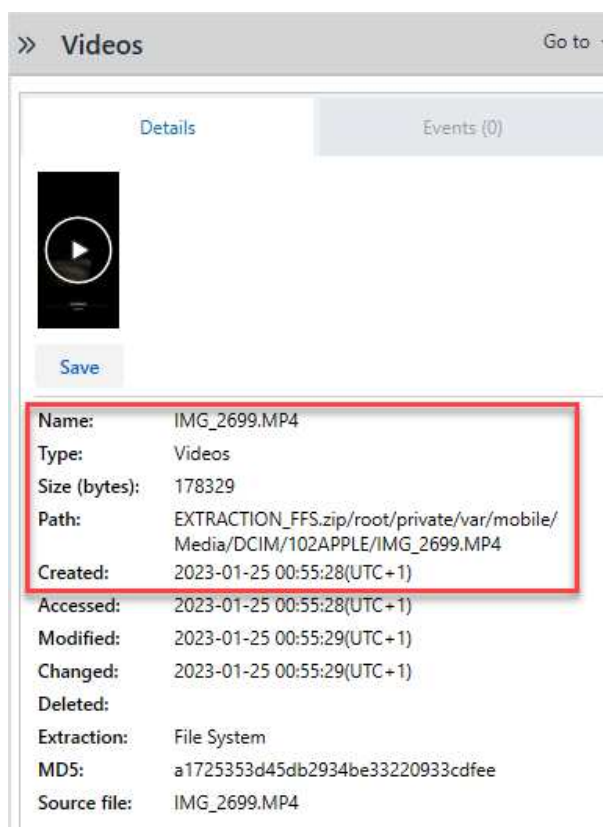

Tidsskillnaden mellan dessa tider överensstämmer väl med filmens längd om 10 sekunder, vilket ger stöd för att filmningen bör ha påbörjats klockan **00:56:57** enligt mobiltelefonens klocka.

Video	
Längd	00:00:10
Bildrutebredd	1280
Bildrutehöjd	672
Datahastighet	5654 kbit/s
Total bithastighet	5752 kbit/s
Bildfrekvens	29.98 bildrutor/sekund

3 Närmast föregående fil, IMG_2699.MP4

Den undersökta telefonen är en iPhone av modellen XS Max. Operativsystemet i en iPhone döper i normalfallet bilder som fotas, filmas eller sparas i kamerarullen som "IMG_" och ett löpnummer. Därav visar också filnamn normalt på en ordningsföljd för när olika bilder och filmer skapats i förhållande till varandra.

Närmast föregående filnamn i förhållande till provskjutningen är alltså IMG_2699.MP4, dateringen på den filen visar att den skapats ca en och en halv minut innan provskjutningsfilmen. Filmens längd understiger en sekund och visar i huvudsak ett mörker med någon svagare ljusstrimma.

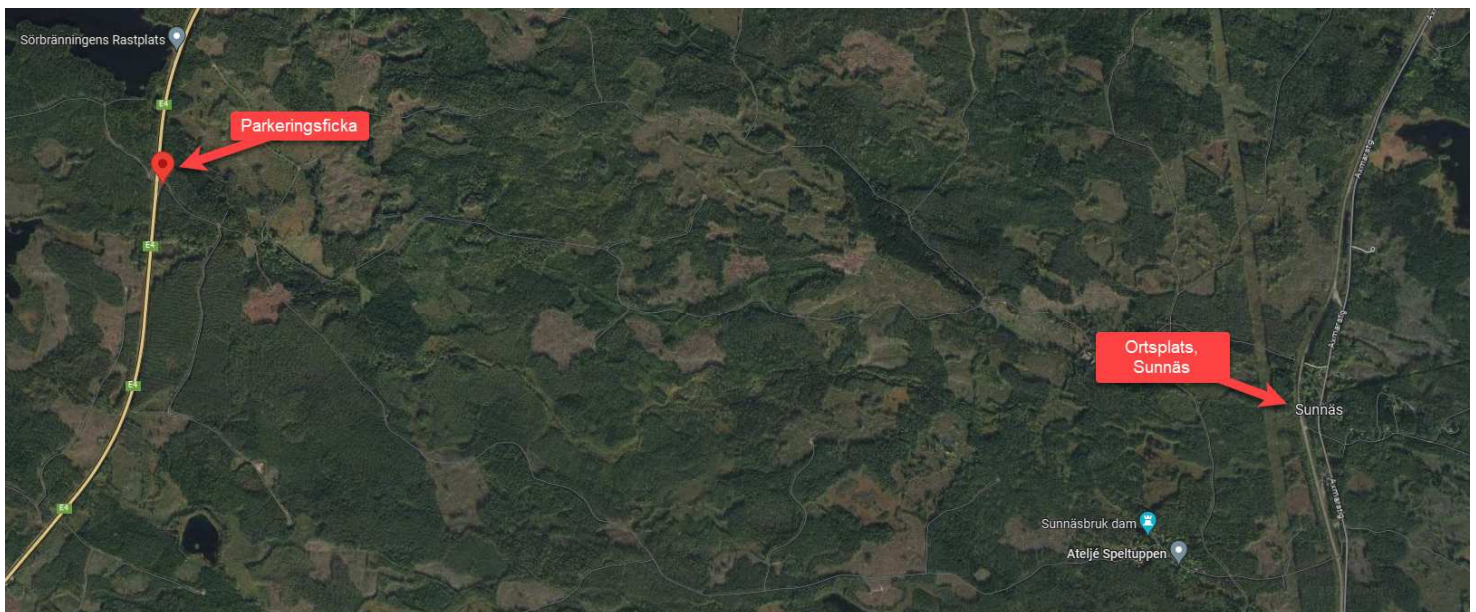

På filmen finns ett överlägg med texten "SUNNAS – Sweden" vilket bedöms vara ett filter/överlägg som applicerats som baserat på telefonens GPS avgör vilket område filmaren befinner sig i.

3.1 Kartbild, Sunnäs i förhållande till provskjutning

På kartbilden nedan visas till vänster platsen för den parkeringsficka som provskjutningsfilmen indikerat för uppladdningen, på samma parkeringsficka har tomhylsor anträffats.

Till höger visas den geografiska placeringen för området/orten Sunnäs enligt Google Maps. Avståndet fågelvägen mellan parkeringsfickan och placeringen för texten ”Sunnäs” på kartan mäter 6 kilometer. Detta bedöms vara orsaken till texten ”SUNNAS” på överlägget som visats för videofilmen IMG_2699.MP4.

4 Ljudfil

I telefonen anträffas också en ljudfil. Filens skapandetid är 00:56:22 med en angivelse för *modified* 00:56:47, klockslagen indikerar sannolikt trolig start- och stopptid för inspelningen eftersom ljudfilens längd är 24 sekunder.

Ljudfilens filnamn indikerar samma starttid som datumangivelsen för "created" och filsökvägen (*Path*) visar att den finns i mappen "Recordings" vilket ytterligare talar för att det är den undersökta telefonen som gjort inspelningen.

The screenshot displays the details of an audio file. The 'Name' field is highlighted with a red box and contains '20230125 005622.m4a'. The 'Created' and 'Modified' fields are also highlighted with red boxes and contain timestamps from 2023-01-25. A red arrow points from the 'Modified' field to the 'Längd' (Length) field, which shows '00:00:24'.

Ljudfilens innehåll

På filmen hörs vad som uppfattas som sus från fordonstrafik i bakgrunden och olika personer hörs tala. I tidsordning kan jag höra följande av det som är hörbart:

"akta dig bror"

"min älskade broder"

"jalla jag skall filma er, grabbar"

"tabben ey"

5 Avsaknad av meddelanden under natten

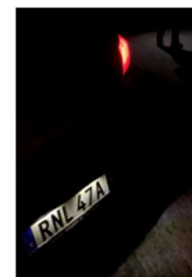

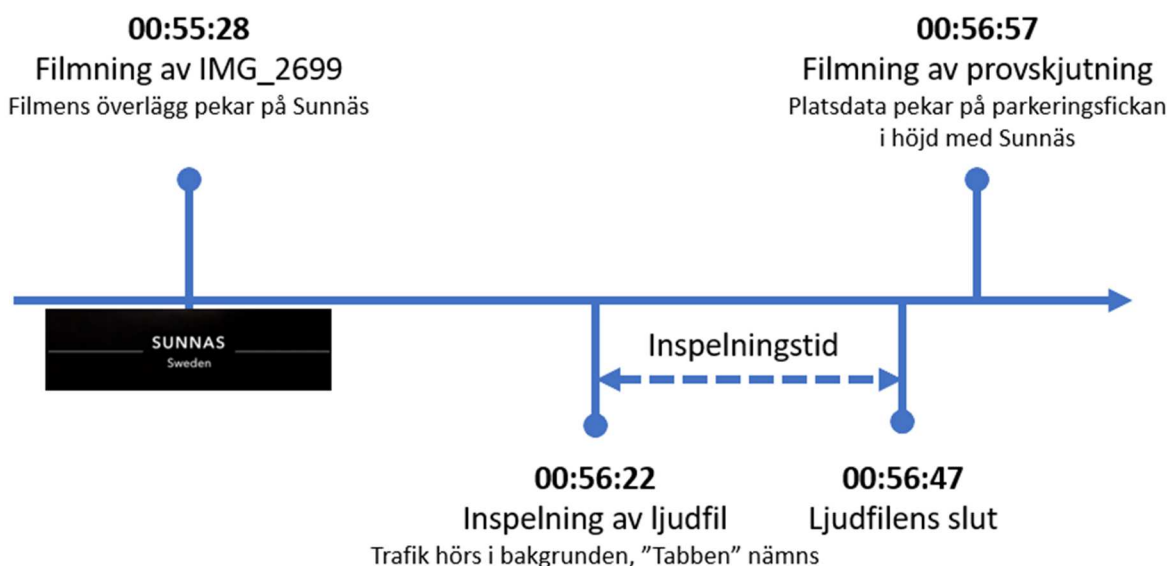

Telefonens loggade meddelanden har kontrollerats under perioden. Där framgår att det under natten inte finns några lagrade meddelanden.

Markerat med rött är de två meddelanden som tagits emot närmast före och efter tiden för de filmer och ljudfilen som är aktuell i rapporten.

6 Sammanfattning och slutsats

Nedan illustreras de olika filernas tidsangivelser i tidsordning. De tre olika filerna sett i ett sammanhang talar starkt för att de samtliga har skapats med hjälp av den undersökta telefonen.

Slutsatsen grundas på ett antal premisser:

- Filmen IMG_2699 pekar på samma område som uppladdningen av provskjutningsfilmen IMG_2700, löpnumren och tiderna för filerna talar för att de skapats i samma telefon med kort mellanrum.
- Mellan dessa två filmer skapas en ljudinspelning där trafik kan höras, någon säger "jag skall filma er, grabbar", en "tabbe" nämns vilket i sammanhanget bedöms handla om en pistol.
- Tio sekunder efter ljudklippet avslutas skapas en film där en pistol provskjuts.
- På den parkeringsficka som platsdatan indikerar har tomhylsor anträffats.
- Det finns inga loggade inkommande eller utgående meddelanden under natten.

Figur 3. Chattmeddelanden från "idan__rata" i tidsmässig anslutning till att filmerna skapas.

Undersökningsmetoder

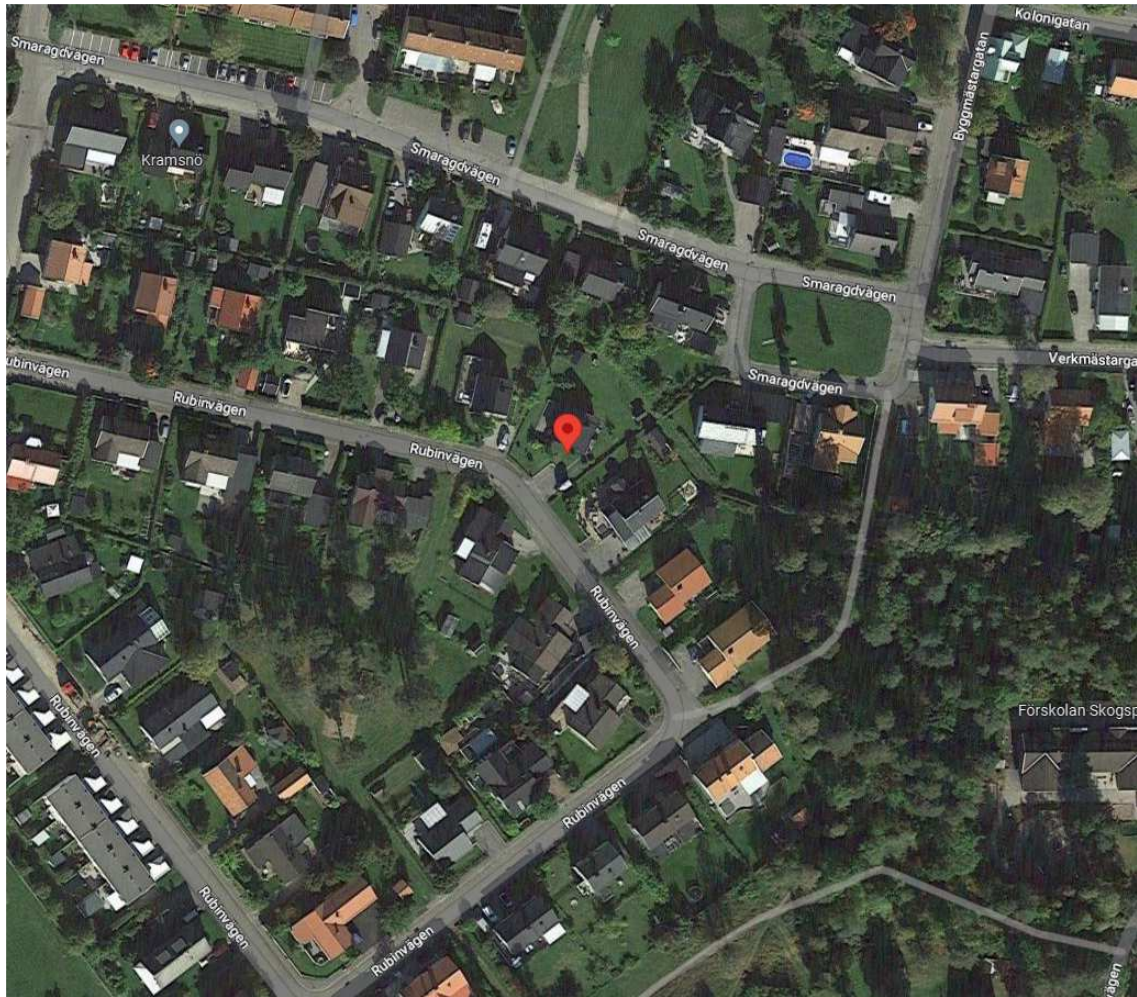

Det undersökta materialet har hanterats i en kontrollerad och säker miljö, anpassad för att säkerställa dataintegriteten.

Analys och slutsats

De redovisade omständigheterna talar starkt för att de två filmerna som redovisats i undersökningen har skapats med appen Instagram med den undersökta mobiltelefonen den 26 januari 2023 klockan 13:18:28 i närheten av Rubinvägen i Sundsvall.

De redovisade chattarna från Instagram ligger tidsmässigt så nära i anslutning till att filmen skapats att det förefaller rimligt att anta att filmen delats med användaren bakom instagramkontot "idan__rata" i samband med att den skapats och att meddelandena från "idan__rata" är en reaktion på delningen.

Att filmen inte påträffats i chatten med "idan__rata" eller i någon annan chatt kan förklaras med att den tagits bort efter att den delats.

Figur 4. Positioneringsdata från mobiltelefonen placerar den utifrån koordinaterna 62.381957, 17.288741 i närheten av Rubinvägen i Sundsvall den 26 januari 2023 klockan 13:18:28 till 13:18:55.

Han gömmer väl sig i Turkiet?

Ja han har även nu turkiskt medborgarskap. Turkiet har möjlighet till medborgarskap genom fastighetsinvestering, så han har nog köpt något hus eller lägenhet och chillar i värmen.
Turkiet vet garanterat att han är där och vart han är men dom kollar aldrig lämna ut han speciellt inte nu när han är turkisk medborgare.

I den undersökta mobiltelefonen BG10755-3 har det påträffats en film som av utredare har bedömts kunna vara av intresse för utredningen. Undertecknad har därför sammanställts nedanstående information som kan kopplas till filmen.

Filmen har filnamnet "IMG_2355.MOV" och är tre sekunder lång. Det föreställer vad som förefaller vara en våg med ett vitt pulvet på. Vågen omges av vad som kan vara ett gulrött tyg.

Enligt filmens exif-data är den inspelad den 15 januari 2023 klockan 00:45:19. Inspelningen har gjorts med en Iphone Xs Max och den modellen överensstämmer med modellen på den undersökta mobiltelefonen. Filmen innehåller positionsdata i form av koordinaterna 62.381900, 17.321300. Koordinaterna motsvarar Fridhemsgatan 30 i Sundsvall.

Sökvägen för filmen är "/private/var/mobile/Media/" och den har markerats som "kastad" vilket innebär att en användare valt att radera filmen men att den ännu inte raderats. Filmen har kastats den 15 januari 2023 klockan 01:04:28.

Det finns inget som tyder på att filmen inte skulle vara inspelad med den aktuella mobiltelefonen. Det finns heller inget som tyder på att filmen skulle vara delad. Men den senare omständigheten skulle behöva ytterligare undersökas för att fastställa att så är fallet.

Undertecknad har blivit ombedd av utredare att undersöka om det är så att mobiltelefonen 2023-5000-BG10755-3 som tillhör Sandra Söderstedt kan öppnas med ansiktssigenkänning med andra ansikten än Sandra Söderstedts ansikte.

Mobiltelefonen är en Iphone Xs med operativsystemet IOS version 15.5. I operativsystemet finns stöd för att utöka ansiktssigenkännings funktion med ett alternativt utseende. Detta skulle i praktiken kunna innebära att mobiltelefonen var konfigurerad för att kunna låsas upp med ytterligare ett annat ansikte än Sandra Söderstedts ansikte. Denna funktion var dock inte aktiverad i Sandra Söderstedts mobiltelefon.

Däremot var funktionerna "Kräv uppmärksamhet för Face ID" och "Uppmärksamhetsfunktioner" aktiverade för ansiktssupplåsningen vilket innebär en utökad säkerhet av ansiktssupplåsningen som funktion.

Undertecknad har aldrig hört talas om en Iphone som haft en ansiktssupplåsningssfunktion som varit hård- eller mjukvarumässigt defekt och finner det högst osannolikt att det skulle förhålla sig så gällande Sandra Söderstedts mobiltelefon.

Brukare Hurany Bahaa

Brukaranalys Signalalias "Bika"

Det talar för att brukaren av signalalias Bika är:

Information från Beslag BG54897-1 (Delad mobiltömning från ärende 5000-K195482-23)

I det beslaget finns ett signalalias "nobody" vars första historik är 2023-03-17, alltså ca två månader efter tidpunkten som är aktuell i ärende K91779-23.

Beslaget togs 2023-05-11 och när Bahaa Hurany greps så satt han i bilen och hade telefonen i handen¹. I telefonen satt ett SIM-kort med telefonnummer 46735940770

Signalaliaset "Bika" kopplas till telefonnummer 46702267401 vilket går till Bahaas flickvän. För att skapa ett Signalkonto krävs att man lämnar ett telefonnummer vilket det går ett bekräftelse-SMS till. Detta nummer behöver inte vara detsamma som går till den telefon som signalkontot sedan används på.

I chattar som redovisas på kommande sidor kallar sig brukaren för olika varianter av Bika. Brukarens telefonnummer är 0735940770 vilket kopplas till Bahaa via polisens utredningssystem då han gör en anmälan om förlorat gods och uppger detta telefonnummer själv². Som sagt ovan finns även detta nummer i den beslagtagna telefonen vid beslagstillfället.

Sammanfattning

Telefonnummer 0735940770 har brukats av Bahaa minst under tiden från den förlorade godsanmälan 221101 fram till att telefonen tas i beslag 230511. Under den tiden finns de chattar som redovisas på kommande sidor där brukaren kallar sig själv för bika.

¹ Enligt beslagsprotokollet

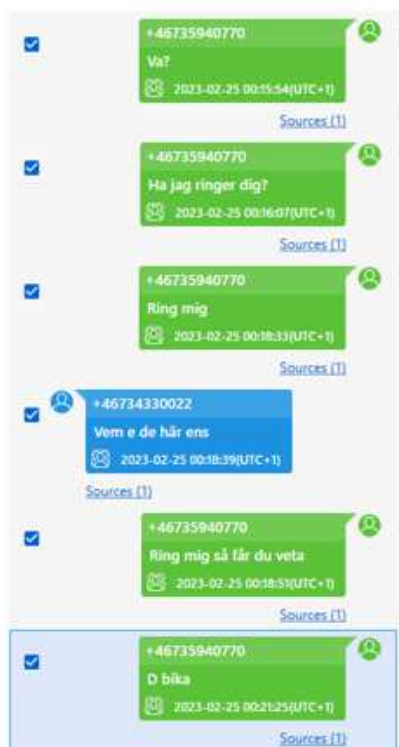

² 2022-11-01

I telefonen finns en chatt där brukaren kallar sig själv för "Bika" enligt nedan:

1 Inledning

I ärendet har förekommit två alias – **Brorsan**   och **Hitler**  – i de meddelandenotiser från appen Signal som säkrats ur olika mobiltelefoner.

Dessa alias knyts till samma telefonnummer och bedöms därför samma användare som försetts med olika visningsnamn, antingen av användaren Brorsan/Hitler själv i Signal-appen eller genom förekomst i respektive mottagares kontaktbok, alltså att mottagaren sparat numret under ett visst namn i sin egen telefon.

Omständigheterna som ligger till grund för slutsatsen kommer att redovisas i denna rapport.

Särskilt angående bortfallna -tecken i notiserna

I den typen av notiser som i ärendet extraherats kopplat till appen Signal så förekommer aldrig tecknet  trots att det i samma mobiltelefons telefonbok kan ses att kontakten i fråga är döpt innehållande ett sådant tecken.

Detta beror på tekniska orsaker¹ och skall alltså inte tolkas som att kontakterna döpta till ”Brorsan  ” är en annan kontakt än den ”Brorsan ” som syns i de Signal-notiser som förekommer i utredningen.

I detta ligger också att kontakterna ”Hitler ” inte skall tolkas som en annan användare än det som i notiser endast presenteras som ”Hitler” utan synligt specialtecken.

1.1 HDA-contacts, Soran Mirzai

I den hemliga dataavläsning som riktats mot Soran Mirzai förekommer båda alias i den data om telefonens kontakter som hämtats in. I båda fall är det samma nummer som är aktuellt, **+966561384640**.

1.2 Mohamad Nour Shich Khalils egna uppgifter

I förhör² har Mohamad fått frågor kopplat till konkreta chattmeddelanden som förevisats honom på nedan sätt.

Förklaringar har då lämnats på ett sätt som innebär att han står bakom meddelandena vilket styrker att -tecknens frånvaro har en teknisk förklaring och att det finns ett samband mellan de båda visningsnamnen.

1.3 McDonalds i Söderhamn

De två aliasen Reaper La och Brorsan skriver ungefär samtidigt på eftermiddagen den 21 januari att det skall ätas mat. Meddelandena skrivs till Kp.

Datum	Tid	Från	Till	Meddelande
2023-01-21	15:20:24	Reaper La	Kp	Påväg bror ska äta mat nu
2023-01-21	15:21:05	Brorsan ♥	Kp	Ska bara kaka i söderhamn

Abdullatif Saifo kopplas genom sitt telefonnummer till signal-aliaset Reaper La. I hans mobiltelefon BG18484-1 finns i samband med ovan meddelanden två geotaggade filmer. Filmerna är båda geotaggade på McDonalds i Söderhamn.

Till höger visas platsdata i Saifos mobiltelefon för besök på en koordinatsatt plats mellan ca 15:26 och 16:18.

Nertill finns den angivna koordinaten visad på karta, den placerar sig på McDonalds i Söderhamn.

De båda filmerna visar i huvudsak samma sak där det uppfattas som att filmaren sitter på ena sidan av ett bord och filmar personen mittemot, därefter ut genom fönstret. Stillbild ur varje klipp visas nedan, personen bedöms vara Mohamad Nour Shich Khalil, även kallad Kira.

Efter att ovan person filmats vänds filmerna att visa vyn ut genom fönstret där nedan syn kan ses. En skylt med flera sektioner, tre McDonalds-flaggor och en rutmönstrad avgränsning mot serveringen. Stillbild ur mobilfilmen:

En jämförelsebild hämtad från Google Maps visas nedan med likadana detaljer som från mobilfilmen.

Sammantaget talar det starkt för att Saifo och Kira ätit tillsammans på McDonalds och att de var för sig skickat de inledande meddelandena till Soran Mirzai, Saifo som *Reaper La* och Kira som *Brorsan* ♡.

2 Numrets förekomster i kontaktböcker

Det för båda alias aktuella telefonnumret +966561384640 förekommer i flera av kontaktlistorna i mobiltelefoner som beslagtogs i ärendet. Avsnittet kommer att redovisa dessa kontakter och hur det ser ut i respektive mobiltelefon där information anträffats om numret.

2.1 Soran Mirzai, mobil BG10755-2

I telefonboken för den beslagtagna mobiltelefonen finns flera förekomster av numret. Den vänstra bilden saknar källa angående app, den högra visar att kontakten härstammar från appen Whatsapp. Båda kontakter har samma +96-nummer och namnet **Brorsan** 🇵🇸❤️. Utöver dessa två finns i telefonen ingen annan kontakt som innehåller ordet "brorsan" i någon del av kontaktnamnet.

2.2 SMS mellan Kira & Ayham

Kira skickar 2023-02-11 SMS på arabiska till Ayham (+46728 6 62).
Texten har översatts via Google Translate;

Kira:

"Vet du något om systemen till den som jobbar med dig..!"

När vill du svara och när vill du inte svara?

Stanna så här..! Och bli inte en kärring och en kärring, fortsätt ljuga och berättat för killarna att det kommer och försenar dem..!

Vi bryr oss inte om att komma för sent"

Ayham:

"Min älskling, polisen stoppade mig för att se min syster i en bil och frös medan jag var utanför, förutom en liten stund, de skulle åtala mig"

Kira:

"Bågevägen 63A"

Ayham:

"Ge mig numret på Umm Moataz"

"Abu Laito sa till mig att jag vill prata så här"

Kira:

SMS-logg som visar inkommande samtal från +46 769 32 75 80 den 18/1 klockan 12:17, 15:05 och 19:08. Numret är inlagt som kontakt med namnet Moataz (numret tillhör Koukeh, Moutaz Billah).

5.2 Webbhistorik

Det urval från den webbhistorik som granskats finns i separat bilaga.

2023-01-03:

Googlesökningar via Safari med sökorden ”svart kalasjnikov” på arabiska. Finns också sökorden ”dubbelpistol” och ”dubbel-hagelpistol” på arabiska.

2023-01-30 t.o.m. 2023-02-17:

Via Google Translate har diverse nyhetsartiklar (?) översatts från svenska till arabiska. Exempel på text som översatts;

”Likaså att restriktionerna bestrids och advokaten yrkar på att han ska försättas på fri fot.”

”Efter det beslutade rätten om stängda dörrar och yppandeförbud. Det innebär att allmänhet och medier får lämna rättssalen.”

”4. För angivet brott är inte föreskrivet lindrigare straff än fängelse i två år och det är inte uppenbart att skäl till häktning saknas 10. Annan grund eller särskilda skäl”

” Den sedan tidigare ostraffade ynglingen ser lugn och samlad ut när han får veta att han ska låsas in med restriktioner.

Även i det här fallet är det en gänglig tonårspojke, som nu ska låsas in eftersom han misstänks ha förberett sprängningar i Sundsvallsområdet.

Han är på sannolika skäl misstänkt för förberedelse till allmänfarlig ödeläggelse mellan den 21 och 26 januari i år, samt för grovt brott mot lagen om brandfarliga och explosiva varor. Enligt advokat Henrik Bodén förnekar han brott.”

2023-02-21:

Webbhistorik från Google med sökord såsom ”hotade vittnen Sundsvall” och ”press med plast”

Googlesökning ”sprängkapslar” på arabiska.
