Bearbetning och sammanställning av omdömen som är gjorda av köpare på Alexandrus säljsida på marknadsplatsen Agora.

Detta PM innehåller bearbetning och sammanfattning av flertalet skärmdumpar som är gjorda 2014-12-12, 2015-01-26 och 2015-01-28. Skärmdumparna innehåller alla omdömen som är gjorda av olika köpare på Alexandrus säljsida på Agora. Det är även taget skärmdumpar av Alexandrus profilsida vid samma tid som visar vilka narkotiska preparat han har till försäljning vid den specifika tidpunkten samt det totala antalet slutförda försäljningar.

Skärmdumparna har gjorts av Martin Lindahl, Internetspaningsgruppen Skåne.

Det man kan se på skärmdumpen, tagen 2015-01-26 över Alexandrus profilsida, är att Alexandrus blev aktiv på Agora för 1 år och 1 månad sedan. Alexandrus har alltså varit aktiv på Agora från åtminstone 2014-02-01. Vid tillfället för skärmdumpen hade Alexandrus mellan 200-300 slutförda försäljningar och 171 omdömen på sin profilsida.

Alexandrus marknadsför inget annat än narkotiska preparat på Agora och därför kan vi säga att han har mellan 200 och 300 överlåtelse på denna marknadsplats. Eftersom vi inte vet exakt antal överlåtelse så har vi räknat på det lägsta, alltså 200 överlåtelse.

Antal omdömen syns inte på Alexandrus profilsida utan är uträknade via skärmdumpar.

*Två poster, Dark Afghan Hash och Northern Lights, saknas det uppgift om pris från denna marknadsplats. Vi har dock kunnat konstatera, utifrån omdömena att Dark Afghan Hash är hasch och Northern Lights är marijuana. Därför har uträkningarna på Dark Afghan Hash gjorts på lägsta gram-pris på Moroccan Hash (0,04926 BTC), vilket är det billigaste haschet på Agora. Uträkning på Northern Lights har gjorts utifrån lägsta gram-pris på Amnesia Haze (0,0665386195 BTC).

Vid uträkning av hur mycket Bitcoin försäljningen har genererat så har det räknats med den lägsta prisuppgiften för varje preparat som är presenterade i PM:et *Uträkning av priser på Evolution och Agora samt värdet på Bitcoins.*

Vid uträkning av hur mycket försäljningen har genererat i svenska kronor så har det räknats med ett medelvärde för en Bitcoin som är presenterat i PM:et *Uträkning av priser på Evolution och Agora samt värdet på Bitcoins.* Värdet på en Bitcoin i detta fall är 3328 kr.

Vilket ger en försäljningssumma i svenska kronor:

$$55,53091112 \times 3328 = 184\,806,872 \text{ SEK}$$

Bearbetning och sammanställning av Alexandrus omdömen på marknadsplatsen Evolution

Detta PM innehåller en bearbetning och en sammanfattning av Alexandrus omdömen på marknadsplatsen Evolution. Omdömena är säkrade genom skärmdumpar från Alexandrus profil. Alexandrus har varit Vendor på Evolution sedan 2014-11-11 och första omdömet på marknadsplatsen är 2014-11-17. I detta PM har vi sammanställt omdömen mellan tidsperioden 2014-11-17 och 2015-01-28.

2015-01-28 är tidpunkten för sista möjliga omdöme innan polisen börjar kontrollera försändelserna 2015-01-27. Det är endast ett omdöme som är medräknat den 28:e och det med anledning av att det står i omdömet att han fick varorna efter 3 dagar. Denna beställning finns inte med i de kontrollerade försändelserna, därför har vi valt att ta med detta omdöme i sammanställningen.

Skärmdumparna är gjorda av Martin Lindahl, internetspaningsgruppen Skåne och Fredrik Holmgren, KUT Region Nord.

På skärmdumpen nedan från Evolution från 2015-01-26 kan vi utläsa från Alexandrus profilsida att han varit "Vendor" sedan 11 november 2014 samt att han senast var inloggad på sidan 2015-01-26.

Under "Feedback Ratings" kan vi utläsa att han har 573 positiva omdömen, 4 neutrala och 1 negativt omdöme. I rutan till höger om feedbacken kan vi dessutom utläsa att Alexandrus har rank "Level 5" (763).

Nedan ser vi ett urklipp ur en skärmdump från Evolution där de beskriver hur Evolutions ranking fungerar. Det är dålig kvalitet på bilden så nedan finns texten utskriven.

Ranks

Each vendor at the Evolution Marketplace is given a rank. This rank serves as an indication of the total experience a vendor has. Experience is expressed as the total number of sales that an individual vendor has made. Rank, in combination with vendor feedback, should provide an initial indication of the vendor's trustworthiness.

Rank	Total Sales	Revenue	Feedback
Level 1	0-24	n/a	n/a
Level 2	25-99	1 BTC	90%
Level 3	100-249	10 BTC	90%
Level 4	250-499	50 BTC	90%
Level 5	500+	100 BTC	90%

I texten står det följande:

"Each vendor at the Evolution Marketplace is given a rank. This rank serves as an indication of the total experience a vendor has. Experience is expressed as the total number of sales that an individual vendor has made. Rank, in combination with vendor feedback, should provide an initial indication of the vendor's trustworthiness."

På bilden till höger kan vi se att om man har över 500 total sales så är man en "level 5" säljare.

Rank	Total Sales	Revenue	Feedback
Level 1	0-24	n/a	n/a
Level 2	25-99	1 BTC	90%
Level 3	100-249	10 BTC	90%
Level 4	250-499	50 BTC	90%
Level 5	500+	100 BTC	90%

En förstord bild av ranking schemat:

Vi kan då konstatera att den siffra som står inom parantes efter "level 5" (763) är siffran på Alexandrus totala försäljning på Evolution fram till 2015-01-26. 578 (positiv, neutral och negativ feedback) är summan för alla som har finalized ett köp och lämnat feedback och av de som lämnat feedback har 433 st skrivit en kommentar till sin feedback. Via skärmdumpar har dessa 433 st omdömen kunnat säkras.

Alexandrus marknadsför inget annat än narkotika på Evolution och därför kan vi säga att han har 763 st överlåtelse på denna marknadsplats.

Exempel på hur omdömena kan se ut:

Sammanställning

Utifrån de omdömen som köpare har lagt på Alexandrus profil har vi kunnat sammanställa alla preparat och räknat ut antal och mängd. Summa Bitcoin är uträknad efter lägsta priset på varje preparat som presenteras i PM – ”Uträkning av priser på Evolution och Agora samt värdet på Bitcoins”.

Uträkningen och sammanställningen blir då följande:

Preparat:	Antal försändelser:	Mängd:	Summa BTC:
Northern Lights	156 st	1485g	98,8098499575*
LSD	68 st	595 st	6,14278
MDMA	107 st	144g	25,97184
Moroccan Hash	27 st	160g	7,8816
Pollen Hash	17st	115g	6,73785
Hash Oil	38 st	162,5g	13,043875
White-citrus fudge pieces	16st	105st	3,25605
Vanilla fudge pieces	2st	15st	0,46515
Custom	2	Okänd	-
Summa:	433 st		162,308995

*Preparatet ”Northern Lights” har vi dessvärre ingen prisuppgift på. Vi har dock kunnat konstatera, utifrån omdömena att Northern Lights är marijuana. Därför har vi gjort en uträkning utifrån lägsta gram-pris på Amnesia Haze, som också är marijuana och som finns på marknadsplatsen Agora under samma tidsperiod. (Lägsta grampris på Amnesia Haze är 0,0665386195)

Växlingskurs

Värdet på en Bitcoin har räknats ut genom att kontrollera växlingskursen gentemot den svenska kronan (SEK) under perioden Alexandrus är aktiv på Evolution.

Kursen har inhämtats från liveexchange.com, Coindesk.com/price och Ekonomifakta.se.

Värde på 1 BTC:

Datum	Värde SEK
2015-02-01	1 867
2015-01-01	2 456
2014-12-01	2 826

Medelvärdet på en Bitcoin, under tiden Alexandrus har varit aktiv som försäljare på Evolution(20141101-20150201), innan de kontrollerade försändelserna blir då: 2385 kr.

Uträkningen på hur mycket Alexandrus har tjänat under denna period blir följande:

162,308995 x 2385 = 387 106,953 SEK

Skitgräs, sämsta jag köpt online någonsin. Riktigt bottenapp så sätter negativt för har alltid fått top notch grejer av den här säljaren innan men det här var rent skräp. Inte flushat, typ 1 miljon mikroskopiska frön, rimligen paniskördat. River i halsen och rent obehagligt att röka pga all “frö-embryon”;. 100% bortkastade pengar!

Rekommenderas starkt. Det enda negativa är lite klet under meckning, men vad
 offrar man inte om man vill ha färskvara, potent som karlssons klister ? Fint
 utskick, och bra hantering. Denna säljare håller alltid måttet.

Tummen upp!

Smaken är inte dum heller. Starkt rekommenderat, om du vill spara lite lungor.

Description

Note: This picture is only representative, the appearance may vary between batches

This listing is for 10 pieces of White-Citrus Fudge baked on our Hash Oil.

One White-Citrus fudge piece has about the same strength as our previous "Extra Strong Cookies".

WARNING!

These edibles are very potent!

We do not recommend to mix it with other potent substances.

Take care of your mind!

For optimal effect make sure you haven't eaten for ~5 hours before ingesting the edible.

It can take between 15-120min before you start to feel the effect.

That mainly depends on how much food your system already is processing.

The effect can last up to 12 hours so make sure to be ready for it.

If you have a low tolerance we recommend that you don't take more than quarter of a piece to start with.

We do not recommend to start with more than half a piece unless you have a very high tolerance.

Ingredients:

White Chocolate, Sugar, Honey, Cream, hash oil-butter, Lemon Juice
