Dnr 4689-16

Granskings PM avseende transaktioner I samband med förvärv av aktier I Positiv Pension.

1. Uppdraget

Genomgång av inhämtade kontoutdrag avseende Assume Holding AB, 556913-1518, och Dynamiq Creation AB, 556861-9216, med syfte att kartlägga och sammanställa inbetalningar från ABS Investment Group LLC och närstående samt ersättningar som kan kopplas till Aktieöverlåtelseavtalet avseende aktierna i Positiv Pension AB, 556791-9856, daterat 2013-06-28 samt ändringsavtal daterat 2014-08-22.

2. Tillgängligt material

Kontoutdrag har inhämtats enligt följande:
SEB 5044 11 911 34, Dynamiq Creation AB, period 2013-01-01—2015-12-31
Swedbank 8105-9 934 350 800-9, Assume Holding AB, period 2013-01-01—2015-12-31
Dokumentation av inbetalningar har begärts från bankerna. Erhållna uppgifter återfinns i sammanställningarna i bilaga 1 och 2.
Avtal, överföringsuppgifter och annan information har erhållits från beslag.

3. Aktieöverlåtelseavtal – Kort sammanfattning

Avtalet innebär att ABS Investment Group LLC förvärvar aktierna i Positiv Pension AB, 556791-9856. Säljarna är Assume Holding AB, 556913-1518 och Dynamiq Creation AB, 556861-9216. Säljarna är innehavare av samtliga aktier.

Mark Bishop ställer personlig borgen för avtalets fullgörande upp till 50 M SEK.

Då samtliga villkor för över övergången av ägande rätten till aktierna är uppfylld, "Closing Date", senast 2013-07-03, ska följande erläggas:

- Köpeskilling bestående av fast procentsats beräknad på kunders PPM-investeringar. Gäller både "Clients" och Additional Clients" i enlighet med avtalet.
- Erläggande av ett belopp motsvarande fritt eget kapital efter avdrag för beräknad bolagsskatt.

Utöver ovan ska köparen under 36 månader från Closing Date erlägga följande:

- Köparen ska, genom dotterbolag eller tredje part, fortsätta uppbära betalning för den årliga kontraktsavgiften. Den ackumulerade avgiften ska en gång i månaden överföras till säljarna.
- Köparen ska även erlägga sk Fund Revenue månatligen till säljarna.

Genom avtal daterat 2014-08-22 sker en del förändringar av beräknad ytterligare köpeskilling. Köpeskillingen betalas i enlighet med detta avtal from augusti 2014.

4. Transaktioner på granskade konton

Under perioden 2013-06-28 –2015-05-13 erhåller bolagen sammanlagt vardera följande:
Dynamiq Creation AB – 50 492 161 SEK, bilaga 1
Assume Holding AB – 50 636 687 SEK, bilaga 2

1

Fup bilaga 15 B

Den första ersättningen som erläggs är, enligt p 4.3 38,5 M SEK. Inbetalningen sker 2013-06-28 med 19 250 000 SEK vardera till Assume och Dynamiq. Inbetalning sker från Advokatfirman Fylgias klientmedelskonto. Fylgia företräder, enligt avtalet, ABS Investment Group LLC. Överföring av 5 750 000 USD från ABS Investment Group LLC till Fylgia Advokatbyrå, klientmedelskonto, sker 2013-06-24, bilaga 3.

Löpande ersättning till Assume och Dynamiq sker i enlighet med avtalet. Inbetalare är ABS Investment Group LLC, Commercewest/Wells Fargo bank. Vid ett tillfälle 2014-09-16 sker inbetalningen från Twelve Nine LLC, bilaga 4 och 5.

Solid Venture Capital Ltd, 05179108, överför 2015-05-04 10 044 992 SEK till MAQS advokatbyrås klientmedelskonto. Inbetalningen är för ABSIG LLC, bilaga 6.

Slutbetalning erläggs 2015-05-13 , text i Dynamiqs kontoutdrag säger "SLUTBET PP", med 5 022 495 SEK till vardera Assume och Dynamiq. Inbetalningen kommer från MAQS Advokatbyrås klientmedelskonto i SEB. MAQS företräder, enligt avtalet, Dynamiq och Assume.

Fr o m 2014-08-27 hänvisas i texten i kontoutdrag till "Amendment Dated 22 Aug 2014".

Gunilla Stare

Bilaga 1. Dynamic Creation SEB. Excelsammanställning av transaktioner i enlighet med uppdraget. Bilagan upprättad av Ekorev. G Stare.
Bilaga 2. Assume Holding Swedbank. Excelsammanställning av transaktioner i enlighet med uppdraget. Bilagan upprättad av Ekorev. G Stare.
Bilaga 3. BG721-3 Kontoöverföring till klientmedelskonto Fylgia, 5 750 000 UDS.
Bilaga 4. BG721-3 Överföring från Twelve Nine LLC till Assume.
Bilaga 5. BG721-3 Överföring från Twelve Nine LLC till Dynamiq.
Bilaga 6. BG721-3 Solid Venture Capital Ltd överför 10 044 992 SEK för ABSIG LLC.

Term Loan Facility Agreement

Dated 30 April 2015

for

A.B.S.I.G LLC

as Borrower

provided by

Solid Venture Capital Ltd (entity number 05179108)

as Lender

</div>

THIS AGREEMENT is dated 30 April 2015 and made between:

(1)   **A.B.S.I.G. LLC**, reg. no. EIN 26-2582511, 707 Broadway, 18th Floor, San Diego, CA 9210, United States ("**Borrower**"); and

(2)   **SOLID VENTURE CAPITAL LTD**, a company incorporated and in England, with the company number 05179108, and whose registered office is at 869 High Road, London, England, N12 8QA ("SVC") ("**Lender**")

IT IS AGREED as follows:

1.   **Definitions and Interpretations**

1.1   In this Agreement, unless the context requires otherwise:

Borrowed Money: any indebtedness the Borrower owes as a result of:

(a) borrowing or raising money (with or without security), including any premium and any capitalised interest on that money;

(b) any bond, note, loan stock, debenture, commercial paper or similar instrument;

Fup bilaga 15 B

(c) any acceptance credit facility or dematerialised equivalent, bill-discounting, note purchase or documentary credit facilities;

(d) monies raised by selling, assigning or discounting receivables or other financial assets on terms that recourse may be had to the Borrower if those receivables or financial assets are not paid when due;

(e) any deferred payment for assets or services acquired, other than trade credit that is given in the ordinary course of trading and which does not involve any deferred payment of any amount for more than 60 days;

(f) any rental or hire charges under finance leases (whether for land, machinery, equipment or otherwise);

(g) any counter-indemnity obligation in respect of any guarantee, bond, indemnity, standby letter of credit or other instrument issued by a third party in connection with the Borrower's performance of contracts;

(h) any other transaction that has the commercial effect of borrowing (including any forward sale or purchase agreement and any liabilities which are not shown as borrowed money on the Borrower's balance sheet because they are contingent, conditional or otherwise);

(i) any derivative transaction entered into in connection with protection against or benefit from fluctuation in any rate or price (and when calculating the value of any derivative transaction, only the mark to market value shall be taken into account); and

(j) any guarantee, counter-indemnity or other assurances against financial loss that the Borrower has given for any of the items referred to in paragraphs (a) to (i) of this definition incurred by any person.

When calculating Borrowed Money, no liability shall be taken into account more than once.

"**Business Day**" means a day (other than a Saturday or Sunday or public holiday) on which banks are open for general business to effect transactions of the kind contemplated in this Agreement in (a) Stockholm AND (b) in relation to any date for payment where the currency in question is not SEK or Euros then the principal financial center of the country of that currency

"**Event of Default**" means any event or circumstance referred to in clause 10b;

"**Finance Document**" this Agreement and any other document designated as such by the Lender;

"**Indebtedness**" includes any obligation, whether incurred as principal or surety, for the payment or repayment of money, whether actual or contingent, present or future, secured or unsecured;

15

Fup bilaga 15 B

"**Loan**" means the amount of SEK 13.073.073 or (as the case may be) the principal amount for the time being outstanding from the Borrower to the Lender under this Agreement (including, if applicable, any capitalized interest thereon);

"**Potential Event of Default**" means any event or circumstance which, with the expiry of a grace period, giving of notice, or fulfillment of any other condition, would be an Event of Default;

"**Related Parties**" a party's parent, subsidiaries, assigns, transferees, representatives, principals, agents, officers or directors;

"**Repayment Date**" the day falling 6 months after the date of this Agreement (or if such day is not a Business Day then the immediately preceding Business Day);

"**Security**" any mortgage, charge (whether fixed or floating, legal or equitable), pledge, lien, assignment by way of security or other security interest securing any obligation of any person or any other agreement or arrangement having a similar effect;

1.2 References to the "**Borrower**", the "**Lender**", or the parties shall be construed so as to include its successors in title, permitted assigns and permitted transferees.

1.3 Clause headings shall not affect the interpretation of this Agreement.

1.4 A reference to a **person** shall include a reference to an individual, firm, company, corporation, partnership, unincorporated body of persons, government, state or agency of a state or any association, trust, joint venture or consortium (whether or not having separate legal personality) and that person's personal representatives, successors, permitted assigns and permitted transferees

1.5 Unless the context otherwise requires, words in the singular shall include the plural and in the plural shall include the singular.

1.6 Unless the context otherwise requires, a reference to one gender shall include a reference to the other genders.

1.7 A reference to a statute or statutory provision is a reference to it as amended, extended or re-enacted from time to time.

1.8 A reference to a statute or statutory provision shall include all subordinate legislation made from time to time under that statute or statutory provision.

1.9 A reference to **writing** or **written** includes e-mail.

1.10 A reference to **this agreement** or **a Finance Document** (or any provision of it) or to any other agreement or document referred to in this agreement or any Finance Document is a reference to this agreement or Finance Document, that provision or such other agreement or document as amended (in each case, other than in breach of the provisions of this agreement) from time to time.

16

Fup bilaga 15 B

1.11   Unless the context otherwise requires, a reference to a clause is to a clause of this Agreement.

1.12   Any words following the terms **including, include, in particular, for example** or any similar expression shall be construed as illustrative and shall not limit the sense of the words, description, definition, phrase or term preceding those terms.

2.   **The Facility**

2.1   The Lender makes available to the Borrower a term loan facility of up to a total principal amount of SEK 13.073.073 on the terms and subject to the conditions of this Agreement.

2.2   Such sum as is referred to in clause 2.1 shall be remitted by the Lender to the Borrower by electronic transfer as follows:-

as to the sum of SEK 10.044.992 to the following account:-   06/05/15

MAQS Advokatbyrå Göteborg AB, SEB, SE-405 04 Gothenburg, Sweden, account number: 5001 1169796, IBAN: SE63 5000 0000 0500 1116 9796, BIC: ESSESESS

(**"First Payment"**)

as to the sum of 3.028.081 to the following account:-

Stellum Kapitalförvaltning AB, Danske Bank Iban: SE 7412000000013080123875   15/06/15

Swift: DABASESX   2300

(**"Second Payment"**)

3.   **Purpose**

3.1   The purpose of the Loan shall be to enable the Borrower to:-

(a)   procure that A.B.S. Investment Group LLC, a Related Party of the Borrower, does pay all and any outstanding payment obligations it has pursuant to a share purchase agreement (which was subsequently amended) that it entered into with Assume Holding AB and Dynamiq Creation AB on 29th April 2014 concerning the acquisition by it of the issued shares of Positiv Pension I Sverige AB which payment obligations are set out in the settlement agreement appended hereto as Annex A and represented by the First Payment; and

(b)   discharge on behalf of Optimus Fonder AB the invoice appended hereto as Annex B and represented by the Second Payment.

4.   **Repayment and Prepayment**

4.1   The Loan shall be repaid in full on the Repayment Date.

Fup bilaga 15 B

17

4.2 Subject to clause 4.1, the Borrower may prepay the Loan in full (but not part) after having given written notice to the Lender of its intention so to do such notice to expire no earlier than 1 week from the date any notice is given under this clause.

4.3 Upon repayment of the Loan in full, this Agreement shall terminate (but without prejudice to any accrued rights of the Lender).

5. **Intentionally Blank**

6. **Interest and Fees**

6.1 The Borrower shall pay interest on the Loan calculated at a nominal rate of 30% per annum, accruing and compounded daily.

6.2 The Borrower shall pay the interest on the Repayment Date, or if earlier when the Loan is repaid.

7. **Interest on an Overdue Amount**

7.1 If a sum payable under this Agreement is not paid when due, the overdue amount shall bear interest on a monthly basis (but which shall have been compounded daily) from the due date to the date of actual payment at a rate equal to 5% per annum above the rate specified in clause 6 above.

8. **Tax**

8.1 If the Borrower is compelled by law to make any deduction or withholding for or on account of tax from any payment, whether of principal, interest or otherwise, or the Lender is compelled by law to make any payment in respect of tax (other than tax on overall net income), in each case from or in respect of any amount payable or paid by the Borrower hereunder, the Borrower will pay to the Lender such additional amount as is required to ensure that the Lender receives and retains (free from liability in respect of any such deduction or withholding) a net amount equal to the full amount which it would have received if no such deduction, withholding or payment had been made.

8.2 All taxes required by law to be deducted or withheld by the Borrower from any amounts payable or paid hereunder shall be paid by the Borrower to the appropriate authority within the time allowed for such payment under applicable law and the Borrower shall, within 30 days of the payment being made, deliver to the Lender evidence reasonably satisfactory to the Lender (including all relevant tax receipts) that the payment has been duly remitted to the appropriate authority.

9. **Representations and Warranties**

9.1 By entering into this Agreement, the Borrower represents and warrants to the Lender on the date of this Agreement that:

Fup bilaga 15 B

18

(a) (i) it is a limited liability company, duly incorporated and validly existing under the law of its jurisdiction of incorporation;

    (ii) it and each of its Subsidiaries has the power to own its assets and carry on its business as it is being conducted;

(b) the obligations expressed to be assumed by it in the Finance Documents to which it is a party, are legal, valid, binding and enforceable obligations;

(c) the entry into and performance by it of, and the transactions contemplated by, the Finance Documents to which it is a party do not and will not conflict with:

    (i) any law or regulation applicable to it;

    (ii) its constitutional documents; or

    (iii) any agreement or instrument binding upon it or any of its assets;

(d) it has the power to enter into, perform and deliver, and has taken all necessary action to authorize its entry into, performance and delivery of, those Finance Documents to which it is a party and the transactions contemplated by such Finance Documents;

(e) all authorizations required or desirable to enable it lawfully to enter into, exercise its rights and comply with its obligations in this Agreement and in respect of the other Finance Documents have been obtained or effected and are in full force and effect;

(f) (i) no Event of Default or Potential Event of Default is continuing or might reasonably be expected to result from receipt of the sum referred to in clause 2.1 or the payments of the sums referred to in clause 2.2;

    (ii) no other event or circumstance is outstanding which constitutes a default under any other agreement or instrument which is binding on it or to which its assets are subject which might have a material adverse effect on the financial condition or business operations of the Borrower and;

(g) (i) any factual information provided by it to the Lender was true and accurate in all material respects as at the date it was provided or as at the date (if any) at which it is stated;

    (ii) any financial projections provided by it to the Lender have been prepared on the basis of recent historical information on the basis of reasonable assumptions;

    (iii) nothing has occurred since the date that any such information was provided or has been omitted from such information provided to the Lender and no information has been given or withheld by it that results in the information supplied being untrue or misleading in any material respect;

(h) No litigation, arbitration or administrative proceedings are taking place, pending or, to the Borrower's knowledge, threatened against it, any of its directors or any of its assets, which might reasonably be expected to have a material adverse effect on its business, assets or condition, or its ability to perform its obligations under the Finance Documents.

19

Fup bilaga 15 B

10. Covenants

10.1 The Borrower covenants with the Lender that, as from the date of this agreement until all its liabilities under the Finance Documents have been discharged:

(a) it will comply, in all respect, with all laws, if failure to do so has or is reasonably likely to have a material adverse effect on its business, assets or condition, or its ability to perform its obligations under this agreement;

(b) it will notify the Lender of any Potential Event of Default or Event of Default (and the steps, if any, being taken to remedy it) promptly on becoming aware of its occurrence;

(c) if the Lender is obliged for any reason to comply with "know your customer" or similar identification procedures in circumstances where the necessary information is not already available to it, the Borrower will, promptly on the request of the Lender, supply (or procure the supply of) such documentation and other evidence as is reasonably requested in order for the Lender to be able to carry out, and be satisfied that it has complied with, all necessary "know your customer" or other similar checks under all applicable laws and regulations pursuant to the transactions contemplated in the Finance Documents;

(d) it will carry on and conduct its business in a proper and efficient manner and will not make any change to the general nature or scope of its business as carried on at the date of this agreement.

(e) it will not:

(i) create, or permit to subsist, any Security on or over any of its assets;

(ii) sell, transfer or otherwise dispose of any of its assets on terms whereby such assets are or may be leased to or re-acquired or acquired by it; or

(iii) sell, transfer or otherwise dispose of any of its receivables on recourse terms; or

(iv) enter into any arrangement under which money or the benefit of a bank or other account may be applied, set-off or made subject to a combination of accounts; or

(v) enter into any other preferential arrangement having a similar effect,

in circumstances where the arrangement or transaction is entered into primarily as a method of raising Borrowed Money or of financing the acquisition of an asset.

20

Fup bilaga 15 B

(f)   it will not incur or permit to subsist, any obligation for Borrowed Money.

10b.   Events of Default

10b.1   Each of the events or circumstances set out in this clause is an Event of Default.

(a)   The Borrower does not pay on the due date any amount payable pursuant to any Finance Document at the place at and in the currency in which it is expressed to be payable unless its failure to pay is caused by administrative or technical error, and payment is made within three Business Days of its due date.

(b)   (i)   The Borrower does not comply with any provision of any Finance Document (other than those referred to in clause 10b a).

   (ii)   No Event of Default under (i) above will occur if the failure to comply is capable of remedy and is remedied within (10) Business Days of the Lender giving notice to the Borrower or the Borrower becoming aware of the failure to comply.

(c)   Any representation or statement made or deemed to be made by the Borrower in the Agreement or any other document delivered by or on behalf of the Borrower under or in connection with any Finance Document is or proves to have been incorrect or misleading in any material respect when made or deemed to be made.

(d)   Any corporate action, legal proceedings or other procedure or step is taken in relation to the Borrower:

   (i)   the suspension of payments, a moratorium of any indebtedness, winding-up, dissolution, administration or reorganization (by way of voluntary arrangement, scheme of arrangement or otherwise);

   (ii)   a composition, assignment or arrangement with any creditor;

   (iii)   the appointment of a liquidator, receiver, administrator, administrative receiver, compulsory manager or other similar officer in respect of it or its assets; or

   (iv)   enforcement of any Security Interest over any of its assets,

   or any analogous procedure or step is taken in any jurisdiction.

(e)   It is or becomes unlawful for the Borrower to perform any of its obligations under a Finance Document.

(f)   any provision of any Finance Document is or becomes, for any reason, invalid, unlawful, unenforceable, terminated, disputed or ceases to be effective or to have full force and effect.

(g)   The Borrower repudiates or evidences an intention to repudiate any Finance Document.

Fup bilaga 15 B

(h)   The Borrower suspends or ceases to carry on (or threatens to suspend or cease to carry on) all or a substantial part of its business.

(i)   Any event occurs (or circumstances exist) which, in the opinion of the Lender, has or is likely to materially and adversely affect the Borrower's ability to perform all or any of its obligations under, or otherwise comply with the terms of, any Finance Document.

10b.2 On and at any time after an Event of Default the Loan, and all accrued interest and other amounts owing under the Finance Documents shall become repayable forthwith on demand in writing made by the Lender at any time.

11.   Assignment and Transfer

11.1   The Borrower may not assign or transfer any of its rights or obligations under or in respect of any Finance Document.

11.2   The Lender may, at any time, assign and/or transfer all or any of its rights, benefits and/or obligations in respect of this Agreement in whole or in part to any person.

11.3   The Borrower acknowledges that any person to which the rights, benefits and/or obligations of the Lender may from time to time be so assigned and/or transferred, shall be entitled to share the benefit of this Agreement as if such person had constituted an original lender under this Agreement to the extent of such transfer and/or assignment.

12.   Set-off

The Lender may set off any matured obligation due from the Borrower under the Finance Documents against any matured obligation owed by the Lender to the Borrower, regardless of the place of payment, booking branch or currency of either obligation. If the obligations are in different currencies, the Lender may convert either obligation at a market rate of exchange for the purpose of the set-off.

13.   Notices

Every notice, request or other communication shall be:

(a)   in writing delivered personally or by prepaid first class letter, facsimile transmission, e-mail or other electronic communication approved by the Lender;

(b)   deemed to have been received, in the case of a letter when delivered personally or 48 hours after it has been sent by first class post or, in the case of facsimile transmission, at the time of transmission with a facsimile transmission report or other appropriate evidence (provided that if the date of transmission is not a Business Day it shall be deemed to have been received at the opening of business on the next Business Day)

22

or, in the case of e-mail or other electronic communication, when received in legible form and shall be irrevocable; and

(c)   sent (i) to the Borrower at the address stated at the beginning of this Agreement and (ii) to the Lender at its registered office , or to such other address in England as may be notified in writing by the relevant party to the other party.

All communications by the Borrower shall be effective only on actual receipt by the Lender.

14.   Remedies and waivers

No delay or omission by the Lender in exercising any right or power under any Finance Document shall impair such right or power, and any single or partial exercise of it shall not preclude any other or further exercise of it or the exercise of any other right or power. The rights and remedies of the Lender under any Finance Document are cumulative and not exclusive of any right or remedy provided by law.

15.   Indemnity

15.1   The Borrower shall indemnify the Lender on demand (without prejudice to the Lender's other rights) for any expense, loss or liability incurred by the Lender in consequence of (i) any default or delay by the Borrower in the payment of any amount when due under any Finance Document or (ii) any breach by the Borrower of any term or condition of any Finance Document.

15.2   If, for any reason, any amount payable under any Finance Document is paid or is recovered in a currency (the "other currency") other than that in which it is required to be paid (the "contractual currency"), then, to the extent that the payment to the Lender (when converted at the then applicable rate of exchange) falls short of the amount unpaid under any Finance Document, the Borrower shall, as a separate and independent obligation, fully indemnify the Lender on demand against the amount of the shortfall. For the purposes of this clause the expression "rate of exchange" means the rate at which the Lender is able as soon as practicable after receipt to purchase the contractual currency in London with the other currency.

16.   Counterparts

This Agreement may be executed in any number of counterparts, each of which when executed shall constitute a duplicate original, but all the counterparts shall together constitute one agreement.

17.   Third Party Rights

23

Fup bilaga 15 B

Except as expressly provided in this agreement, a person who is not a party to this agreement has no right under the Contracts (Rights of Third Parties) Act 1999 to enforce or enjoy the benefit of any term of this agreement. This does not affect any right or remedy of a third party which exists, or is available, apart from that Act.

18. Governing Law and Jurisdiction

18.1 This Agreement and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or claims) shall be governed by and construed in accordance with the law of England and Wales.

18.2 Each party irrevocably agrees that, subject as provided below, the courts of England and Wales shall have exclusive jurisdiction over any dispute or claim that arises out of, or in connection with this agreement or its subject matter or formation (including non-contractual disputes or claims). This Agreement will take effect and be dated the date on which all the parties have executed this Agreement and if not the same date, the later date will prevail.

IN WITNESS WHEREOF, the parties have executed this Agreement on the day first above mentioned.

PM avseende transaktioner i Boardwalk Co. Ltd, C60120

1. Inledning och syfte.

Boardwalk Co Ltd, Boardwalk, har utgivit Performanced Linked Bond, avkastningsrelaterad obligation, i samband med att Falcon Funds SICAV, Falcon, investerar i Boardwalk Real Estate ETI.

Syftet med uppdraget är att redogöra för transaktioner som har samband med Falcons investering och penningströmmar med anledning därav.

2. Allmänt om bolaget.

Bolaget registrerades 2013-04-22 i bolagsregistret på Malta. Samma datum registrerades Afram Gergeo som styrelseledamot, sekreterare och aktieägare.

Styrelse mm:

Datum	Namn	Uppdrag
2013-04-22--2016-05-14	Afram Gergeo	Ledamot
2013-04-22--2016-09-22	Afram Gergeo	Sekreterare
2015-07-15--2016-05-14	Pierre Mifsud	Ledamot
2015-07-15--2016-05-14	Adrian Chircop	Ledamot
2016-05-22--	Nils Georg Holmström	Sekreterare
2016-05-14--	Nils Georg Holmström	Ledamot

Aktieägare:

Daum	Aktieägare
2013-04-22--2013-12-19	Afram Gergeo
2013-12-19--2016-05-19	Boardwalk Ltd, 009108V, Isle of Man
2016-05-19--	Boardwalk Holding Ltd, C74723, Malta

Boardwalk Ltd – regnr 009108V - registrerades 2012-12-19 i bolagsregistret på Isle of Man. Equiom Ltd, Isle of Man är innehavare av Nomiee Shares enligt avtal 2014-01-15. Aktieägare och UBO, Ulitimate beneficial Owner, är Afram Gergeo. Enligt aktieöverlåtelseavtal förvärvar Boardwalk Ltd aktierna i Boardwalk för 233 EUR. Boardwalk Ltd försätts i likvidation och likvidator utses 2017-11-02.

Boardwalk Holding Ltd registreras 2016-04-19. Bolagets första styrelse består av Afram Gergeo, Pierre Mifsud och Adrian Chircop. Sekreterare är Afram Gergeo. Samtliga styrelseledamöter avgår 2016-05-19 och ersätts av Nils Georg Holmström. Afram Gergeo avgår som sekreterare 2016-09-22 och ersätts av Nils Georg Holmström. Under perioden 2016-04-19—2016-05-19 äger

25

Boardwalk Ltd samtliga aktier i Boardwalk Holding Ltd. Nils Georg Holmström förvärvar aktierna 2016-05-19.

3. Genomgång av bolagets konto hos Bank of Valletta samt transaktioner med anknytning till Falcon Funds SICAV's investeringar i olika finansiella instrument.

3.1 Transaktioner under 2013.

Bolaget öppnade konton hos bank of Valletta i juli 2013. Ansökan om bankkonton har undertecknats av Afram Gergeo. Från Bank of Valletta har kontoutdrag erhållits för följande konton:
40021736520, GBP
40021736533, USD
40021737558, EUR

Nedan följer en redogörelse av transaktioner.

I augusti sker de första transaktionerna. De enda större inbetalningarna som sker är följande:

Insatt

Datum	valuta	Insatt	Inbetalare
2013-07-08	EUR	300 000	Solid Venture Capital Ltd, Malta
2013-07-19	USD	250 000	Solid Venture Capital Ltd, UK
2013-07-29	USD	750 000	Solid Venture Capital Ltd, UK
2013-08-01	USD	225 000	Solid Venture Capital Ltd, UK
2013-08-27	USD	385 000	Solid Venture Capital Ltd, UK

Utbetalningar, större än 500 EUR/USD, från kontot sker enligt följande, beloppen är avrundade:

Uttag

Valuta	Belopp	Mottagare
EUR	4 000	AMEX, tre tillfällen
USD	10 000	Boardwalk Ltd, Isle of Man
EUR	60 000	Adrian Chircop, tre tillfällen
EUR	45 000	Stellum, två tillfällen

Saldon på bolagets konto uppgår 2013-12-31 till 192 122 EUR och 1 599 980 USD.

3.2 Transaktioner under 2014.

Under 2014 sker endast ett fåtal transaktioner avseende inbetalningar på bolagets konton i Bank of Valletta. Inbetalningarna avser främst återbetalning av lån från Emil Amir Ingmanson. Utöver ränta avser inbetalningarna återbetalningar av lån från Emil Amir Ingmanson vid fyra tillfällen.

Fördelning av återbetalningar per valuta:

USD	22 800
EUR	15 000

Utbetalningar uppgår till följande, beloppen är avrundade:

Uttag

Valuta	Mottagare	Belopp
USD	Solid Venture, Utlägg	29 536
USD	Solid Venture Capital Ltd, Malta	1 010 673
USD	RHM Invest	123 566
EUR	RHM Invest	50 040
EUR	AMEX	137 757
EUR	Solid Equity	97 064
USD	Solid Equity	30 033
USD	IKANO	47 381
EUR	Emil Spanien	4 008
USD	Emil Danske Bank	30 082
EUR	Emil Danske Bank	19 529
EUR	Emil Bank of Valletta	49 001
USD	Emil Bank of Valletta	5 000
EUR	Barbaros Okten	25 041
EUR	Valletta Fund Services	23 977
EUR	Falcon Fees	9 000
USD	Boardwalk	4 117
USD	Metropolitan LLP	2 381
EUR/GBP/USD	Övrigt	39 942

Saldon på bolagets konto uppgår 2014-12-31 till 1 031 EUR och 101 USD.

3.3 Transaktioner och händelser under 2015.

3.3.1 Händelser med koppling till värdepapper som Falcon Funds SICAV har investerat i.
3.3.1.1. Utgivande av obligationer.

Under 2015 sker en hel del omfattande transaktioner på bolagets konto. Ett avtal om att ge ut obligationer ingås 2015-03-17, bilaga 1. Avtalet har ingåtts mellan Boardwalk CO Ltd, ETI Securities plc och AI Undertaking III Inc, AIUIII.

Avtalet innebär kortfattat att Boardwalk Co Ltd ska emittera obligationer. ETI Securities åtar sig att investera i dessa genom sitt helägda dotterbolag AI Undertaking III.

I avtalet definieras underliggande tillgång, underlying, som alla tillgångar i Boardwalk vilka härrör från och är direkt hänförliga till betalningen för obligationerna och som Boardwalk har meddelat AIUIII såsom ryms inom denna definition för syftet med detta avtal. Obligationerna är inte överlåtbara. Vid inlösen ska max en årlig ränta om 12% betalas.

Avtalet är undertecknat av Afram Gergeo för Boardwalk och Andreas Wölfl för ETI Securities och AI Undertaking III Inc.

Dessa obligationer kommer att utgöra underliggande egendom i Boardwalk Real Estate ETI.

Fup bilaga 15 B

27

AIUIII betalar 2015-04-09 4 949 500 EUR till Boardwalks konto i Bank of Valletta i enlighet med avtalet.

3.3.1.2. Deltagande i nyemission av aktier i Werel AB.

Enligt bolagsstämmoprotokoll fört i Werel AB, bilaga 2, tecknar sig Boardwalk Co för 638 aktier i Werel AB. Priset för aktierna är 47 022 SEK/st. Ägarna i Werel företräddes av Emil Amir Ingmanson, Solid Venture Capital Ltd, Malta och Afram Gergeo som aktieägare och företrädare för Gergeo Holding .

Boardwalk Co erlägger emissionslikviden 2015-09-16 som uppgår till 3 273 367 EUR.

3.3.1.3. Försäljning av Werel-aktier.

Enligt aktieboken, bilaga 3, säljer Boardwalk Co 638 Werel-aktier till Larmag Energy Group. Aktieöverlåtelseavtal är ej tillgängligt.

Boardwalk Co erhåller betalning för dessa aktier 2015-12-23. Betalningen uppgår till 3 096 602 EUR. Av Boardwalks kontoutdrag framgår att inbetalare är Larmag Real Estate 2 BV.

I Larmag Real Estate 2 BVs kontoutdrag finns följande text:
Naam: Gergeo Invest AB // Omschrijving: Payment of shares // according to share purchase // agreement with Larmag Energy Group // IBAN: MT57VALL22013000000040021737558

Förvärvare enligt aktieboken är Larmag Energy Group BV.

De medel som inbetalaren Larmag Real Estate 2 BV betalar härrör från Falcons investering i Reditum-obligationen, se särskilt PM avseende Reditum.

3.3.1.4. Köp av Werel-aktier samt inlösen av Boardwalk-obligationen.

Enligt aktieboken, bilaga 4, förvärvade Boardwalk Co 1000 Werel-aktier från Solid Venture Capital Ltd, Malta. Aktieöverlåtelseavtalet saknas. Det sker ingen utbetalning från Boardwalks konto hos Bank of Valletta till Solid Venture i samband med detta datum.

Samma dag, 2015-12-07, förvärvar AI Undertaking III, enligt aktieboken bilaga 4, 1000 Werel-aktier från Boardwalk Co.

Enligt aktieöverlåtelseavtal förvärvar AI Undertaking III 1000 Werel-aktier för sammanlagt 4 949 950 EUR. Köpeskillingen erläggs genom att kvitta/avräkna köpeskillingen mot köparens fordran på Boardwalk Co. Köparen, AI Undertaking III's fordran uppgår genom obligationsavtalet till 4 949 950 EUR.

Genom detta förfarande har Boardwalk Co ingen skuld till AI Undertaking III. Underliggande egendom i Boardwalk Real Estate ETI utgörs av 1000 aktier i Werel istället för en fordran på Boardwalk i enlighet med obligationsavtalet.

3.3.5. Transaktioner på konton 2015.

Som framgår av tabellen nedan utgörs de två största insättningarna av transaktioner kopplade till investeringar som Falcon Funds SICAV gör i Boardwalk Real Estate ETI och Reditum-obligationen.

Emil och Aframs bolag Solid Venture Capital Ltd, UK, gör en del inbetalningar till Boardwalk. Inbetalningarna i EUR har skett efter att Solid Venture Capital Ltd, UK, har erhållit medel i samband med att Falcon Fund SICAV har investerat i Solid Venture P2P ETI.

CONTENTS

CLAUSE

32

Fup bilaga 15 B

THIS AGREEMENT is dated 17th March 2015

PARTIES

Boardwalk Co LTD incorporated in Malta with company number C60120 whose registered office is at Abacus, Suite 1, Psaila Street, Sta. Venera, Malta ("**Boardwalk**").

ETI SECURITIES PLC incorporated in Malta with company number C55602 whose registered office is at 116/118 St Georges Rd, Saint Julians, STJ320, Malta ("**ETI**")

AI UNDERTAKING III INC. incorporated in St. Vincent and the Grenadines with company number 21865 IBC 2013 whose registered office is at Trust House, 112 Bonadie Street, Kingstown, Saint Vincent ("**AIU**").

BACKGROUND

In accordance with a prospectus entitled "ETI Securities plc – Securities Note dated 12 March, 2015" ("**Prospectus**") ETI has agreed to issue certain Exchange Traded Instruments named "Boardwalk Real Estate ETI" ("**Securities**") to third parties.

The Securities constitute direct, secured and unsubordinated obligations of ETI. Any payment by ETI in respect of the Securities (and in particular, the redemption thereof) to third parties is dependent upon receipt by ETI of payments or proceeds from Collateral (as defined in the Prospectus) ("**Collateral**")

The Collateral is comprised of performance linked bonds issued by AIU. The terms and conditions of the Collateral are attached as Annex I to the Prospectus.

Boardwalk is a company offering financial consulting services but does not carry on any regulated activities, as defined by Financial Services and Markets Act 2000 ("**FSMA**") and is not authorised by the Financial Conduct Authority (the "**FCA**") under FSMA, or any other competent regulatory body.

ETI has agreed to utilise all proceeds of the Securities (net of certain agreed costs) to purchase (through its wholly-owned subsidiary AIU), certain bonds to be issued by Boardwalk ("**Bonds**").

Accordingly, Boardwalk has agreed to issue and AIU has agreed to purchase the Bonds on the terms and subject to the conditions of this agreement.

AGREED TERMS

1. INTERPRETATION

    The following definitions and rules of interpretation apply in this agreement.

1.1 Definitions:

    Business Day: a day other than a Saturday, Sunday or public holiday in England when banks in London are open for business.

    Underlying: all of the assets of Boardwalk which are derived from and directly attributable to the Monies only (and no other business or assets of Boardwalk) and which Boardwalk has notified to AIU as being contained within this definition for the purposes of this agreement.

3

Fup bilaga 15 B

1.2 A **person** includes a natural person, corporate or unincorporated body (whether or not having separate legal personality).

1.3 A reference to a statute or statutory provision is a reference to it as it is in force as at the date of this agreement.

1.4 A reference to a statute or statutory provision shall include all subordinate legislation made as at the date of this agreement under that statute or statutory provision.

1.5 A reference to **writing** or **written** includes e-mail but not fax.

1.6 Any words following the terms **including, include, in particular, for example** or any similar expression shall be construed as illustrative and shall not limit the sense of the words, description, definition, phrase or term preceding those terms.

1.7 References to clauses are to the clauses of this agreement.

2. SUSBCRIPTION FOR BONDS

2.1 ETI hereby irrevocably and unconditionally undertakes to procure that AIU does utilise all and any monies received by ETI from purchasers of the Securities (less an amount equal to any costs reasonably and properly incurred by ETI PLUS any monies retained for liquidity purposes as disclosed in the Prospectus) ("**Monies**") for the subscription of Bonds within 3 days of any such Monies being received by ETI.

2.2 All Monies are to be transmitted by telegraphic transfer for same day value to the euro account of Boardwalk, details of which are:-

```
Bank of Valletta:     Boardwalk Co Ltd
IBAN                  MT57VALL22013000000040021737558
BIC/SWIFT             VALLMTMT
```

4

34

Fup bilaga 15 B

2.3 The Bonds create direct, unsecured and unsubordinated obligations of Boardwalk ranking pari passu among themselves and with all other outstanding unsecured and unsubordinated obligations of Boardwalk.

2.4 The Bonds are not transferable or capable of assignment in any way and will remain personal to AIU.

3. REDEMPTION

3.1 The Bonds will automatically redeem on the date which is the earlier of (i) the twentieth Business Day after Boardwalk gives to AIU written notice of its wish to redeem the Bonds and (ii) the fifth anniversary of the date of this agreement (the "**Redemption Date**").

3.2 In the event that AIU has or has purported to transfer or assign the Bonds, then the Redemption Amount will be nil. In all other cases, the Redemption Amount shall be calculated by Argentarius ETI Management Limited ("**Argentarius**") in accordance with clause 3.5. The calculations are (in the absence of manifest error) final and binding upon all parties to this agreement.

3.3 On the Redemption Date, Boardwalk will arrange for the transfer of the Redemption Amount to the following bank account of AIU:-

Bank: Sparkasse Bank Malta PLC

Account Number: MT07SBMT55050000100000026053000

3.4 The Redemption Amount shall be paid net of all applicable taxes, fees and other charges directly arising in connection therewith.

3.5 Unless it is nil in accordance with clause 3.2, the Redemption Amount is determined as follows:

$$\text{Redemption Amount}(t) = \frac{\text{Underlying}(t)}{\text{Underlying}(t0)} * \text{Denomination}$$

Underlying(t)   Value of the underlying at valuation day(t);

Underlying(t0)   Value of the underlying at Initial Valuation Date

but subject always to a maximum rate of return of 12 per cent per annum.

4. OBLIGATIONS OF BOARDWALK, AIU AND ETI

5

Fup bilaga 15 B

4.1   Boardwalk, AIU and ETI must at all material times act in good faith towards each other.

5.   **CONFIDENTIALITY**

5.1   Each party undertakes that it shall not at any time disclose to any person any confidential information concerning the business, affairs, customers, clients or suppliers of the other party or of any member of the group of companies to which the other party belongs, except as permitted by clause 5.2.

5.2   Each party may disclose the other party's confidential information:

(a)   to its employees, officers, representatives or advisers who need to know such information for the purposes of carrying out the party's obligations under this agreement. Each party shall procure that its employees, officers, representatives or advisers to whom it discloses the other party's confidential information comply with this clause 5; and

(b)   as may be required by law, a court of competent jurisdiction or any governmental or regulatory authority.

5.3   No party shall use any other party's confidential information for any purpose other than to perform its obligations under this agreement.

6.   **COMMENCEMENT AND DURATION**

This agreement shall commence on the date hereof (the "**Commencement Date**") and shall continue until the Bonds have been redeemed in full.

6

36

Fup bilaga 15 B

7. CONSEQUENCES OF TERMINATION

7.1 On termination of this agreement, the following clauses shall continue in force: clause 1, clause 5 and clause 7 to clause 16 (inclusive).

7.2 Termination of this agreement shall not affect any rights, remedies, obligations or liabilities of the parties that have accrued up to the date of termination, including the right to claim damages in respect of any breach of the agreement which existed at or before the date of termination.

8. NO PARTNERSHIP OR AGENCY

8.1 Nothing in this agreement is intended to, or shall be deemed to, establish any partnership or joint venture between any of the parties, constitute any party the agent of another party, or authorise any party to make or enter into any commitments for or on behalf of any other party.

8.2 Each party confirms it is acting on its own behalf and not for the benefit of any other person.

9. ENTIRE AGREEMENT

9.1 This agreement constitutes the entire agreement between the parties and supersedes and extinguishes all previous agreements, promises, assurances, warranties, representations and understandings between them, whether written or oral, relating to its subject matter.

9.2 Each party acknowledges that in entering into this agreement it does not rely on, and shall have no remedies in respect of, any statement, representation, assurance or warranty (whether made innocently or negligently) that is not set out in this agreement.

9.3 Each party agrees that it shall have no claim for innocent or negligent misrepresentation or negligent misstatement based on any statement in this agreement.

9.4 Nothing in this clause shall limit or exclude any liability for fraud.

10. VARIATION

No variation of this agreement shall be effective unless it is in writing and signed by the parties (or their authorised representatives).

11. ASSIGNMENT AND OTHER DEALINGS

This agreement is personal to the parties and neither party shall assign, transfer, mortgage, charge, subcontract, declare a trust over or deal in any other manner with any of its rights and obligations under this agreement.

Fup bilaga 15 B

12. WAIVER

No failure or delay by a party to exercise any right or remedy provided under this agreement or by law shall constitute a waiver of that or any other right or remedy, nor shall it prevent or restrict the further exercise of that or any other right or remedy. No single or partial exercise of such right or remedy shall prevent or restrict the further exercise of that or any other right or remedy.

8

Fup bilaga 15 B

13. SEVERANCE

13.1 If any provision or part-provision of this agreement is or becomes invalid, illegal or unenforceable, it shall be deemed modified to the minimum extent necessary to make it valid, legal and enforceable. If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this clause shall not affect the validity and enforceability of the rest of this agreement.

13.2 If one party gives notice to the other of the possibility that any provision or part-provision of this agreement is invalid, illegal or unenforceable, the parties shall negotiate in good faith to amend such provision so that, as amended, it is legal, valid and enforceable, and, to the greatest extent possible, achieves the intended commercial result of the original provision.

14. NOTICES

14.1 Any notice given to a party under or in connection with this contract shall be in writing and shall be:

    (a) delivered by hand or by pre-paid first-class post or other next Business Day delivery service at its registered office (if a company) or its principal place of business (in any other case); or

    (b) sent by email to afram@solidventurecapital.co.uk in respect of Boardwalk, to bonds@argentarius-group.com in respect of AIU and to bonds@argentarius-group.com in respect of ETI.

14.2 Any notice shall be deemed to have been received:

    (a) if delivered by hand, on signature of a delivery receipt;

    (b) if sent by pre-paid first-class post or other next Business Day delivery service, at 9.00 am on the second Business Day after posting[or at the time recorded by the delivery service.

    (c) if sent by email, at 9.00 am on the next Business Day after transmission.

14.3 This clause does not apply to the service of any proceedings or other documents in any legal action or, where applicable, any arbitration or other method of dispute resolution.

15. THIRD PARTY RIGHTS

No one other than a party to this agreement and Argentarius shall have any right to enforce any of its terms.

16. GOVERNING LAW

This agreement and any dispute or claim arising out of or in connection with it or its subject matter or formation (including non-contractual disputes or

9

Fup bilaga 15 B

claims) shall be governed by and construed in accordance with the law of England.

17. JURISDICTION

Each party irrevocably agrees that the courts of England shall have exclusive jurisdiction to settle any dispute or claim arising out of or in connection with this agreement or its subject matter or formation (including non-contractual disputes or claims).

This agreement has been entered into on the date stated at the beginning of it.

SHARE PURCHASE AGREEMENT

SHARE PURCHASE AGREEMENT, dated as stipulated below, by and between Boardwalk Co. Ltd, company number C 60120 (the "**Seller**"), with its registered address Abacus Suite 1, Old Railway Track, Santa Venera, Malta and AI Undertaking III Inc., company number 21865 IBC 2013 (the "**Buyer**"), with its registered address Trust House, 112 Bonadie Street, Kingston, Saint Vincent. The parties hereto are collectively referred to herein as the "Parties".

PREAMBLE

WHEREAS, the Seller is the rightful owner of shares in the Swedish limited company with the company name WEREL AB, co.reg.no 556935-7048, hereinafter referred to as the "**Company**", see Share Register, Appendix I.

WHEREAS, the Buyer wishes to purchase from the Seller 1,000 shares (the "**Shares**") in the Company. The Company has 10,638 shares in total and a share capital of 1,063,800 SEK.

NOW, THEREFORE, the Parties hereto agree as follows:

ARTICLE I

SALE

Section 1.1   Sale of shares . The Seller hereby sells and transfers to the Buyer which of its part hereby purchases and acquires 1,000 shares with a quota value of 100 SEK each, fully paid up.

Section 1.2   Purchase Sum . Buyer agrees to pay Seller the sum (the "**Purchase Sum**") of FOUR MILLION NINE HUNDRED FIFTY THOUSAND (4,949,950) EUR for the purchase of the Shares.

Section 1.3   Payment . Payment for the Shares shall be made by way of set-off of the Purchase Sum against the Buyers claim on the Seller on the Transfer Date (see below) as specified in Appendix II.

ARTICLE II

TRANSFER

Section 2.1   Transfer Date . Transfer of the Shares shall take place on the date last written below (the "**Transfer Date**").

M A .G48

Fup bilaga 15 B

Section 2.2   <u>Transfer of Title</u> . The title to the Shares shall be transferred to the Buyer on the Transfer Date against payment of the Purchase Sum.

Section 2.3   <u>Transfer of Share Certificates</u> . Share certificates (if applicable) shall be duly delivered to the Buyer on consummation of this Share Purchase Agreement and the Buyer shall be noted in the Company's Shareholders Register. Seller agrees to take all reasonable actions to ensure that the Buyer is noted as a shareholder in the Shareholders Register held by the Company.

ARTICLE III

WARRANTIES

The Seller warrants that it is the sole owner of the Shares and that there is no liability on the Shares that prevents it from being transferred to the Buyer. The right of other shareholders to purchase the Shares according to the Company's statutes has been waived. The Seller further warrants that the Company, to the best knowledge of the Seller, is in good order and of sound financial standing and that there exist no grounds for liquidation or bankruptcy.

ARTICLE IV

MISCELLANEOUS

Section 4.1   <u>Entire agreement</u> . This Agreement represents the entire agreement between the Parties and the Parties confirm that there are no other agreements or arrangements between the Parties, whether oral or written.

Section 4.2   <u>Modification or Amendment</u> . This Share Purchase Agreement may be amended or modified from time to time only by a written modification or amendment signed by both Parties hereto.

Section 4.3   <u>Governing Law</u> . This Share Purchase Agreement shall be governed by, and construed under, the laws of Sweden.

Section 4.4   <u>Arbitration</u> . Any dispute, controversy or claim arising out of or relating to this Share Purchase Agreement, or the breach, termination or invalidity thereof, shall be settled by arbitration, by one arbitrator, in accordance with Part IV (Domestic Arbitration) of the Malta Arbitration Act, 1996 and the Short Form Arbitration Rules of the Malta Arbitration Centre as at present in force. The award shall be final and binding and there shall be no appeal.

The place of arbitration shall be Malta and the language to be used in the proceedings shall be English.

Fup bilaga 15 B

A.G 49

IN WITNESS WHEREOF, the Parties have executed this Share Purchase Agreement in two copies, each of which shall be considered as an original.

PM om metadata för dokument Jelena_Saalismaa.pdf

Inledande uppgifter

Undersökningen begärd av: Analytiker Per Forsberg	Datum för beslut: 2017-11-09	Beslagsnummer: 2017-9000-BG721-6

Undersökningen utförd av IT-forensiker: Magnus Lindahl	Undersökningen påbörjad: 2017-11-09

Dokumentet med filnamn Jelena_Saalisma.pdf hittades på beslag 2017-9000-BG721-6 bland filer tillhörande användare "markbishop".

Uppdraget: Plocka fram vem, som enligt uppgifter i filsystemet, var författare till dokumentet

Analys

I metadata för dokumentet hittades följande data:

Author	Emil Amir Ingmanson
CreationDate	2013-06-22 18:28:42

Resultat

Angiven författare när dokumentet skapades var, enligt information i filsystemet, Emil Amir Ingmansson.

Övriga noteringar:

Beslag 2017-9000-BG721-6 var en bärbar dator av modell MacBook Air som anträffades på matsalsbordet på Engelbrektsgatan 10.

PM gällande domänregistreringsinformation för haydenintl.com

Bakgrund
I ärende EB-4689-16 har förundersökning inletts avseende misstanke om grovt bedrägeri m.m.

Uppdrag
Redogör för inhämtad information runt registreringen av domänen haydenintl.com.

Material
Information om betalningar och kontaktuppgifter för domänen haydenintl.com har inhämtats från företaget (Network Solutions LLC) som genomfört registreringen. Informationen har kontrollerats mot information från beslag i Ekobrottsmyndighetens ärende med diarienummer EB-4689-16.

Resultat
Information inhämtad från Network Solutions LLC visar i enlighet med bild 1 nedan att:
- Namnet på kontoinnehavaren är Mark Bishop.
- Det telefonnummer som finns registrerade för kontot är +1-9496789574. Detta har kopplats till Mark Bishop genom flera telefoner som tagits i beslag i ärendet.[1]
- Den uppgivna e-postadressen för kontot är e-postadress mailtobishop@gmail.com. Denna e-postadress har återfunnits i flera telefoner som tagits i beslag av Mark Bishop.[2]
- Det kreditkort som är registrerat för betalningar för domänen tillhör Mark Bishop.[3]

Fup bilaga 15 B

Ekobrottsmyndigheten
Swedish Economic Crime Authority

Datum	Dnr
2019-03-06	EB-4689-16

Per Forsberg
Analytiker

PM gällande förekomst av information härledd till Haydendomäner i Mark Bishops telefoner

Bakgrund
I ärende EB-4689-16 har förundersökning inletts avseende misstanke om grovt bedrägeri m.m.

Uppdrag
Redogör för information kopplad till domänerna haydenintl.com och haydenconsultingintl.com som återfunnits i telefoner tillhörande Mark Bishop.

Material
I Ekobrottsmyndighetens ärende EB-4689-16 har ett antal telefoner (bland andra 2017-9000-BG721-1, 2017-9000-BG721-2, 2017-9000-BG721-5) tagits i beslag av Mark Bishop. Från dessa har information eftersökts gällande domänerna haydenintl.com och haydenconsultingintl.com och dokumenterats som en rapport.[1]

Resultat
1. Under kontakter på samtliga tre telefoner finns instruktioner, användarnamn och lösenord (se bild 1 och 2 nedan) för mailkonton för e-postadresserna:
   hayden@haydenconsultingintl.com
   tom@haydenintl.com
   hayden@haydenintl.com

Bild 1, Utdrag av telefontömningsrapport gällande kontakter, se vidare bilaga 1

PM gällande inkopplingsadress för IP 83.145.38.66

Bakgrund
I ärende EB-4689-16 har förundersökning inletts avseende misstanke om grovt bedrägeri m.m

Uppdrag
Redogör för omständigheter som visar på vilken geografisk inkopplingsadress som använts för IP-adress 83.145.38.66. IP-adressen förekommer i Pensionsmyndighetens loggar vid flyttar från fonden Inside Active Global[1] till fonden Optimus High Yield under sommaren 2013.

Material
Från IP-only (som är företaget som äger IP-adressen) har avtalskopior och epost inhämtats som innehåller information bland annat om abonnemanget IP-adressen tillhört, se vidare bilaga 1.

Avgränsning
Analysen behandlar enbart en för förundersökningen relevant tidsperiod.

Resultat
IP-adressen 83.145.38.66 var under perioden 2013-01-22 till mars 2015 inkopplad på Hammarby Kaj 16, våningsplan 5. Avtalet (6514-1) tecknades som en konfigurationsändring på ett befintligt avtal mellan Astartes AB (556879-0595) och IP-Only.

Sammanfattning
IP-adress 83.145.38.66 var inkopplad på Hammarby Kaj 16, våningsplan 5 under perioden 2013-01-22 till mars 2015.

Bilagor:
1. Kopia på mailkonversation med Staffan Broman IP-Only

---

[1] Vid tiden för flytten hette fonden Positiv Pension Active Global men har senare bytt namn till Inside Active Global och benämns fortsatt som så i detta PM.

Skickat: den 16 oktober 2018 11:49
Till: Staffan Broman <staffan.broman@ip-only.se>
Ämne: Förfrågan EB4689-16

Hej,

Utifrån material i form av avtal, supportärenden och mailkonversationer som
Ekobrottsmyndigheten tidigare begärt ut från IP-Only i förundersökning EB1071-17 drar
Ekobrottsmyndigheten slutsatserna att:

Avtalet 6514 avser internetuppkopplingar på Hammarby Kaj 16, våningsplan 5.
Avtalet 6514 tecknades ursprungligen 2012-01-23 mellan Moderna Pensionsvalet Norden AB
(556764-2912) och IP-only.

Avtalet 6514 avsåg bland andra förbindelse XA0255, med tilldelade IP-adresser
212.112.173.224/28, på Hammarby Kaj 16, installerad 2012-03-27
Avtalet 6514 ersatte avtal 6332 tecknat av Legio Management AB (556657-1005) och IP-Only
med samma inkopplingsadress, Hammarby Kaj 16, våningsplan 5.
Avtalet 6514 överläts 2012-12-11 av Sales and marketing AB (556764-2912, tidigare namn
Moderna Pensionsvalet AB) till Astartes Sverige AB (556879-0595), fortfarande med samma
inkopplingsadress på Hammarby Kaj 16.

Avtalet 6514-1 avser en konfigurationsändring av befintligt avtal 6514 och tecknades mellan
Astartes AB (556879-0595) och IP-Only avseende en utökning av befintliga IP-adresser.
Konfigurationsförändringen som avtalet 6514-1 avsåg resulterade i att IP-adresserna
83.145.38.64/26 tilldelades och lades till befintliga IP adresser på avtal 6514 och var klart 2013-

74

75

01-22.
Avtalet 6514-1 var inkopplat på adressen Hammarby Kaj 16 i Stockholm.
IP-adress 83.145.38.66 ingick i spannet 83.145.38.64/26.

Avtalen 6514 och 6514-1 överläts 2013-08-28 från Astartes AB (556879-0595) till Solid Equity AB (556805-4760).
Avtalen 6514 och 6514-1 och leveranser av internetuppkoppling stängdes ner någon gång i mars 2015 efter att Solid Equity AB gått i konkurs.

IP-adressen 83.145.38.66 var under perioden 2013-01-22 till mars 2015 inkopplad på Hammarby Kaj 16, våningsplan 5.

Kan IP-Only bekräfta att dessa slutsatser stämmer?

Mvh,
Per

Jämförelse av samtalstider och inloggningstider gällande premiepensionsflyttar till Optimus High Yield

Bakgrund
I ärende EB-4689-16 har förundersökning inletts avseende misstanke om grovt bedrägeri m.m.

Uppdrag
Jämför och redogör för tidpunkter och omständigheter för telefonsamtal där Strategi Placerings personal ringer personer och försöker ingå avtal med tidpunkter för att samma personers premiepensionskapital flyttas från fonden Inside Active Global[1] till fonden Optimus High Yield.

Material
I Ekobrottsmyndighetens förundersökning med diarienummer EB-4630-13 har 27535 ljudfiler med inspelningar av samtal eller försök till samtal mellan Strategi Placerings personal och kunder inlämnats till myndigheten av ombud för Strategi Placering. I många av dessa samtal nämns datum och personnummer för den uppringda personen. Dessa samtal har av ansvarig åklagare överlämnats till förundersökning med diarienummer EB-4689-16.

Från Pensionsmyndigheten har underlag inhämtats om flyttar av Premiepensionsmedel från fonden Inside Active Global till fonden Optimus High Yield. I underlaget ingår bland annat personnummer, tid för respektive flytt, vilken IP-adress som flytten genomförts från, vilken User-Agent[2] som använts samt flyttat belopp.

Avgränsning
På grund av omfattningen av materialet har datum och personnummer för respektive samtal dokumenterats i 2409 samtal.

Resultat
Av dessa 2409 samtal framgår att 1857 unika samtal är genomförda först efter det att personens premiepensionskapital redan är flyttat från fonden Inside Active Global till Optimus High Yield.

Dessa 1857 personers sammanlagda flyttade premiepensionskapital motsvarade vid tiden för flytten enligt underlag från Pensionsmyndigheten 216 873 985,02 SEK.

---

[1] Vid tiden för flytten hette fonden Positiv Pension Active Global men har senare bytt namn till Inside Active Global och benämns fortsatt som så i detta PM.

[2] En User Agent definieras av World Wide Web Consortium som: "*A user agent is any software that retrieves, renders and facilitates end user interaction with Web content, or whose user interface is implemented using Web technologies.*", https://www.w3.org/WAI/UA/work/wiki/Definition_of_User_Agent. En User-Agent kan även beskrivas som hur en anslutande mjukvara identifierar sig för en server.

Ekobrottsmyndigheten
Swedish Economic Crime Authority

Av dessa 1857 flyttar har samtliga flyttats från samma IP-adress 83.145.38.66 och samtliga 1857 flyttar har använt samma User-Agent "Python-urllib/2.7"[3].

Från genomgången av samtal kan konstateras att det förekommer ljudfiler där inget samtal förekommer, det förekommer dubbletter och tripletter av samma samtal samt att samma samtal förekommer med olika starttider för inspelningen. Detta gör att antalet unika samtal understiger 27535.

65 samtal är identifierade dubbletter, tripletter eller samtal till samma person och räknas bara en gång (det tidigaste samtalet).

30 samtal är genomförda samma dag som premiepensionskapitalet flyttas och då det inte framgår vilken tid samtalet genomförs går det inte att avgöra om samtal skett före eller efter samtal.

13 samtal är genomförda innan premiepensionskapitalet flyttas, d.v.s. där samtycke på förhand har kunnat inhämtas.

I underlaget förekommer även så kallade *"cold calls"* där Strategi Placering ringer upp personer utan någon som helst tidigare relation till varken Strategi Placering eller Positiv Pension i syfte att värva dem som kunder.

431 samtal innehåller personnummer som inte förekommer i underlaget från Pensionsmyndigheten, d.v.s. de har inte flyttats från Inside Active Global till Optimus High Yield.

Sammanfattning

Av 1900 samtal (i urvalet om 2409 samtal) som har kunnat matchas mot uppgifter från Pensionsmyndigheten har:

1857 samtal genomförts efter flytten är genomförd
30 samtal är genomförda samma dag som flytten
13 samtal är genomförda innan flytten.

Samtliga 1900 flyttar är genomförda från IP-adress 83.145.38.66 och samtliga flyttar har använt samma User-Agent "Python-urllib/2.7".

Bilaga 1: Sammanställning av tider för flytt och tid för samtal där tid för flytt är innan tid för samtal

---

[3] En User Agent som används av programmeringsspråket Pythons bibliotek Urllib2, i kontrast mot anslutningar från en browser så som t.ex. Mozilla Firefox, Internet Explorer, Edge, Safari eller Chrome.

PM gällande presentationsbrev

Bakgrund
I ärende EB-4689-16 har förundersökning inletts avseende misstanke om grovt bedrägeri m.m.

Uppdrag
Redogör för information återfunnet i beslag tillhörande Mark Bishop gällande presentationsbrev från bolag som erbjuder värderingstjänster.

Material
I Ekobrottsmyndighetens ärende EB-4689-16 har ett antal datorer och externa hårddiskar[1] tagits i beslag från Mark Bishop. Från dessa har information eftersökts gällande Hayden Consulting Group. Bland denna information har snarlika formuleringar anträffats i olika dokument som till synes tillhör olika bolag. Dokumenten är dokumenterade i bifogad IT-forensisk rapport.[2]

Resultat
I datorer och externa hårddiskar[3] som tagits i beslag från Mark Bishop har ett antal dokument med stora likheter påträffats som sorterade i tidsföljd på skapat-datum[4] av respektive fil anger bolaget som:

2012-07-10 Mesirow Financial, adresserat till Ulf Deckmark, Traction Fonder AB
2012-07-10 De La Rosa & Co, adresserat till Ulf Deckmark, Traction Fonder AB
2012-11-28 Hayden Consulting Group, adresserat till Ulf Deckmark, Traction Fonder AB
2014-07-09 Hayden Consulting Group, utan mottagare
2016-02-25 Hayden Consulting Group, adresserat till Barbaros Okten, Temple Asset Management

Dokument har påträffats som både wordfiler och pdf:er, för detaljer se bilaga 1.

Metadata anger i de flesta fall Mark Bishop som antingen författare eller den som senast sparat dokumenten.[5]

Sammanfattning
Samma text har återanvänts i dokument för bolagen De La Rosa & Co, Mesirow Financial och Hayden Consulting Groups räkning där företagen erbjuder värderingstjänster. Dokumenten är återfunna i beslag[6] tagna från Mark Bishop.

Re: Mark-to-market

Dear Ulf:

We are looking forward to working with you to provide "mark-to-market" / "net asset value" levels on your bond portfolio each month.

Mesirow Financial (Mesirow) is one of the largest Chicago-based (USA) broker-dealers for institutions and other financial entities offering fixed income sales and trading, public finance, lease finance and investment banking. Mesirow is a national leader in financial advisory services including bond valuation services, corporate recovery, litigation, investigative and intelligence services, interim management and real estate consulting.

Our methodology in providing valuation for your securities is as follows. Mesirow has decades of specialized experience with the ever-evolving fixed income markets. Our Company's experienced fixed income market specialists will utilize various cash flow engines (IDC and Bloomberg) designed to provide robust, insightful and useful fixed income analysis that provides critical support to your investment decision, risk management process, and evaluation needs. The analytics are backed by proprietary quantitative modeling techniques that rely on access to security cash flows and to comprehensive terms and conditions of the securities. In addition, we further utilize market comparables in order to rationalize a final "market-to-market" / "net asset value".

Since cash flows of mortgage-backed securities have the greatest effect on pricing of these investment, our monthly methodology for pricing of M-T-M is satisfactory for your firm in order to maintain regulatory compliance. Nevertheless, in the event that other Market fundamentals or technical changes occur mid-month, we will provide you with updated M-T-M at that time.

It is our intent to provide you with your needed valuation by two business days prior to the end of each month. For this purpose, we will need you to provide us with a schedule of the bonds that need to be evaluated on the 25th of each month.

Again, we are looking forward to a mutually beneficial relationship.

Regards,

Todd

Re: Mark-to-market

Dear Ulf:

We are looking forward to working with you to provide "mark-to-market" / "net asset value" levels on your bond portfolio each month.

[intro about DLR] De La Rosa & Co is a full-service investment bank with offices in Los Angeles and San Francisco. Since it was founded in 1989, De La Rosa has grown to become the third-ranked municipal bond underwriter in California, and is among the top ten of all US underwriters. Additionally, De La Rosa & Co has a focus in the asset backed securities market,,, blah blah blah...

I will be your contact for our firm. [A little about Traskos - bio]

Our methodology in providing valuation for your securities is as follows. De La Rosa & Co has decades of specialized experience with the ever-evolving fixed income markets. Our Company's experienced fixed income market specialists will utilize various cash flow engines (IDC and Bloomberg) designed to provide robust, insightful and useful fixed income analysis that provides critical support to your investment decision, risk management process, and evaluation needs. The analytics are backed by proprietary quantitative modeling techniques that rely on access to security cash flows and to comprehensive terms and conditions of the securities. In addition, we further utilize market comparables in order to rationalize a final "market-to-market" / "net asset value".

Since cash flows of mortgage-backed securities have the greatest effect on pricing of these investment, our monthly methodology for pricing of M-T-M is satisfactory for your firm in order to maintain regulatory compliance. Nevertheless, in the event that other Market fundamentals or technical changes occur mid-month, we will provide you with updated M-T-M at that time.

Dear Ulf:

We are looking forward to working with you to provide "mark-to-market" / "net asset value" levels on your bond portfolio, daily.

Unlike most RMBS valuation companies, Hayden Consulting Group does not perform investment banking services and does not own or trade RMBS. We only provide valuation services and have no internal conflicts of interest regarding RMBS. Since the valuation services were first provided in 1981, Hayden Consulting Group values real estate and whole loans, ABS, CMBS, RMBS, and unrated private-placements of corporate bonds, and is among the top ten of all US valuation providers.

Our methodology in providing valuation for your securities is as follows. Hayden Consulting Group has decades of specialized experience with the ever-evolving fixed income markets. Our Company's experienced fixed income market analysts, appraisers and CPAs will utilize various cash flow engines (Intex, Lewtan, Barclays, JPMorgan, IDC and Bloomberg) designed to provide insightful and useful fixed income analysis that provides critical support to your investment decision, risk management process, and evaluation needs. The analytics are backed by proprietary quantitative modeling techniques that rely on access to security cash flows and to comprehensive terms and conditions of the securities. In addition, we further utilize market comparables in order to rationalize a final "market-to-market" / "net asset value". And beginning in January 2013, we are excited to be introducing "loan-level" analytics, extremely unique to this specific market.

Since cash flows of mortgage-backed securities have the greatest effect on pricing of these investment, our monthly methodology for pricing of M-T-M is satisfactory for your firm in order to maintain regulatory compliance. Nevertheless, in the event that other Market fundamentals or technical changes occur mid-month, we will provide you with updated M-T-M at that time.

Sammanställning av information gällande premiepensionsflyttar från Inside Active Global till Optimus High Yield 1 juli- 18 juli 2013

Bakgrund
I ärende EB-4689-16 har förundersökning inletts avseende misstanke om grovt bedrägeri m.m.

Uppdrag
Redovisa tillgänglig information om fondbyten för premiepensionskapital från fonden Inside Active Global[1] till fonden Optimus High Yield under perioden 2013-07-01 till 2013-07-18 genomförda från IP-adress 83.145.38.66 med User-Agent "Python-urllib/2.7"[2].

Material
Från Pensionsmyndigheten har underlag inhämtats angående flyttar av Premiepensionsmedel från fonden Inside Active Global till fonden Optimus High Yield. I underlaget framgår bland annat personnummer, tid för respektive flytt, vilken IP-adress som flytten genomförts från, vilken User-Agent som använts samt flyttat belopp.

Resultat
Från 2013-07-01 till 2013-07-18 har 18277 fondflyttar från Inside Active Global till Optimus High Yield genomförts från IP-adress 83.145.38.66 och User-Agent "Python-urllib/2.7".

Dessa 18277 personers sammanlagda flyttade premiepensionskapital motsvarade vid tiden för flytten enligt underlag från Pensionsmyndigheten 2 096 161 837 SEK.

Bilaga 1: Underlag från Pensionsmyndigheten

---

[1] Vid tiden för flytten hette fonden Positiv Pension Active Global men har senare bytt namn till Inside Active Global och benämns fortsatt som så i detta PM.

[2] En User Agent som används av Pythonbiblioteket Urllib2, se vidare PM "Jämförelse av samtalstider och inloggningstider gällande premiepensionsflyttar till Optimus High Yield".

Bilaga 1: Utdrag från Pensionsmyndigheten

Beställning avsåg att kontrollera Hayden Consulting.

Sökning via internationella företagsregister gav träff på ett 80-tal bolag och med stöd av information från FU kunde vi lokalisera ett bolag i Oregon med registreringsnummer 896273–93. Detta bolag registrerades 2012-11-26 och tycks ha upplösts 23 januari 2015. Bolaget har samma adress som förekommer på fakturan till ABS Investment Group från 2015-05-26. Adressen är till World Trade Center i Portland Oregon, men när denna adress kontrollerats så har vi inte kunnat hitta Hayden Consulting. Som Agent och Member anges MV Slieptnova och sökningar har inte lett oss vidare vem eller vad detta är.

Eftersom ovanstående bolag inte tycks finnas längre så har även bolagen med samma eller liknande namn i Kalifornien kontrollerats, men inte där heller har något aktivt bolag kunnat påträffas.

På värderingsintyget från 2016-02-26 framgår en adress i Newport Beach och vad vi kan se så har Klein & Wilson Business Trial Lawyers sitt kontor här. Bolaget har enligt sin hemsida 14 anställda och leds av Gerald A Klein och Mark B Wilson. Förekommer denna advokatbyrå i förundersökningen så får ni återkomma om vi ska göra en större kontroll.

En annan uppgift som framgår på dokumentet är ett telefonnummer. Enligt Truecaller går numret till Jsarmiento lokaliserad till Irvine California. I Irvine har ABS Investment Group sin adress. Telefonnumret har kontrollerats via flera andra källor och ger bland annat träff på en Thomas Epperson.

Email-adressen som också framgår på dokumentet har kontrollerats och den är inte kopplad till någon hemsida och tycks inte heller vara aktiv.

Sammantaget verkar bolaget ifråga varit aktivt mellan 2012-2015 och frågan är om personerna som ni utreder använder deras uppgifter och frågan är om ni ska begära rättshjälp från USA för att kontrollera ovanstående information som kommer från öppna källor och som kanske bör vidimeras.

WASSUM

Resultat av granskning av fonderna Falcon Funds och Optimus High Yield

Internt & Konfidentiellt

WASSUM

1 Bakgrund

Den 22 februari 2016 i år valde Pensionsmyndigheten att utfärda ett köpstopp för tre fonder ifrån fondbolaget Falcon Funds. Köpstoppet innebar att ingen ny handel kunde tillåtas i de fyra fonderna. Den 15 juni 2016 säger Pensionsmyndigheten upp avtalet med Falcon. Under hösten 2016 offentliggör Pensionsmyndigheten att en stort del av medlen som investerats i fonderna ej kan återfinnas. Vid årsskiftet 2016/2017 fråntar den maltesiska finansinspektionen Falcons ledning att sköta avvecklingen av bolaget och KPMG får uppdraget att ta kontroll över Falcons tillgångar och leda fondens avveckling. Ekobrottsmyndigheten i Sverige startar senare en förundersökning mot Falcon. Ekobrottsmyndigheten har anlitat Wassum för att bistå med den vidare utredningen.

1.1 *Beskrivning av Wassum*

Wassum startades 1996 och arbetar som oberoende investeringsrådgivare. Uppdragen innefattar bland annat att skapa beslutsunderlag för investeringsstrategier och portföljstruktur. Andra uppdrag är att analysera och utvärdera investeringsprodukter och operativa kapitalförvaltare för att sköta om kundernas dagliga portföljbeslut. Wassum agerar således inte som fond- eller kapitalförvaltare.

Uppdragsgivarna är institutioner som har i uppdrag att långsiktigt förvalta stora kapitalvolymer. Exempel på kundgrupper är stater, kommuner och landsting, pensionskassor och pensionsstiftelser, försäkringsbolag, donations- och forskningsstiftelser samt arbetsmarknadens parter. Kunderna har nästan uteslutande sina säten i Norden. Uppdragen är långsiktiga, i många fall tio år eller mer. Ett av Wassums mer publika uppdrag har varit att på uppdrag av Finansdepartementet under en följd av år utvärdera AP fondernas kapitalförvaltning (AP1-AP4 samt AP6-AP7). Wassum har även genomfört uppdrag för den finska och norska staten.

1.2 *Wassums uppdrag*

Wassum har fått i uppdrag att gå igenom fonderna Falcon Funds (Falcon Balanced, Falcon Aggressive samt Falcon Cautious), Optimus High Yield samt Inside Active. Wassum ska undersöka vilka typer av instrument har fonderna investerat i och hur har investeringarna ändrats under tiden. Närmare ska Wassum undersöka

- Rapporterat saldo per fond per kvartal
- Sammanställning av samtliga värdepapper, indelade i olika kategorier.
- Indelning av likvida/illikvida värdepapper.
- Hur stor andel som bestått av ETI:er eller liknande produkter.
- Genomgång av de MBS:er som Optimus har handlat i och bedömning av prissättningen av dessa.

1.3 *Metod*

Analysen grundas på uppgifter som inhämtas från ett flertal källor: Innehavslistor från varje kvartal från depåbank, innehållandes namn på instrument, identifikationskod (ISIN), antal andelar, pris per instrument och andel av totalt fondvärde. Kompletterande priser på instrument från fond-NAVsättare.

Information från externa dataleverantörer (Morningstar, Thomson Reuter, CBonds) om data för de olika instrumenten samt avkastningar för fonder och index. Information från Prospekt för vissa av instrumenten (ETI:erna bland annat).

2 Beskrivning av de olika fonderna.

Inside Active Global

Inside Active Global är en aktivt förvaltad global aktiefond. Fonden investerar i noterade globala aktier efter en "insidermodell" (efter hur bolagens ledande befattningshavare investerar i det egna bolaget).

721

WASSUM

Fondens jämförelseindex är MSCI World (ett globalt aktieindex). Fonden är dagligt handlad och prissatt (UCITS-fond).

Optimus High Yield

Fonden investerar i högförräntande räntor (s.k. high yield räntor). Fonden investerar i företagsobligationer, företagscertifikat och MBS:er på de internationella marknaderna. Inga krav finns på lägsta kreditvärderingsbetyg. Den genomsnittliga löptiden för fondens innehav ligger i normalfallet mellan 2 och 7 år. Målsättningen är att ge en avkastning omkring 7 procent årligen. Fonden har inget uttalat jämförelseindex. Fonden är dagligt handlad och prissatt (UCITS-fond).

Falcon Funds

Falcon Funds har tre olika fonder som investerar i samma typer av tillgångar. Fonderna har olika fördelningen mellan tillgångsslagen och har därmed olika risknivåer. Den största fonden är Falcon Balanced där ca 60-70% av den totala volymen i Falcon-fonderna finns.

Falcon Balanced

Fondens målsättning är att uppnå långsiktig kapitaltillväxt. Fonden ska huvudsakligen investera i överlåtbara värdepapper eller fonder som investerar i aktier och obligationer. Fonden får använda derivat som både investeringssyfte och riskminskande syfte. Maximalt upp till 60% av tillgångarna får vara placerade direkt eller genom fonder i ränteinstrument. Främst i ränteinvesteringar inom kreditsegmentet investment grade (emittenter med rating om minst BBB) med företag eller stater som emittenter. Maximalt 60% av fondens tillgångar får investeras direkt eller genom fonder i noterade aktier. Främst aktieinvesteringar i stora/medelstora bolag på den globala marknaden.

Falcon Cautious

Fondens målsättning är att uppnå långsiktig kapitaltillväxt. Fonden ska huvudsakligen investera i överlåtbara värdepapper eller fonder som investerar i aktier och obligationer. Fonden får använda derivat som både investeringssyfte och riskminskande syfte. Maximalt upp till 100% av tillgångarna får vara placerade direkt eller genom fonder i ränteinstrument. Främst i ränteinvesteringar inom kreditsegmentet investment grade med företag eller stater som emittenter. Maximalt 30% av fondens tillgångar får investeras direkt eller genom fonder i noterade aktier. Främst aktieinvesteringar i stora/medelstora bolag på den globala marknaden.

Falcon Aggressive

Fondens målsättning är att uppnå långsiktig kapitaltillväxt. Fonden ska huvudsakligen investera i överlåtbara värdepapper eller fonder som investerar i aktier och obligationer. Fonden får använda derivat som både investeringssyfte och riskminskande syfte. Maximalt upp till 30% av tillgångarna får vara placerade direkt eller genom fonder i ränteinstrument. Främst i ränteinvesteringar inom kreditsegmentet investment grade med företag eller stater som emittenter. Maximalt 100% av fondens tillgångar får investeras direkt eller genom fonder i noterade aktier. Fokus på små/medelstora och stora bolag med en bias till aktieinvesteringar i stora/medelstora bolag inom aktieportföljen.

3 Övergripande händelseutveckling

Diagrammet nedan visar flyttarna mellan de olika fonderna och hur fondernas marknadsvärde har förändrats vid händelserna.

722

WASSUM
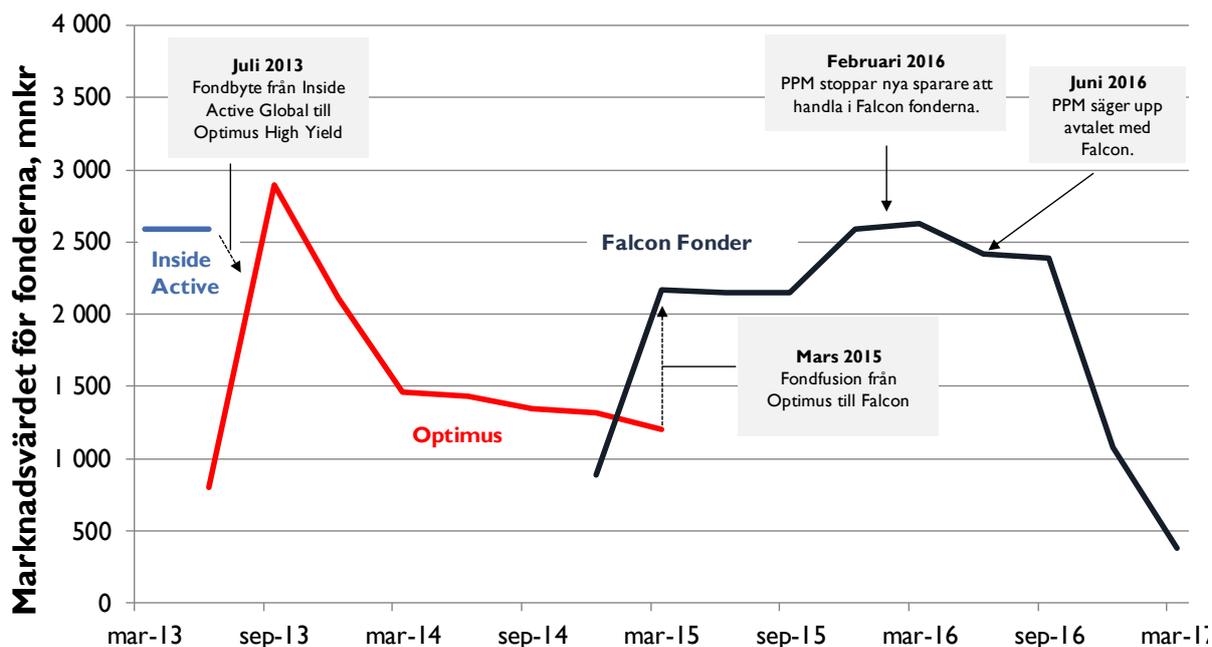

Vid utgången av juni 2013 uppgick fondförmögenheten i Inside Active Global till ca 2600 mnkr. Efter halvårsskiftet tas stora belopp ut (enl. uppgift ca 2100 MSEK) ut från Inside Active, där en väsentlig del förs över till Optimus High Yield genom fondbyte. Fondförmögenheten i Optimus High Yield stiger under denna period från ca 800 mnkr till ca 2900 mnkr. Bytet genomförs genom försäljning av andelar i Inside Active Global och köp av andelar i Optimus High Yield. Utifrån ett investerarperspektiv är bytet ganska anmärkningsvärt. Inside Active Global är en aktiefond medan Optimus High Yield är en krediträntefond. Det är två olika typer av tillgångsslag, med olika egenskaper. Inga innehav som fanns i Inside Active återfinns i Optimus High Yield. Om bytet hade varit från en aktiefond till en annan aktiefond hade bytet varit mer logiskt. Sedan till det första kvartalet 2014 sjunker fondförmögenheten i Optimus till ca 1500 mnkr. Det verkar ha skett ett utflöde under perioden om ca 1400 mnkr.

Under mars månad 2015 sker en fondfusion (sammanslagning) av Optimus till Falcon-fonder. Fondförmögenheten i Optimus vid sammanslagningen var ca 1200 mnkr. Fondförmögenheten i Falcon växer under det första kvartalet 2015 i samband med fondfusionen från totalt ca 900 mnkr till ca 2200 mnkr. Den övervägande delen av överföringen sker till Falcon Balanced. Ca 50% av innehaven i Falcon Balanced vid utgången av kvartalet var innehav som fanns i Optimus innan fusionen. Dock sker det förändringar i alla tre fondernas tillgångsfördelning under kvartalet.

Fondförmögenheten i Falcon-fonderna växer som högst till ca 2600 mnkr. I februari 2016 stoppar PPM nya sparare att handla i Falcon-fonderna. Under juni 2016 säger PPM upp avtalet med Falcon. Under det sista kvartalet 2016 sjunker volymen i Falcon-fonderna drastiskt. Vid utgången av mars 2017 uppskattas värderingen på de kvarstående instrument som ej har gått att sälja till ca 385 mnkr.

4 De olika tillgångsslagen och instrumenten fonderna investerar i

Vid genomlysningen av fondernas investeringar har investeringarna klassificerats inom följande kategorier efter vad det är för typ av tillgångsslag och instrument.

- Noterade aktier (Equities) – Avser innehav i aktier noterade på en börs (exempelvis New York Stock Exchange eller OMX Stockholm). Dessa innehav bedöms som mycket likvida och där marknadspriser finns noterade dagligen och handlas på en marknadsplats. Ett par undantag finns. Det avser investeringar i mindre bolag (främst ett par svenska och norska bolag) där fonderna äger en större andel eller som noterade på inofficiell lista. Exempelvis investeringen i INTEX RESOURCES, där Falcon är en huvudägarna och äger ca 20% av aktierna i bolaget.

723

Fup bilaga 15 B

WASSUM

- Obligationer (Bonds) – Räntebärande värdepapper, utgivna av företag (i ett fåtal fall även av stater). Dessa kan vara noterade och handlade över en börs men vanligtvis sker handel via "telefon" med mäklare. Priser finns att tillgå via externa datakällor. Likviditeten i dessa är vanligtvis god men kan variera och beror på vilken kreditvärdighet emittenten har, marknadsläget, storlek på emittenten och storlek på investerat belopp mm. Exempel på obligation med sämre likviditet är innehavet i Reditum SA som består av ett lån till fastighetsbolag, där Falcon har investerat ett relativt stort belopp av sin totala fondförmögenhet.

- Investeringsfonder (Investment Fund) – Avser investeringar i fonder (direkt hos fondbolaget) eller i ETF:er (via en börs). De investeringsfonder som fonderna har investerat i, investerar i sin tur i enskilda aktier eller räntor och är i linje med fondernas placeringsinriktning. Fondinvesteringarna har minst veckovis likviditet, medan ETF:erna är dagligt handlade.

- Strukturerade produkter (Structured Product): Avser investeringar i derivatinstrument eller en produkt som består av derivat samt en underliggande tillgång (ofta obligation). Derivatkontrakten är i detta fallet "noterade" på en börs, och en calculation agent ansvarar för att prissätta instrumentet. Men i praktiken sker ingen handel på andrahandsmarknaden. Dessa instrument kan användas för att skapa hävstång i riskexponeringen eller för att skydda en del av investeringen. Vanligtvis komplexa produkter, med höga icke-transparenta kostnader. Försäljningsavgifter kan tillkomma för distributörer som säljer dessa produkter.

- MBS:er. Avser investeringar i mortgage backed securites, som är värdepapperiserade krediter som omfattar amerikanska bostadslån. Dessa värdepapper gavs ut 2004-2007 åren innan finanskrisen, och har en lång löptid om ca 30 år. När värdepapperna gavs ut marknadsfördes de som relativt säkra investeringar och kreditvärdigheten bedömdes som den högsta. I samband med kreditkrisen kollapsade marknaden för dessa typer av värdepapper. Vid tidpunkten för Optimus investeringar i dessa värdepapper var kreditvärdigheten den lägsta (default), likviditeten och marknadsprissättningen mycket låg. Se vidare beskrivning i bilaga 1.

- ABS:er: - Avser investeringar i asset backed securites, som avser skulder eller notes med bakomliggande tillgångar som är värdepapperiserade. Av fonderna är det Falcon som har investerat i dessa typer av tillgångar. Investeringarna har gjorts i ETI:er. ETI:er är exchange traded instruments, där den underliggande tillgången paketeras i ett EU-godkänt överlåtbart värdepapper. Vilket skapar möjlighet för UCITS-fonder att investera i tillgångar som de annars inte kunde investera i. Detta skulle exempelvis kunna vara fastighetsinvesteringar som är svåra att kunna få tillgång till att investera i. ETI:er backas av och kopplas till ett s.k. "performance linked bond" som ges ut av en SPV. Figuren nedan beskriver hur strukturen vanligen ser ut. I bilaga 2 beskrivs de ABS:er som Falcon har investerat i närmare.
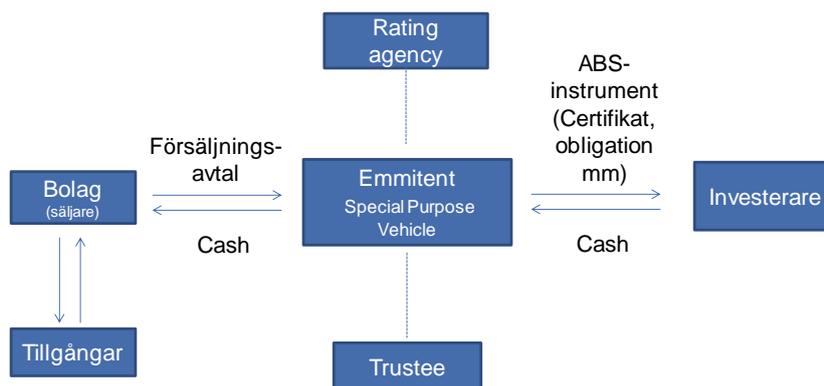

- FX Forwards – avser valutasäkringskontrakt.

724

WASSUM

- Kassa – likvida medel. Vanligtvis får ej fonder (UCITS-fonder) ej ha mer än 10% av fondförmögenheten i kassa.

Tillgångsslagen delas upp i två grupper: De instrument som tillhör *tillgångsslagen Equities, Bonds, Investment Funds eller cash* bedöms som likvida instrument och är investeringar som också är vanligt förekommande i fonder. Den andra kategorin *Other* innehåller instrument från tillgångsslagen MBS, ABS samt Structured Product. I denna kategori återfinns de instrument som är relativt illikvida, ovanliga för fonder att investera i och har komplexa samt icke-transparanta strukturer.

I Falcons fall kompletteras även indelningen med en extra kategori Other + illiquid equities and bonds. Denna kategori innehåller dels alla de instrument som återfinns i kategorin Other samt de enskilda aktier och obligationer med sämre likviditet som Falcon ej lyckats sälja av innan den sista mars 2017.

5 Fondernas investeringar

Inside Active Global

Vid en analys av fondens placering innan fondbytet till Optimus High Yield bestod fondens placeringar till 100% av noterade globala. Inga avvikande investeringar.

Optimus High yield- Tillgångsfördelning över tiden (mnkr)
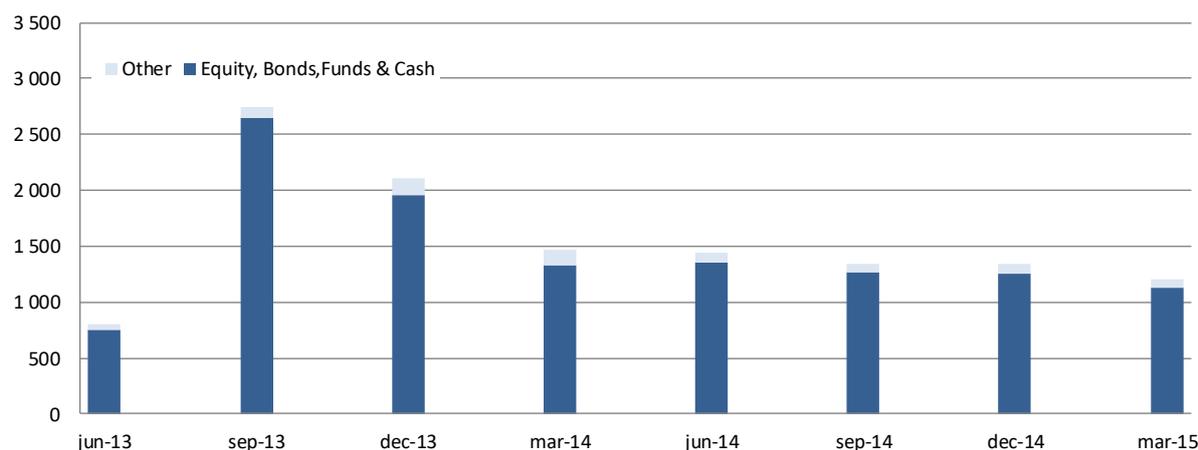

Väsentliga händelser:

- 2013-06-30. Vid sista juni 2013 (innan överföringen från Inside Active) var fondens placeringar i stort i enlighet med fondens placeringsinriktning. Totalt har fonden 37 olika innehav, varav 30st innehav i företagsobligationer och 7st innehav i MBS:er. Samtliga av MBS:erna har dock en betydligt längre löptid än 2-7 år. I genomsnitt uppgår löptiden till ca 20 år på MBS:erna. Marknadsvärdet för

725

WASSUM

MBS:erna (enligt förvaringsinstitutets prissättning) uppgår till ca 54 mnkr (totalt till ca 7% av fondens värde).

- 2013-09-30 Stort inflöde i fonden efter flytten från Inside Active. Det totala beloppet investerat i MBS:er ökade under kvartalet med inköpet av 4 nya MBS:er. Det totala köpbeloppet uppgår till 35,6 MUSD. Vid utgången av kvartalet uppgick marknadsvärdet för MBS:erna till ca 253 mnkr. Den största positionen är innehavet i MBS:en i STRUCTURED ASSET INVEST VAR% 360725 (ca 141mnkr baserat på NAV-sättarens värdering) som är strax under 5% av fondens värde.de 4 MBS:erna. Under månaden avslutas även innehav i två MBS:er.

- 2013-12-31 Utflöde i fonden under kvartalet. Volymen har minskat med ca 800 mnkr. 17 av innehaven har avslutats. De flesta avser korta företagscertifikat. 1 av innehaven i MBS:erna från perioden innan 2013-06-30 har sålts av (BOAMS 2004-L B1 3,3476% 350125). 5 nya innehav i företagsobligationer. Inga nya MBS:er. Värderingen för MBS:erna har skrivits ner med totalt ca 90 mnkr. Framförallt sker en nedvärdering i STRUCTURED ASSET INVEST VAR% 360725 som minskats med ca 70 mnkr (ca -50 mnkr).

- 2014-06-30 avslut av två MBS:er (STRUCTURED ASSET INVEST VAR% 360725 samt GSAA HOME EQUITY TRUST VAR% 360325) vilket renderar i en förlust på ca 15,8 MUSD respektive 1,7MUSD sedan inköpen under Q3 2013.

- 2014-09-30 Nytt innehav i ett derivat (BNP Paribas Arbitrage WRT 170811). Under kvartalet avslutas även innehavet i 4 st MBS:er, där försäljningen av Försäljningen av FIRST NLC TRUST VAR% 351225 som investerades under Q3 2013 gav en förlust på ca -2,6MUSD eller ca -50% av investeringen. Endast två innehav i MBS:er kvarstår: innehavet i MERRILL LYNCH AN ASSET VAR% 370325 har stigit i värde med ca 39 mnkr under kvartalet vilket motsvarar en värdeförändring för innehavet på ca +126%. Marknadsvärdet för positionen uppgick till ca uppgick till ca 71 mnkr. Vidare har även fonden kvar innehavet i innehavet i MASTER ADJUST.RATE M.TR. MVR% 350725 som uppgick till endast 0,4 mnkr.

- 2015-03-08 Marknadsvärdet för fondens tillgångar innan överföringen till Falcon var ca 1200 mnkr.

Sammanfattningsvis: Fondens innehav i övriga tillgångar består av MBS:er. Efter överföringen från Inside Active Global genomförs 4 nya köp av MBS:er. Samtliga resulterar i en stor förlust vid försäljning.

Marknadsvärdet för Falcons totala investeringar inom de två tillgångskategorierna under perioden

Falcon totalt - Tillgångsfördelning över tiden (mnkr)
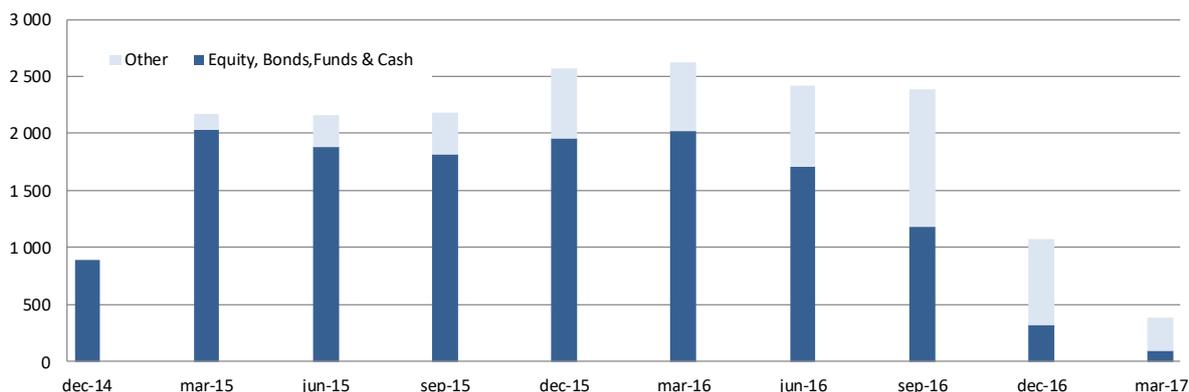

Marknadsvärdet för Falcons totala investeringar inom tillgångskategorin Other samt de enskilda aktier och obligationer som ej gick att sälja och kvarstod i fonderna vid utgången av mars 2017.

Falcon totalt - Tillgångsfördelning i illikivda över tiden (mnkr)
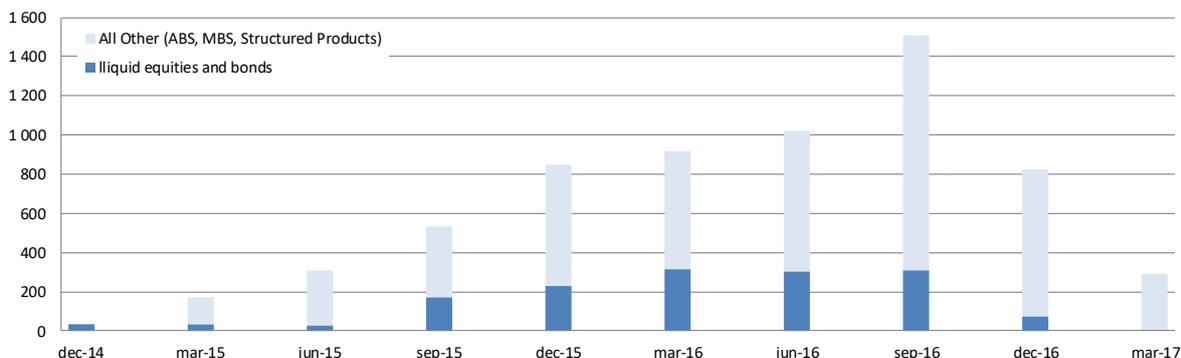

Väsentliga händelser:

- 2014-12-31 Innan överföringen från Optimus bestod Falcons investeringar endast av aktier, obligationer, fonder, kassa samt valutaterminer. Inga investeringar i övriga tillgångsslag

- 2015-03-31 Större förändringar i fonderna. Stort inflöde efter fusionen från Optimus. Under kvartalet gör fonden en ny investering i en ABS (SOLID VENTURE) som värderas till ca 47 mnkr vid årsskiftet. Vidare investerar även fonden i en strukturerad produkt (LEONTEQ CURR BASKET) som värderas till ca 25 mnkr. Fonden tar även över de övriga investeringarna från Optimus (två MBS:er och en Warrant). Totalt sett finns ca 138 mnkr i övriga tillgångar (6,4% av fondens totala värde). Fonden investerar även ca 14 mnkr i en obligation utgiven av MELITHO AB samt ca 10 mnkr i en svensk aktie QV CAPITAL ett mindre onoterat bolag.

727

WASSUM

- 2015-06-30 allokeringen till övriga investeringar ökar till ca 280 mnkr. Nytt köp i en ABS (BOARDWALK REAL ESTATE) som värderas till ca 50 mnkr. Investeringen i Solid Venture fördubblas. Samt investering i en strukturerad produkt (INVERSE CREDIT-LINKED CERT) som värderas till ca 71 mnkr. Vidare genomförs även investeringar i

- 2015-09-30 Andelen investerat i tillgångsslaget ABS:er har ökat och uppgår till nästan 300 mnkr Dels genom en nyinvestering i WSV Pro Mittelstand ETI. Marknadsvärdet uppgick till ca 56 mnkr vid kvartalsskiftet. Vidare har även investeringen i BOARDWALK REAL ESTATE utökats och värderas till 144 mnkr. Ytterligare investering i en strukturerad produkt genomförs. Innehaven i de två MBS:erna från Optimus (MASTR 5.5424 2035 samt MERRILL LYNCH 5.62 2037) har avslutats.

- 2015-12-31 Kraftig ökning av strukturerade produkter som nu uppgår till ca 323 mnkr. Totalt sett uppgår investeringar i övriga tillgångar till 619 mnkr. Inga förändringar i ABS:er. Investering genomförs inom obligationer i REDITUM SA som värderas till ca 143 mnkr.

- 2016-03-31 Ny investering i en ABS (NORDIC POWER ETI) som värderas till ca 47 mnkr. Innehavet i SOLID VENTURE ETI reduceras. Mindre investering i ett norsk aktie OXXY GROUP med sämre likviditet.

- 2016-06-30 andelen investeringar i ABS:er ökar med ca 200 mnkr efter investeringar Viceroy och Median Trust med 100 mnkr vardera. Stora delar av fondens aktieinnehav avslutas. Under kvartalet genomförs även investeringar i ett par mindre bolag (aktierna INTEX RESOURCES, ROCK ENERGY samt obligationen GLOBAL CAP).

- 2016-06-30 antal innehav reduceras kraftigt. Flertal försäljningar av aktier och obligationer. Investeringen i ABS BOARDWALK REAL ESTATE avslutas. Investeringarna i strukturerade produkter ökar kraftigt från 196 mnkr kvartalet innan till 735 mnkr vid kvartalsskiftet. Andelen övriga tillgångar är nu mer än 50% av totala fondförmögenheten.

- 2016-12-31 fondförmögenheten har minskat med ca 1300 mnkr under kvartalet. Innehavet i SOLID VENTURE ETI avslutas.

- 2017-03-31 under kvartalet avslutas ett innehav. Nedskrivning av flera innehav. Fondens förmögenhet har minskat med ca692 mnkr sedan föregående kvartal, varav värdet på ABS:erna har nedjusterats med 424 mnkr.

Sammanfattning: Innan fondfusionen hade Falcon inga innehav i övriga tillgångar. I samband med fondfusionen genomförs första investeringen i en ABS. Andelen övriga tillgångar ökar sedan succesivt i fonderna. Under det andra halvåret 2016 genomförs även stora köp i strukturerade produkter.

6 Utvärdering av fondernas avkastning

För att utvärdera fondernas prestation undersöks vilken avkastning fonderna har haft under den aktuella tidsperioden. Uppgifter om avkastning erhålls från extern fonddataleverantör som har tidsserier för fondernas officiella NAV-kurser. Observera att NAV-sättningen av Falcons fonder sträcker sig fram tills 2017-01-09 för Balanced och tills 2017-01-10 för Falcon Aggressive samt Falcon Cautious. De nedskrivningar som genomförs av värdet i fondernas investeringar efter det datumet finns ej med i avkastningssiffrorna. För att utvärdera hur fonderna har presterat i förhållande till marknaden jämförs fonderna mot ett marknadsindex.

I det fall en fond (som Inside Active Global) har ett uttalat jämförelseindex som de själva använder att redovisa sin avkastning mot används detta index. Optimus och Falcon har inga uttalade jämförelseindex. Här används index som motsvarar fondernas placeringsinriktning. För Optimus används Barclays global high yield index (hedged to SEK), vilket är ett index som speglar avkastningen på den globala high yield marknaden. För Falcon-fonderna sammanviktas ett globalt aktieindex (MSCI World) med ett ränteindex (OMRX Bond). Sammaviktningen av indexet varierar beroende på Falcon fondens placeringsinriktning. För Falcon Balanced som har en inriktning om maximalt 60% i aktier och maximalt 60% i räntor sammanviktas indexet enligt 50% MSCI World +50% OMRX Bond. För Falcon Cautious som har en placeringsinriktning om max 30% aktier och max 100% räntor sammanviktas indexet enligt 15% MSCI World och 85% OMRX Bond.

728

WASSUM

Avkastning Inside Active Global

Avkastning	2012-12-31 till 2013-06-30
Fond	12,2%
Index*	12,5%
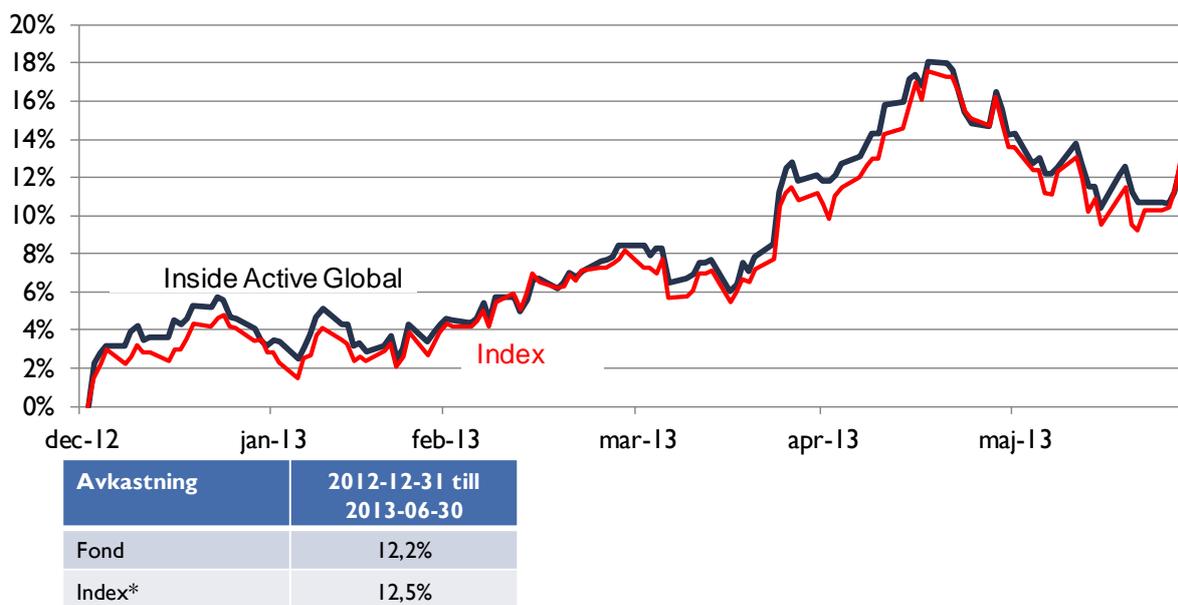

Fondens avkastning under det första halvåret 2013 (fram tills flytten till Optimus) uppgår till +12,2%. Under samma period har index avkastat +12,5%.

Avkastning Optimus High yield

Avkastning	2014-12-31 till 2015-03-08	2013-12-31 till 2014	2013-06-30 till 2013-12-31	Totalt sedan 2013-06-30
Fond	2,2%	-1,4%	-2,3%	-1,6%
Index*	2,8%	3,0%	6,5%	12,8%
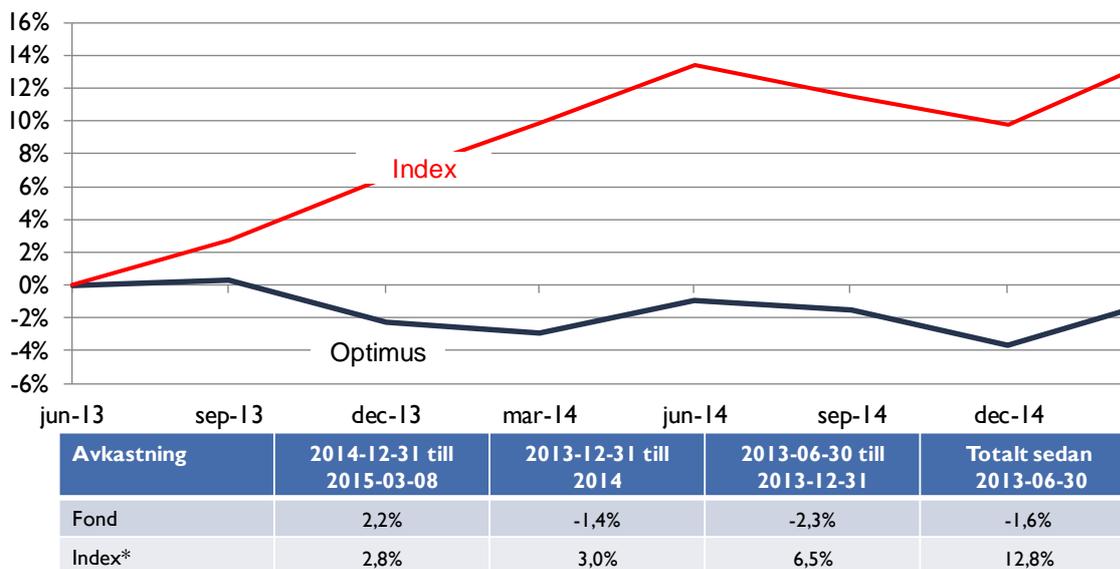

Fondens ackumulerade avkastning sedan flytten från Inside Active Global (2013-06-30) tills överföringen till Falcon (2015-03-08) uppgår till -1,6%. Under samma period har index (marknadsnittet för liknande tillgångar) avkastat +12,8%. Fondens avkastning har varit sämre än index under samtliga kvartal under perioden. Fondens avkastning avviker därmed ganska mycket från hur marknaden har utvecklats under samma period.

7 Prissättning MBS:er

Marknadsvärdet för en investering i en MBS beräknas genom att multiplicera pris med nominellt belopp samt med en faktor. Där faktorn tar hänsyn till eventuella amorteringar/förtidsbetalningar till det ursprungliga totala lånebeloppet. Faktorn visar andelen nuvarande utestående nominella belopp i förhållande till det ursprungliga nominella beloppet för lånet. Om pris anges exkl. upplupen ränta (clean price) adderas den upplupna räntan till beloppet.

Då frekvent handel saknas i dessa instrument, varje instrument är i sig unikt finns det inte några riktiga noterade marknadspriser. Prissättningen är därmed till viss del modellbaserad, och bygger på relativ värderingsdata från liknande instrument. Faktorer som påverkar prissättningen är bland annat: Förväntad återbetalningshastighet, förväntade förluster samt den Underliggande räntenivån (prissätts ofta med en marginal mot Libor).

Undersökning av prissättningen i de MBS:er som Optimus High Yield har investerat i. Det första diagrammet visar instrumentets pris som vi erhållits från extern dataleverantör Thomson Reuter. Thomson Reuter är en av världens största leverantörer av finansiell data. I diagrammet framgår även hur instruments rating har ändrats under perioden.

Det andra diagrammet jämför Thomsons prisnoteringarna för instrumentet med det pris Optimus faktiskt köpte och sålde instrumenten för, det pris som NAV-kurssättaren av fonden har använt sig av (WS), samt det pris som förvaringsinstitutet för fonden har (Swedbank). (I de innehavslistor som erhållits från förvaringsinstitutet saknades först priser på MBS:erna. Förvaringsinstitutet skickade sedan kompletterande uppgifter för dessa priser).

Ett pris på 100 motsvarar par value = det pris som ska betalas tillbaka på slutdagen och det pris som värdepappret gavs ut för.

STRUCTURED ASSET INVEST – Prissättning

731

WASSUM
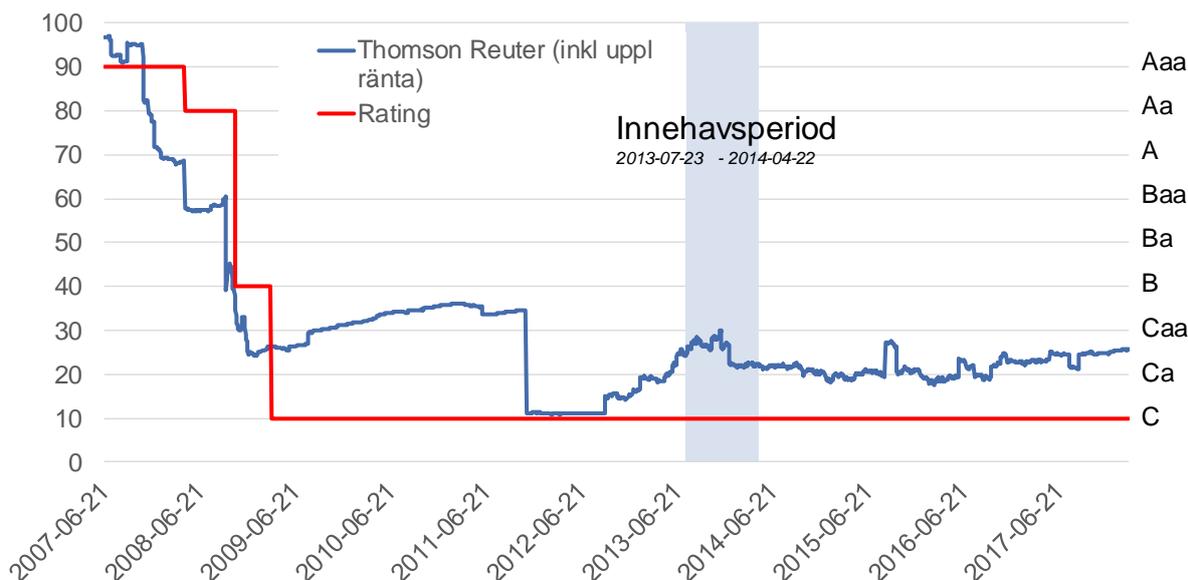

Den långa tidsserien från Thomson Reuter visar att priset på instrumentet strax innan finanskrisen låg priset strax under 100. I samband med finanskrisen nedgraderas instrumentets rating från Aaa (högsta kreditvärdighet) till C (motsvarar default). Bilaga 3 redogör för klassificeringen av de olika ratingkategorierna. Priset på obligationen rasar kraftigt under denna period och har sedan 2009 legat mellan ca 30 och 10 USD.
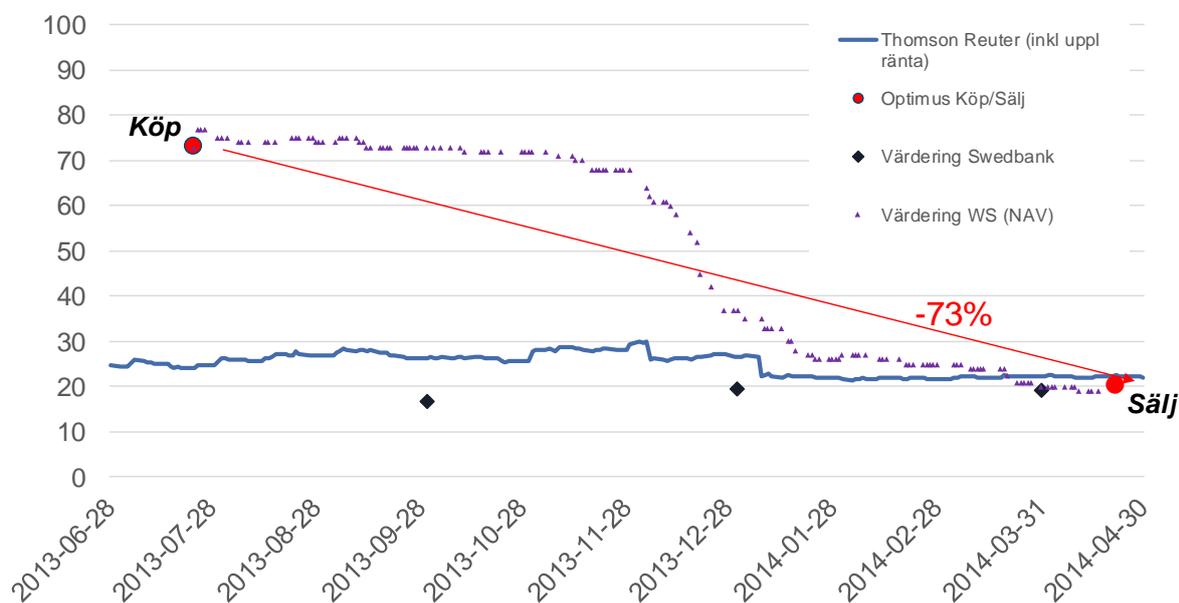

Fonden köpte instrumentet för ca 73 USD 2013-07-23. Fonden värderar instrumentet runt ca 70 fram tills december månad, då värderingen succesivt minskas till ca 37 USD. Värderingen fortsätter sedan att minska vid inledningen av 2014. Instrumentet säljes 2014-04-22 till priset 20 USD. I jämförelse med inköpspriset är det en nedgång Det motsvarar en nedgång på strax över -70%.

I en jämförelse med de priser som återfinns i Thomsons databas borde värderingen av instrumentet vara ca 20 USD vid tidpunkten för inköpet. De värderingar som förvaringsinstitutet har kompletterat med ligger i nivå med Thomsons priser. Vid försäljningen ligger priserna för de olika datakällorna runt samma nivå.

732

Fup bilaga 15 B

WASSUM

GSAA HOME EQUITY TRUST VAR% 360325 – Prissättning
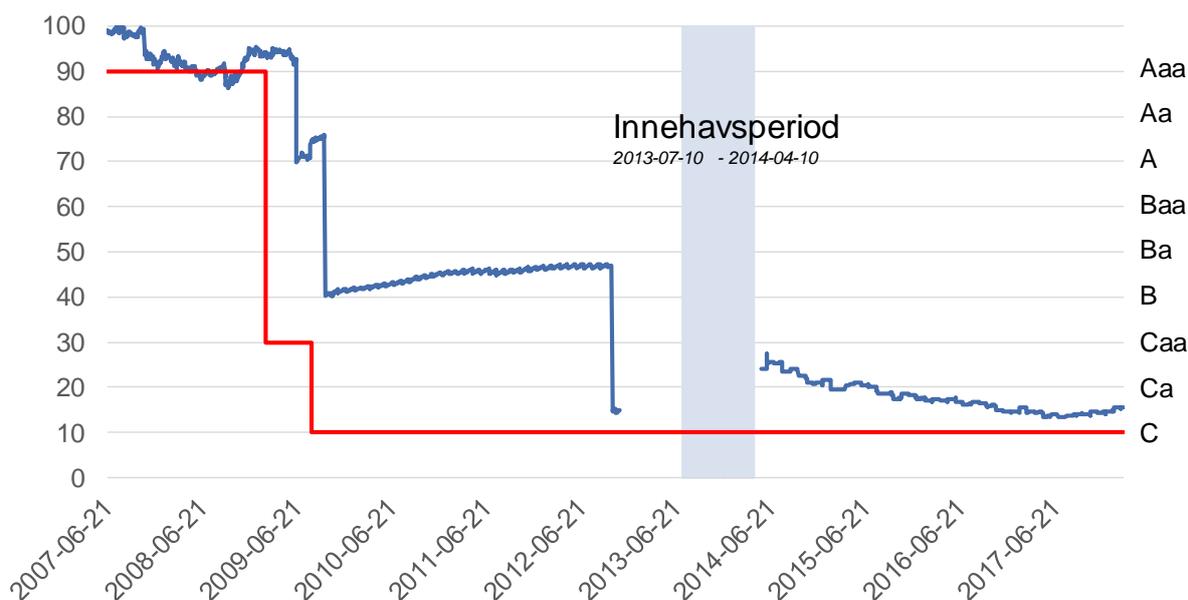

Instrumentet uppvisar samma trend som för den tidigare MBS:en. Efter kreditkrisen rasar priset kraftigt. I Thomson Reuters databas saknas dock prisuppgifter för just den perioden som Optimus har haft instrumentet. Därför används senast kände kurs för Thomson Reuter i prisjämförelsen nedan.
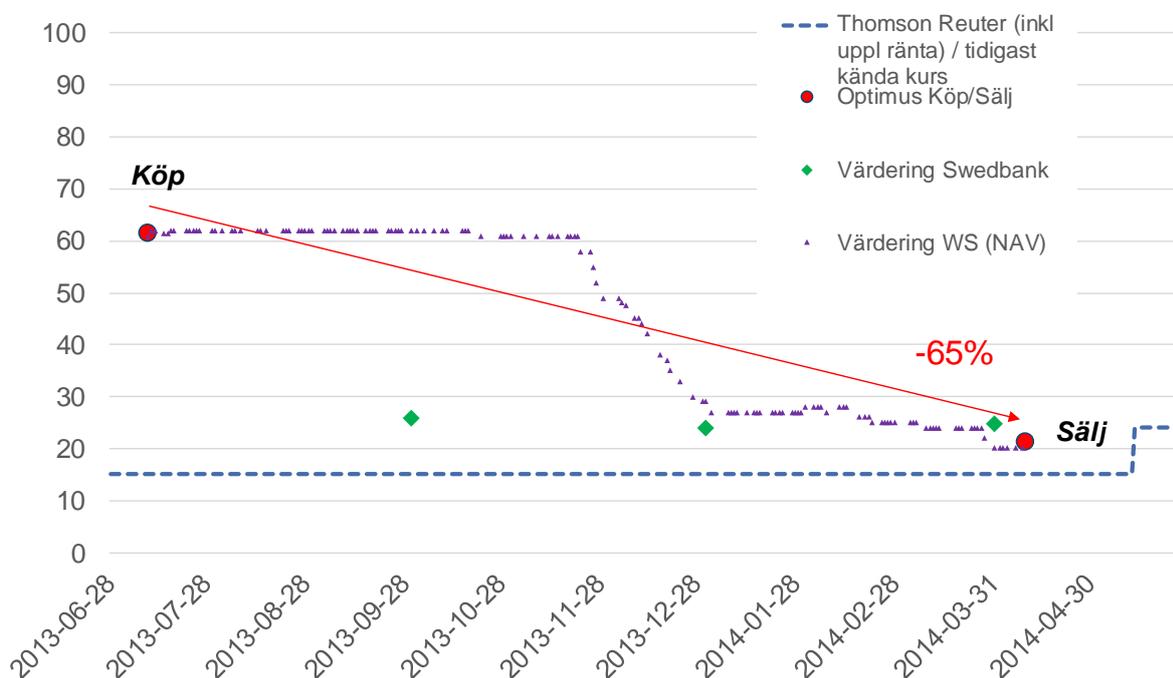

Optimus köpte instrumentet 2013-07-10 för priset ca 61 USD. Fonden värderar instrumentet runt ca 60 fram tills årsskiftet, då värderingen under december månad succesivt minskas till ett pris på ca 29 USD vid utgången av året. Fonden säljer instrumentet sedan instrumentet 2014-04-10 till priset 21 USD. I jämförelse med köppriset motsvarar det en prisnedgång på Vid försäljningen är priset ca 20. Det motsvarar en nedgång på ca -65%.

733

Fup bilaga 15 B

WASSUM

Priset vid köpet, och som fonden värderar instrumentet till, är betydligt högre jämfört med de andra priskällorna. Vid försäljningen är priset i nivå. Vid försäljningen ligger priserna för de olika källorna runt samma nivå.

FIRST NLC TRUST VAR% 351225 – Prissättning
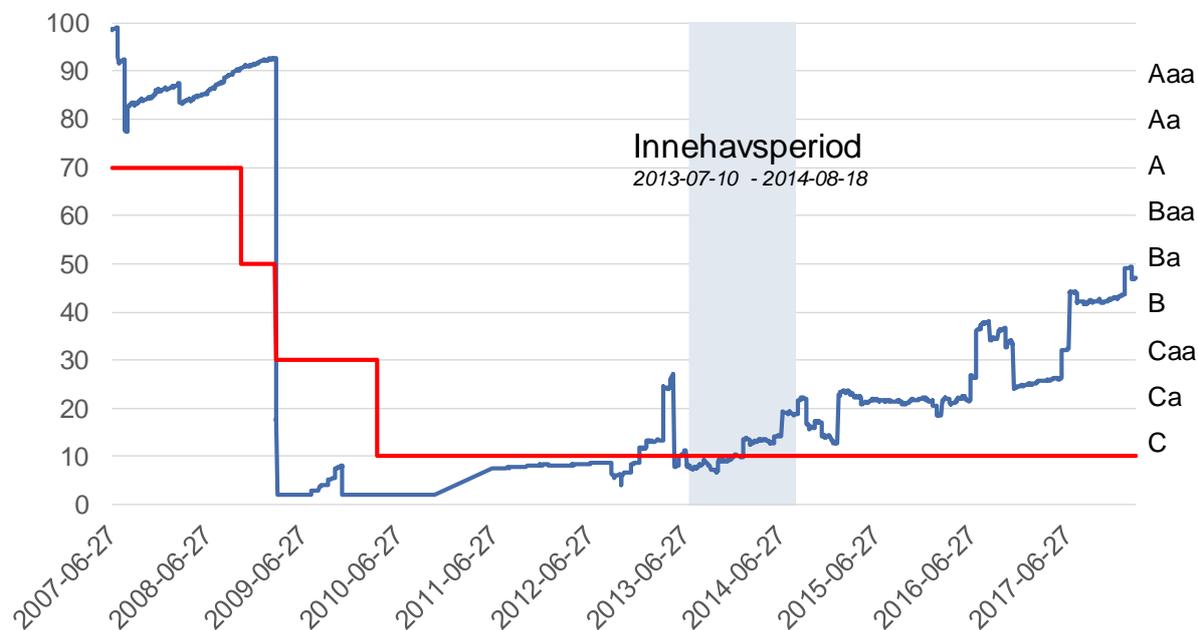

Innan finanskrisen hade instrumentet en rating på A. I samband med finanskrisen nedgraderas instrumentet till C (default) och priset går ner kraftigt till nästan 0. Under den senare perioden har priset stigit på instrument till nästan 50.

734

WASSUM

*Försäljning av ca 15% av innehavet
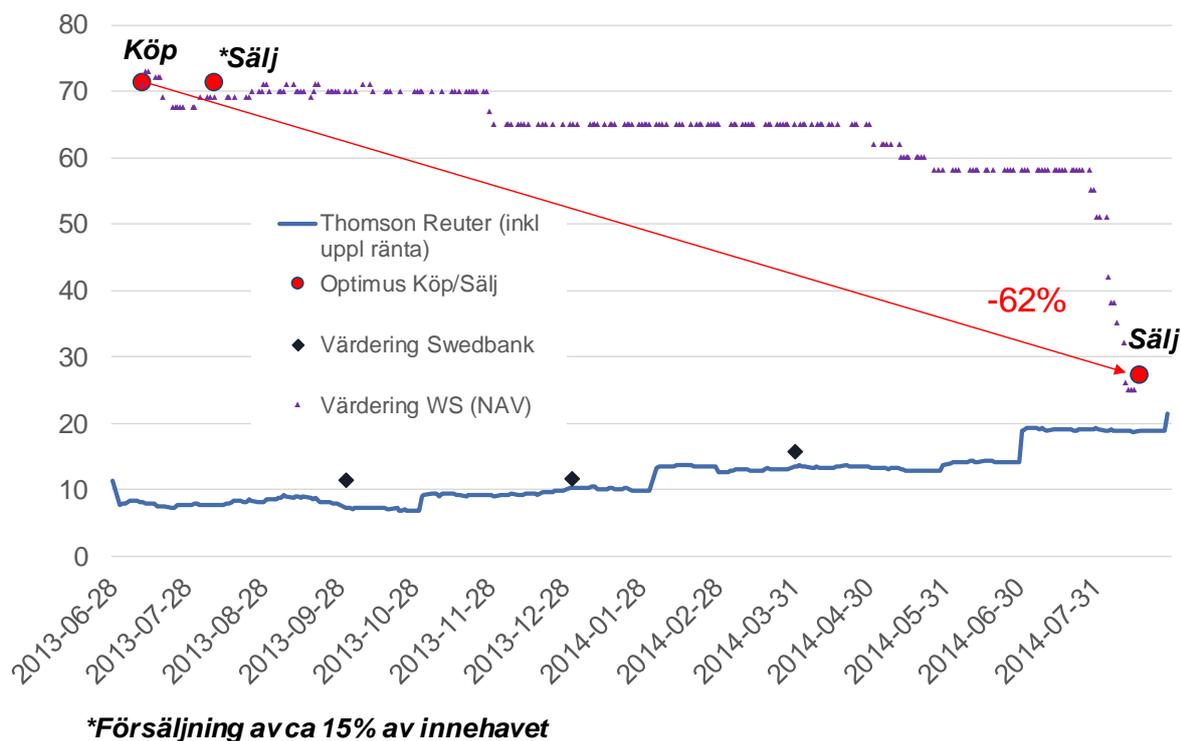

Vid köpet 2013-07-10 betalade Optimus ett pris på ca 71 USD för instrumentet. Fonden genomför sedan en mindre försäljning (ca 15% av innehavet) månaden efter till liknande kurs. Fondens värdering av instrumentet minskas sedan något vid ett par tillfällen, men ligger på en nivå runt 60 USD. I slutet av juni 2014 minskas kursen drastiskt ner från 58 USD till 25 USD under ett par dagar. 2014-08-14 säljes instrumentet för ca 27 USD. Prisnedgången jämfört med köppriset uppgår till ca -62%.

Vid inköpstillfället har har Thomson och Swedbank ett pris på runt 10 USD för instrumentet. Vid tidpunkten för försäljningen ligger priserna från de olika priskällorna mer i nivå med varandra.

WASSUM

MERRILL LYNCH AN ASSET VAR% 370325 – Prissättning
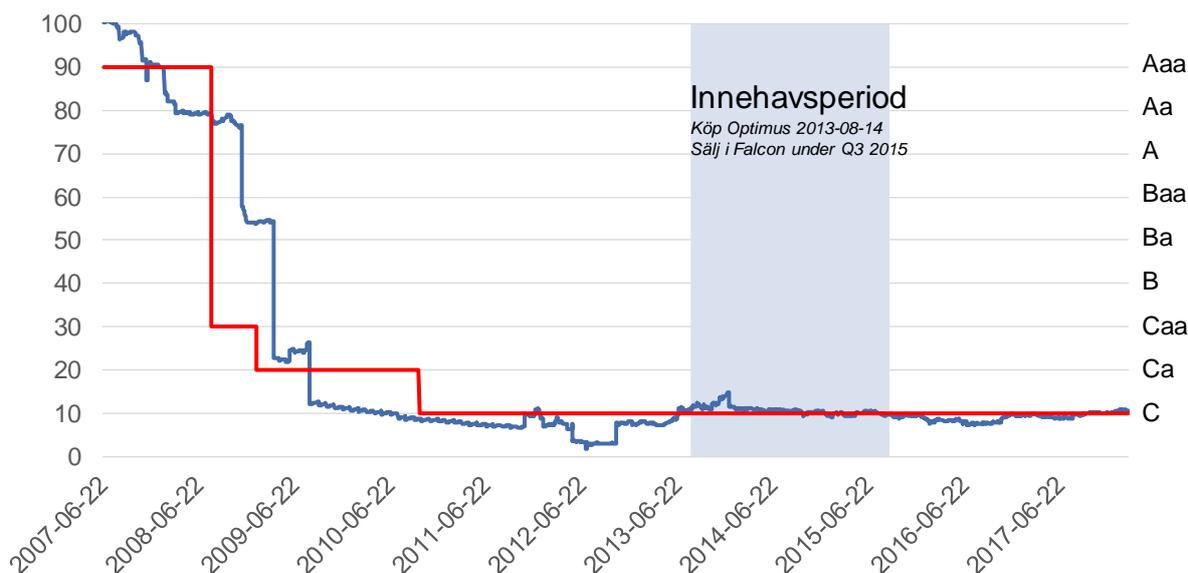

Innan finanskrisen hade instrumentet den högsta kreditbetyget. Efter finanskrisen ratas instrumentet ner till C (default). Priset går ner till ca 10 USD.
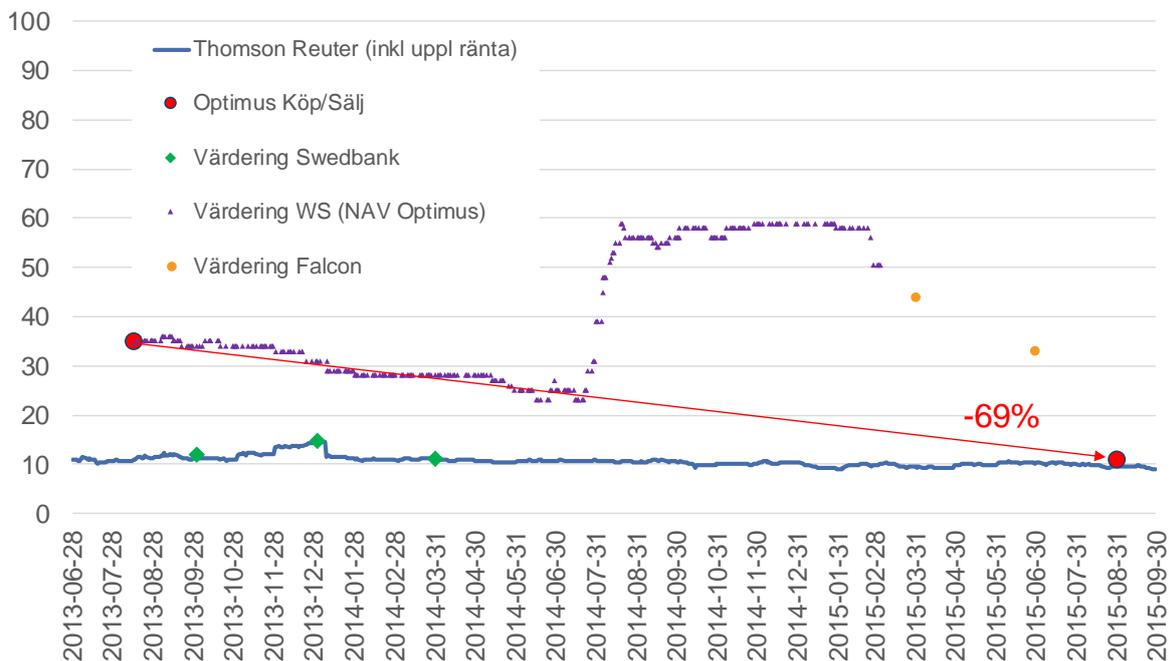

Optimus köper in instrumentet 2013-08-14 till priset ca 35 USD. Fondens prissättning av instrumentet justeras sedan ner succesivt och per 2014-06-16 var priset 23 USD. Sedan stiger fondens prissättning av instrumentet drastiskt upp till mellan 55 USD under ett par veckor. Fondens prissättning av instrumentet ligger sedan runt 60-55 USD. Priset går sedan ner till ca 50 USD innan fusionen med Falcon. Falcon-fonders värdering av instrumentet per sista mars går sedan till 44 USD och per sista juni till 33 USD. Vid försäljningen (2015-09-02) uppgick säljpriset till ca 11 USD. Vilket ger en prisnedgång på -69%.

736

WASSUM

Vid köptillfället har Thomson Reuter värderat instrumentet till ca 10 USD (liknande nivå som Swedbank). Thomsons prissättning är relativt konstant under innehavstiden och i nivå med det faktiska försäljningspriset vid försäljningen.

Sammanfattning: I samtliga fall av har försäljningspriset varit betydligt lägre än inköpspriset. Prisnedgången har varit runt ca 65-70% av inköpspriset. Inköpspriserna har legat högt över de priser som finns för dessa instrument i den externa databasen (Thomson Reuter). Prisskillnaden mellan de olika källorna är anmärkningsvärd. Visserligen finns det inga riktiga marknadspriser för dessa instrument (med avsaknad av likviditet och handel), men det ska inte kunna skilja så mycket. Vidare ligger även de faktiska försäljningspriserna i nivå med de priser Thomson Reuter har, vilket tyder på att priset vid inköpet inte har varit korrekt satt.

De priser som fonden har använt på instrumenten (vid värderingen av fondens NAV-kurs) ligger alla i nivå med inköpspriset för att sedan justeras ner till nivån med försäljningspriset innan försäljning. I två av fallen genomförs en justering av värderingen på priserna strax innan årsskiftet. Ett av innehaven finns kvar i den portfölj som fusioneras över till Falcon. Fondens pris för detta instrument går upp över inköpspriset innan fusionen. För att sedan succesivt värderas ner till samma nivå som försäljningspriset. Det vore intressant att se vilken källa som fonden använt att få instrumentpriserna. De priser som erhållits från förvaringsinstitutet har varit i nivå med Thomson Reuter.

8 Bilaga 1 – MBS:er

Förteckningen nedan av de MBS:er som Optimus har köpt eller sålt fr.o.m andra halvan av år 2012.

Falcon har investerat i totalt 6 st ABS:er. Fyra av dessa (de 4 översta ovan i tabellen) är utgivna som ETI:er där det Maltabaserade bolaget Argentarius ETI Management Ltd är arrangör/listing agent och calculation agent. Argentarius ansvarar för börsnoteringen av värdepappret och att prissätta instrumentet. För de två sista ABS:erna har inget prospekt kunna hittats. Dock verkar dessa vara utgivna av samma motpart.

Av ETI:erna är ett flertal dubbletter som under perioden har bytt namn: BOARDWALK REAL ESTATE byter namn till ETISEC 0 12/29/49 Corp, NORDIC POWER ETI byter namn till COMMONWEALTH SEC PLC och SOLID VENTURE ETI byter namn till DLTASC 0 12/29/49 Corp. ETI:erna är emmitterade av ett SPV. Colleteral består av performance linked bonds som är utgivna av en Collateral obligor. Utvecklingen för de performance linked bonds är kopplade till utvecklingen för ett konto på Sparkasse Bank Malta samt registrerade och onoterade tillgångar som the collateral obligor innehar. Det anges ingenstans i prospektet mer exakt vad för typ av tillgångar som finns på detta konto. The Collateral Obligor i dessa fallen är AI Undertaking III Inc, Nordic Power Inc samt AI Undertaking VIII Inc som är registrerade på St. Vincent and the Grenadines.

10 Bilaga 3 – Rating (Moodys)

Aaa	Obligations rated Aaa are judged to be of the highest quality, with minimal risk.
Aa	Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.
A	Obligations rated A are considered upper-medium-grade and are subject to low credit risk.
Baa	Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess speculative characteristics.
Ba	Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.
B	Obligations rated B are considered speculative and are subject to high credit risk.
Caa	Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.
Ca	Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery in principal and interest.
C	Obligations rated C are the lowest-rated class of bonds and are typically in default, with little prospect for recovery of principal and interest.

Prissättning av MBS:er

Internt & Konfidentiellt

WASSUM

1 Inledning

Detta dokument är en kompletterande analys till PM:et *Resultat av granskning av fonderna Falcon Funds och Optimus High Yield.* Dokumentet går igenom de MBS:er som Optimus high yield investerade ifrån år 2013, prissättningen, vinst/förlust per instrument samt en prisjämförelse med två externa datakällor.

2 Om instrumenten

MBS:er avser investeringar i mortgage backed securites, som är värdepapperiserade krediter som omfattar amerikanska bostadslån. Dessa värdepapper gavs ut 2004-2007 åren innan finanskrisen, och har en lång löptid om ca 30 år. När värdepapperna gavs ut marknadsfördes de som relativt säkra investeringar med hög kreditvärdighet. I samband med kreditkrisen kollapsade marknaden för dessa typer av värdepapper. Vid tidpunkten för Optimus investeringar i dessa värdepapper var kreditvärdigheten mycket låg.

Marknadsvärdet för en investering i en MBS beräknas genom att multiplicera pris med nominellt belopp samt med en faktor. Där faktorn tar hänsyn till eventuella amorteringar/förtidsbetalningar till det ursprungliga totala lånebeloppet. Faktorn visar andelen nuvarande utestående nominella belopp i förhållande till det ursprungliga nominella beloppet för lånet. Om pris anges exkl. upplupen ränta (clean price) adderas den upplupna räntan till beloppet.

Likviditet och marknadsprissättning varierar stort mellan olika typer av instrument. Då varje instrument är i sig unikt finns det inte några riktiga noterade marknadspriser och det kan även vara svårt att jämföra prissättningen mellan olika instrument. Faktorer som påverkar prissättningen är bland annat: Förväntad återbetalningshastighet, förväntade förluster samt den Underliggande räntenivån (prissätts ofta med en marginal mot Libor). I bilagan finns en beskrivning av hur de externa dataleverantörerna Thomson och Bloomberg baserar sin prissättning av instrumenten.

Bloombergs prismodell bygger på direkta data som gäller för det faktiska instrumentet samt indirekt data som avser observerbar data för jämförbara instrument. Data kan avse både faktisk transaktionsdata samt indikativ data. Saknas jämförbara observationer eller handelsdata för det faktiska instrumentet görs en helt modellbaserad prissättning. Värderingen betygssätt med ett betyg mellan 1-10 (där 10 är högst). I de fall ingen faktisk data finns för instrumentet kan betyget som högst vara 5. Bilaga 3 ger även en genomlysning av prissättningsmodellen för dessa instrument vid köp och säljtillfället.

För de instrument som undersöks saknas direkta observationer. D.v.s de värderingar som Bloomberg har bygger på data från jämförbara instrument. Betyget på datan är även relativt låg.

Ett pris på 100 motsvarar par value = det pris som ska betalas tillbaka på slutdagen (om inga förluster inträffar) och det pris som värdepappret gavs ut för.

Varje månad betalas ut en kupong för instrumentet. Kuponger är den ränta som sattas vid utgivandet av instrumentet. Kupongen sätts vanligtvis utifrån underliggande kort ränta (exempelvis US Libor 3 månader) samt en fast kreditränta. Kupongen varierar därmed till följd av att den underliggande korta räntan varierar. Den kupongintäkt som investeraren erhåller motsvarar kupongen i % * (det nominella beloppet vid investering – de återbetalda investeringarna som genomförts).

Handel för MBS:er (och andra räntepapper) ska registreras i TRACE som är ett verktyg i Bloomberg för en transparent prissättning till investerare. Vi har inte kunnat hitta någon transaktionshistorik för dessa värdepapper vid en sökning i TRACE.

3 Om MBS:erna
Tabellen nedan visar vilka MBS:er Optimus har investerat i fr.o.m år 2013. Totalt är det 8 stycken värdepapper:

Tabellen visar instrumentets namn, vilken del av tranchen instrumentet tillhör, unik isin-kod för identifikation och valuta. Kolumnen Closing date samt kolumnen Maturity visar vilka datum instrumentet emmitterades samt när den förväntas att löpa ut. Kolumen Type avser vilken typ av kategori inom MBS som instrumentet tillhör. Original outstanding amount avser det totala nominella belopp som instrumentet gavs ut för. Original rating/rating at holding period visar vad instrumentets rating vid utgivning var och vad rating var under innehavsperioden. Rating är erhållen från Moodys. I vissa fall saknas rating, då har rating kompletteras från ratinginstitutet Fitch. Initial interest rate avser räntan (kupongen) vid utgivandet. Buy och Sell avser innehavsperioden d.v.s vilka datum då instrumentet köptes och såldes av fonden.

Samtliga instrument gavs ut innan finanskrisen. Instrumenten hade vid utgivandet en löptid om ca 30 år. Undantaget är LMT 2008-6 B1 som vid utgivandet hade en löptid på 39 år. Rating av värdepapprena var vid utgivandet relativt god. Samtliga värdepapper hade en rating inom klassen investment grade (d.v.s minst baa). Tre av instrumenten hade den högsta ratingen (AAA). Vid investeringstillfället har samtliga instrument den lägsta ratingen (C), vilket innebär att instrumentet vanligtvis är i default och det är liten sannolikhet för full återbetalning av det ursprungliga nominella beloppet och räntan. De investeringar som har gjorts har därmed varit av spekulativt syfte med förhoppning om att

4 Sammanställning av transaktioner och vinst/förlust

Tabellen nedan visar en sammanställning av de köp och säljbelopp för de MBS:er som Optimus High Yield investerade i fr.o.m år 2013, samt information om faktor (andel återbetald amortering av totalt nominellt belopp) och hur den förändrats under innehavstiden. Informationen har erhållits från köp och säljnotor.

Price är det pris som fonden har betalat vid köp och erhållit vid försäljning för instrumentet. Current face är det nominella beloppet vid transaktionen. Total amount (i USD) är det totala belopp som fonden erlagt vid köpen och erhållit vid försäljning.

Investeringens vinst/förlust beräknas ut genom att ta försäljningsbeloppet minus köpbeloppet samt addera de kuponger (ränteintäkter) som betalats ut och eventuell återbetalning under innehavsperioden. Information om utbetalda kuponger och eventuella återbetalningar har erhållits från fondens transaktionshistorik från fondens administratör. Tabellen nedan sammanfattar vinst/förlust för respektive instrument. Observera att för innehavet i MANA 2007-A2 A3D saknas information om kuponger för innehavstiden i Falcon. Beloppen nedan är i USD.

Tabell: Vinst/förlust per instrument med hänsyn till information om kuponger och återbetalning från fondens transaktionshistorik.

Fup bilaga 15 B

WASSUM

Samtliga av instrumenten har investeringarna har inneburit en stor förlust. Förlusten har varierat mellan -37,5% till -77% av investerat belopp. Den totala förlusten uppgår till ca -30,6 miljoner USD.

För att kontrollera att ingen information har saknats vid beräkningen av vinst/förlust har information om instrumentets kuponger, återbetalningar och eventuella förluster under innehavsperioden även hämtats in från Bloomberg. I bilaga 1 finns en detaljerad kassaflödesanalys av de kassaflöden som respektive instrument har haft under innehavsperioden. Tabellen nedan sammanfattar vinst/förlusten för respektive instrument med hänsyn till de köp och försäljningsbeloppen som tidigare redovisats:

Tabell: Vinst/förlust per instrument med hänsyn till kassaflödesinformation för respektive instrument från Bloomberg.

Namn	BOAMS MTGE 2004-L B1	MSAC 2003-NC8 B3	LMT 2008-6 B1	BAFC FDG 2004-1 DL-FR	FNLC 2005-3 M2*	GSAA 2006-6 AF7	SAIL 2006-4 A5	MANA 2007-A2 A3D	TOTALT
ISIN	US05949AZH66	US61746RDS76	US52525FAH64	US05946XGH08	US32113JBV61	US362334MZ48	US86360WAE21	US59024FAG90	
Köp	4 326 776	1 298 849	3 770 257	2 720 961	4 977 686	2 645 332	21 934 056	6 083 154	47 757 071
Ränteintäkt	320 124	146 472	205 212	285 892	79 152	122 674	121 751	173 728	1 455 005

Vinst/förlust	-1 459 712	-672 142	-2 874 293	-1 356 094	-2 563 452	-1 606 021	-15 793 554	-4 014 066	-30 339 334
Vinst/förlust, %	-33,7%	-51,7%	-76,2%	-49,8%	-51,5%	-60,7%	-72,0%	-66,0%	-63,5%

Utifrån den kontroll som gjorts mot kassaflödena som Bloomberg har registrerat för de olika instrument är det ingen större skillnad mot den tidigare beräknade förlusten. Vi kan därmed anta att förlusten inte beror på missad data eller liknande.

5 Prisjämförelse

Prisjämförelsen redovisar hur prissättningen av respektive instrument utvecklats under fondens innehavsperiod. Dels redovisas till vilket pris fonden köpte och sålde instrumentet för, det pris som använts för värdering av instrumentet av fondens NAV-kurssättare under innehavsperioden samt vilka priser som de två externa dataleverantörerna Bloomberg och Thomson Reuter har haft för instrumentet under innehavsperioden. I bilaga 2 visas även en prisdata från Thomson och Bloomber för instrumentets hela livslängd, samt hur instrumentets rating har utvecklats under tiden.

BOAMS MTGE 2004-L B1 - US05949AZH66

Innehavsperiod 2013-02-22 - 2013-12-03

BA MORTGAGE SECURITIES INCORPORATED2004-L (US05949AZH66)
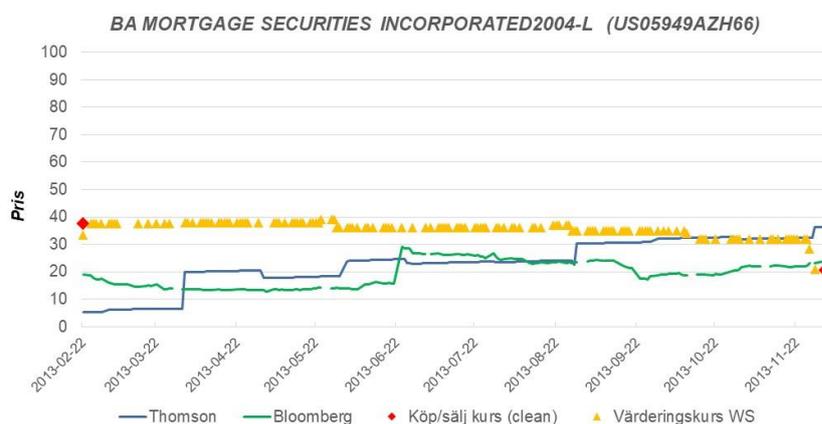

Den röda datapunkten avser köp och säljpriset som fonden betalat/erhållit vid transaktionen. Den blåa linjen avser prisdata för instrumentet från Thomson Reuter. Den gröna linjen avser prisdata för instrumentet från Bloomberg. För både Thomson och Bloomberg redovisas bid-kurser i diagrammet. Bid-kursen är det pris som en investerare får när han säljer ett instrument. För instrumenten finns även vid varje tillfälle en Ask-kurs, som avser det är det pris som investerare får betala när han köper ett instrument. ASK-kurserna redovisas i parantes texten nedan för köpen. De gula datapunkterna avser den värderingskurs som fondens NAV-kurssättare har använt för värdering av instrumentet under innehavsperioden.

744

WASSUM

Priset för instrumentet vid köptillfället uppgick till 37,5 USD. Thomsons pris uppgick till 5,4 USD (ASK 5,5 USD). Bloombergs prissättning uppgick vid tillfället till 19,0 USD (ASK 24,0). Det pris som fonden betalade för instrumentet var därmed högre än både Thomson och Bloombergs uppgifter.

Priset som fondens NAV-kursättare värderar instrumentet för under innehavstiden ligger sedan relativt oförändrad. Det högsta priset är noterat till 39 USD och det lägsta är 32 USD. Dagarna innan försäljning reduceras priset först till 28,5 USD och sedan till 21 USD.

Vid försäljningen erhåller fonden 20,5 USD för instrumentet. Thomson har vid samma tidpunkt ett pris på 36,3 USD och Bloomberg har ett pris om 24,0 USD. Det försäljningspris som fonden erhållit är därmed i nivå med Bloomberg men lägre än Thomson.

Bloombergs prissättning vid köptillfället är baserat på marknadsinput från andra indirekta observationer. Bloombergs värdering vid försäljningen baseras på indirekt marknadsinput varav 30% avser genomförda transaktioner för andra liknande instrument och 70% avser indikativa observationer.

MSAC 2003-NC8 B3 - US61746RDS76

Mortgage Pass-Through Certificates, Series 2003-NC8 Morgan Stanley ABS Capital I Inc. Trust 2003-NC82003-NC8 (US61746RDS76)
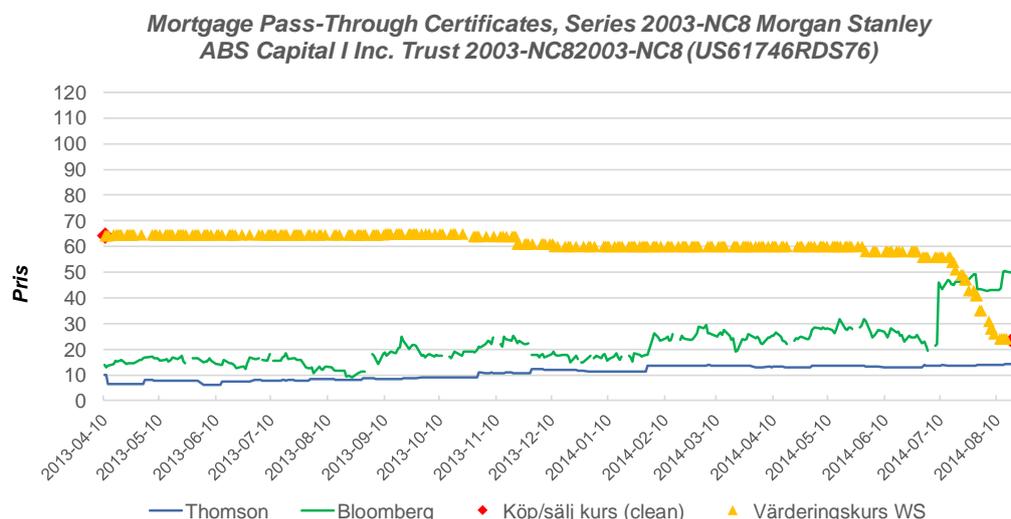

Priset för instrumentet vid köptillfället som fonden betalade uppgick till 64,375 USD. Vid samma datum uppgick Thomsons prissättning av instrumentet till 10,0 USD (ASK 10,1 USD). Bloombergs prissättning uppgick till 13,8 USD (ASK 18,8). Fondens värdering av instrumentet ligger relativt konstant under innehavsperioden fram tills perioden strax innan försäljningen då priset succesivt justeras ner. Det pris som fonden betalar för instrumentet är därmed betydligt högre än värderingen som de två externa datakällorna har.

Fonden erhåller priset 23,5 USD vid försäljningen. Thomson har vid samma tidpunkt ett pris på 14,1 USD medan Bloombergs pris har stigit till 49,8 USD. Försäljningspriset är därmed strax högre än Thomson men betydligt lägre än Bloomberg.

Bloombergs värdering vid köpet baseras på indirekta marknadsobservationer från andra liknande instrument varav 70% avser genomförda transaktioner för andra liknande instrument och 30% avser indikativa observationer. Bloombergs värdering vid försäljningen baseras på indirekta marknadsobservationer från andra liknande instrument varav 9% avser genomförda transaktioner för andra liknande instrument och 91% avser indikativa observationer.

WASSUM

LMT 2008-6 B1 - US52525FAH64

Innehavsperiod 2013-05-15 - 2014-08-18

LEHMAN MORTGAGE TRUST 2008-6 (US52525FAH64)
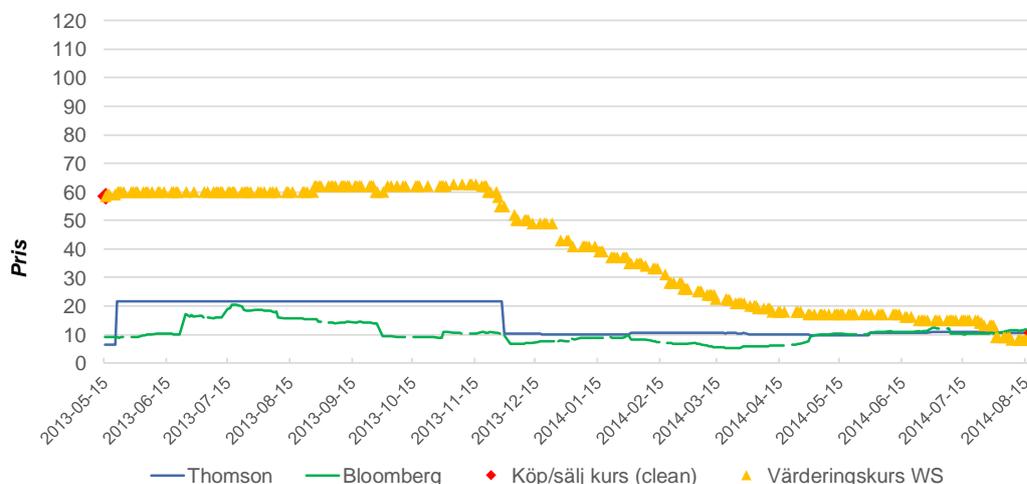

Priset för instrumentet som fonden betalade vid köptillfället uppgick till 58,5 USD. Vid samma tillfälle har Thomson haft en värdering på 6,4 USD (ASK 6,5 USD). Bloombergs värdering av instrumentet vid köptillfället uppgår till 9,1 USD (ASK 14,1 USD). Det pris som fonden betalar för instrumentet är betydligt högre än värderingen från både Thomson och Bloomberg. Under innehavsperioden ligger priset relativt konstant fram tills december 2013 då priset succesivt reduceras ner fram tills försäljningsdagen.

Vid försäljningstillfället erhåller fonden ett pris på 10,375 USD. Thomson har vid samma tidpunkt ett pris om 10,6 USD och Bloomberg har ett pris på 11,1 USD. Det pris som fonden har erhållit är därmed i linje med värderingen från de två externa datakällorna.

Bloombergs värdering vid köpet baseras på indirekta indikativa marknadsobservationer från andra liknande instrument. Bloombergs värdering vid försäljningen baseras på indikativa indirekta marknadsobservationer.

BAFC FDG 2004-1 DL-FR - US05946XGH08

Banc of America Funding Trust 2004-1 (US05946XGH08)

746

Fup bilaga 15 B

WASSUM
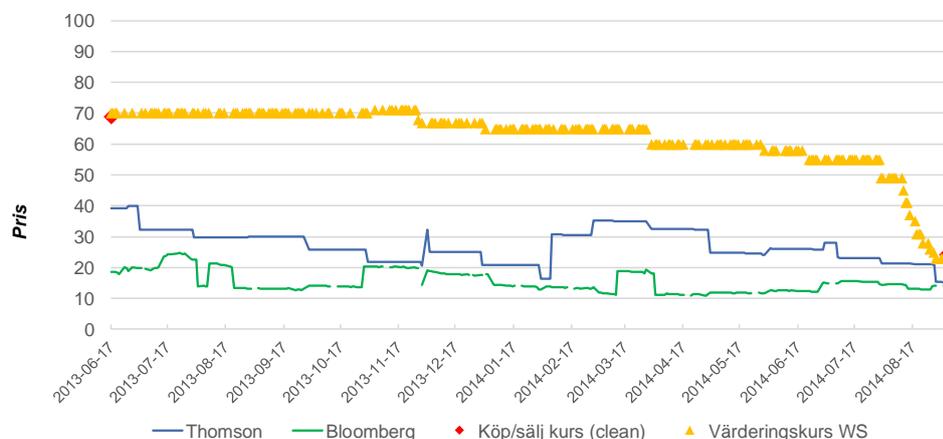

Priset för instrumentet vid köptillfället som fonden betalade uppgick till 69 USD. Vid samma tidpunkt har Thomson en värdering på 39,2 USD (ASK 39,3 USD). Bloombergs värdering av instrumentet uppgår till 18,7 USD (ASK 20,1). Fondens köp-pris är därmed betydligt högre än värderingen från de två externa datakällorna.

Under innehavsperioden reduceras fondens värdering av priset ett par gånger. Fram tills slutet av juli 2014 är värderingen ca 55 USD. Därefter reduceras priset kraftigt ned under ett par dagar fram tills försäljningsdagen.

Försäljningspriset som fonden erhåller uppgår till 24,125 USD. Thomson har vid samma tidpunkt en värdering på 15,2 USD och Bloomberg har en värdering på 13,8 USD. Fondens erhållna försäljningspris är därmed strax över Bloomberg och Thomsons värderingar.

Bloombergs värdering vid köptillfället baseras på data från indirekta observationer varav 67% är prissättning vid andra transaktioner och 33% är indikativa observationer. Bloombergs prissättning vid försäljningen baseras på indirekt marknadsinput varav 30% avser genomförda transaktioner för andra liknande instrument och 70% avser indikativa observationer.

FNLC 2005-3 M2- US32113JBV61

Innehavsperiod 2013-07-10 - 2014-08-18

First NLC Trust 2005-3 (US32113JBV61)
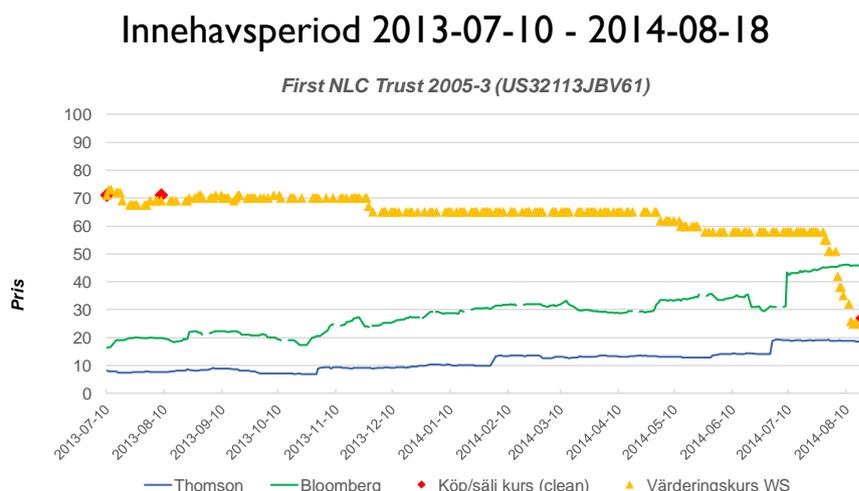

Det pris som fonden betalar för instrumentet uppgick till 71 USD. Thomsons värdering vid köptillfället uppgick till 8,1 USD (ASK 8,2 USD). Bloombergs prissättning uppgick till 16,2 USD (ASK 21,2 USD). Det pris som fonden betalar är därmed betydligt högre än värderingen från Thomson och Bloomberg. En månad efter köpet genomförs en delförsäljning av ca 15% av innehavet till kursen 71 USD. Fondens värdering av instrumentet är relativt konstant. Priset går ner vid ett par tillfällen under innehavsperioden och fram tills slutet av juli 2014 är värderingen 58 USD. Därefter reduceras priset succesivt relativt kraftigt till försäljningsdagen 14 dagar senare.

Fondens försäljningspris uppgår till 27 USD. Thomson har vid samma tillfälle en värdering på 18,5 USD och Bloomberg har en värdering på 45,8 USD. Försäljningspriset är därmed strax över Thomson men betydligt lägre än Bloomberg.

Bloombergs värdering vid köptillfället baseras på data från indirekta observationer varav 64% är observationer från transaktioner för andra liknande instrument och 36% är indikativa observationer. Vid försäljningstillfället baseras värderingen på data från indirekta observationer varav 13% är observationer från transaktioner för andra liknande instrument och 87% är indikativa observationer.

GSAA 2006-6 AF7 - US362334MZ48

Innehavsperiod 2013-07-10 - 2014-04-10

GSAA HOME EQUITY TRUST 2006-372 (US362334MZ48)
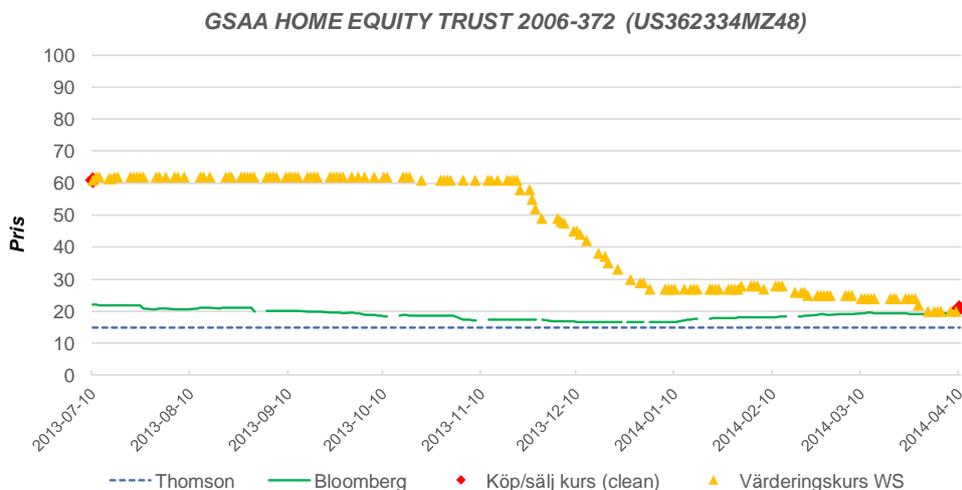

Priset för instrumentet vid köptillfället som fonden betalade uppgick till 61 USD. För Thomson saknas kursdata under innehavsperioden. Den kurs som Thomson senast hade noterat var 14,8 USD (ASK 16,8 USD) per 2012-11-14, och redovisas i diagrammet. Bloombergs värdering vid köptillfället var 18,7 USD (ASK 18,8 USD). Fondens köpkurs är därmed betydligt högre än värderingen från Bloomberg och Thomson. Fondens värdering av instrumentet ligger relativt stabilt fram tills slutet av november 2013 då priset succesivt reduceras kraftigt till 29 USD vid sista december.

Vid försäljningen erhåller fonden 21 USD i pris. Bloombergs värdering av instrumentet vid samma tidpunkt är 19,4 USD. Försäljningspriset är därmed i linje med Bloombergs värdering (och strax över det pris som Thomson senast har noterat).

Bloombergs värdering vid köptillfället baseras på data från indirekta observationer varav 51% är observationer från transaktioner för andra liknande instrument och 49% är indikativa observationer. Vid försäljningstillfället baseras värderingen på data från indirekta observationer varav 32% är observationer från transaktioner för andra liknande instrument och 68% är indikativa observationer.

Structured Asset Investment Loan Trust 2006-4 (US86360WAE21)

Thomson — Bloomberg — Köp/sälj kurs (clean) — Värderingskurs WS
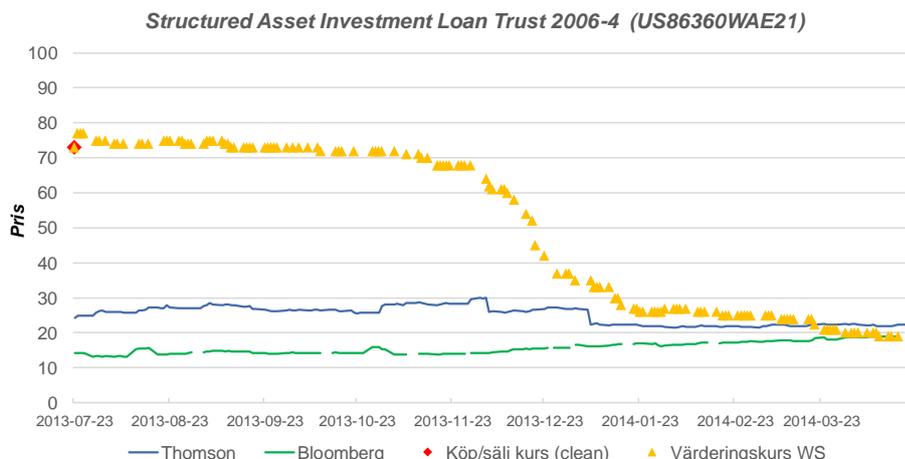

Fondens köp-pris uppgick till Priset för instrumentet vid köptillfället uppgick till 73 USD. Thomson hade vid samma tidpunkt en värdering på 24,3 USD (ASK 24,4 USD). Bloombergs värdering av instrumentet uppgick till 14,1 USD (ASK 18,1 USD). Det pris som fonden betalade för att köpa instrumentet var därmed betydligt högre än värderingen från de två externa datakällorna.

Fondens värdering av instrumentet är relativt stabilt fram tills november 2013 då priset succesivt reduceras kraftigt till årsskiftet 2013/2014 och ligger sedan på den nivån tills försäljningen. Vid försäljningen erhåller fonden ett pris på 20,0625 USD. Thomson har vid denna tidpunkt en värdering på 22,5 USD och Bloombergs värdering uppgår till 19,1 USD. Fondens försäljningspris av instrumentet är därmed i linje med värderingen från de två externa datakällorna.

Bloombergs värdering vid köptillfället baseras på data från indirekta observationer varav 60% är observationer från transaktioner för andra liknande instrument och 40% är indikativa observationer. Vid försäljningstillfället baseras värderingen på data från indirekta observationer varav 54% är observationer från transaktioner för andra liknande instrument och 46% är indikativa observationer

MANA 2007-A2 A3D - US59024FAG90

Fup bilaga 15 B
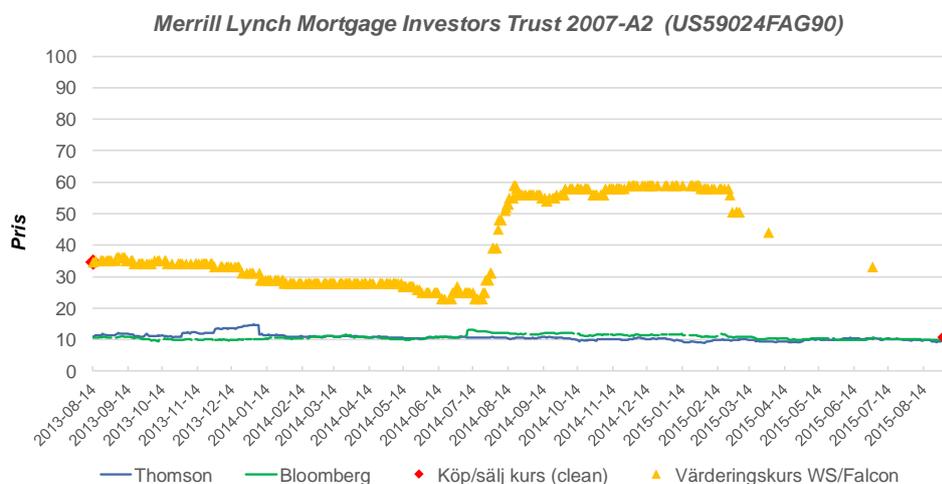

WASSUM

Priset för instrumentet vid köptillfället uppgick till 35 USD. Thomsons värdering av instrumentet vid samma tidpunkt var 10,9 UDS (ASK 11,1 USD). Bloombergs värdering var 10,5 USD (ASK 11,0 USD). Fondens köpkurs är därmed högre än både de externa datakällornas värderingar av instrumentet. Under juli/augusti 2014 justeras fondens värdering av priset upp till ca 60 USD. Vid försäljningstillfället har priset gått ner till 10,75 USD. Försäljningspriset är i nivå med Thomson (9,5 USD) och Bloomberg (10,0 USD).

Bloombergs värdering vid köptillfället baseras på data från indirekta observationer varav 56% är observationer från transaktioner för andra liknande instrument och 44% är indikativa observationer. Vid försäljningstillfället baseras värderingen på data från indirekta observationer varav 5% är observationer från transaktioner för andra liknande instrument och 95% är indikativa observationer

6 Slutsatser

Wassum har undersökt vilken vinst/förlust som uppstått vid handeln med 8 st MBS:er där köpen påbörjades under år 2013. Vidare har även prissättningen som fonden har köpt/sålt instrumenten för samt vad fonden under innehavsperioden har värderat instrumentet för jämförts med de värderingar som finns i externa datakällor.

- Samtliga instrument har vid investeringstillfället haft den lägsta kreditkvaliteten (rating). Noterade marknadspriser saknas och likviditeten bedöms som relativt låg.
- Köpen av instrumenten har medfört stora förluster. Samtliga instrument har medfört en förlust. Totalt sett uppgår detta till ca -30,5 MUSD. Vi kan inte se, från fondens transaktionshistorik eller data från externa datakällor, att det har varit några större återbetalningar eller andra intäkter från dessa instrument som skulle kunna kompensera eller förklara den stora nedgången.
- Köppriset som fonden har betalat har varit betydligt högre än försäljningspriset. Fondens värdering av instrumentet har i flera fall succesivt justerats ner dagarna innan försäljningen, i vissa fall strax innan årsskiftet 2013/2014. I ett fall har priset justerats upp under en period för att sedan succesivt reduceras tillbaka under köppriset.
- Köppriset som fonden betalat har i samtliga fall varit betydligt högre än den värdering som de externa datakällorna har använt.
- Försäljningspriset är i flera fall mer i linje med värderingen som de externa datakällorna har. I ett par fall har den varit mellan de två olika datakällorna. I vissa fall finns det även en differenser mellan värderingen mellan de externa datakällorna.
- Vi har inte gjort någon individuell värdering av instrumenten eller bedömning om den underliggande kreditkvaliteten har förändrats i instrumenten som skulle kunna föranleda en påverkan på prissättningen.

Contents

Fup bilaga 15 B

BVAL for U.S. Non-Agency residential mortgage-backed securities

Bloomberg's BVAL Evaluated Pricing Service provides transparent and highly defensible prices for fixed income securities across the liquidity spectrum. The key to BVAL's methodology is its real-time access to market observations from a wealth of contributed sources. This accumulated mass of market data is the main driver of an innovative and quantitative approach that first corroborates market levels on actively traded bonds and then derives a comparable relative value price for those securities that are less liquid.

This methodology aligns with Bloomberg's trusted capabilities as the financial industry's leading analytics platform and source of fixed income information. In addition to sophisticated algorithms that generate evaluated prices, the BVAL methodology assigns a BVAL Score based on the amount and consistency of market data used in our models.

This overview details BVAL's pricing methodology for U.S. Non-Agency residential mortgage securities (Non-Agency RMBS) including both Legacy RMBS and RMBS 2.0.

BVAL at-a-glance

The BVAL function, available on the Bloomberg Terminal®, enables clients to view BVAL Evaluated Prices, the BVAL Score, related metrics and useful information available to Bloomberg Data License clients via data feeds. Throughout the BVAL function, you can examine how BVAL pricing methodologies are applied and the depth of data supporting the algorithms. A breakdown of the portion of the price which is derived from direct observations and observed comparables relative value model, is provided as well as whether those inputs are indicative or executable. These transparency fields are available for clients to use in creating leveling rules to meet IFRS 13 and ASC 820 accounting standards disclosure requirements. The interface provides a level of transparency unavailable anywhere else. This visibility greatly assists our clients in making highly informed fixed income valuation decisions.

BVAL for U.S. Non-Agency residential mortgage-backed securities

Legacy Non-Agency RMBS methodology

BVAL's unique pricing transparency starts on the Bloomberg Terminal. Figure 1 shows BVAL's Evaluated Pricing screen, which summarizes all of the information used in the pricing methodology of a unique U.S. Non-Agency RMBS (the "Target RMBS"). Simply load a Target RMBS and type BVAL <GO>.

The Final BVAL Price is derived using a multi-step approach based on a combined sequence of proprietary Bloomberg credit models and pricing algorithms:

- **Step 1 – Generating cash flows**

  BVAL leverages the Bloomberg Transition Model (BTM) for generating cash-flows. BTM is a simulated loan-level transition model and takes each loan state into account along with: origination and dynamic loan-level attributes, macroeconomic variables, ZIP code-level Home Price Appreciation (HPA) and other variables to determine the probability of transitioning from one state to another. The BTM model tracks a loan's status throughout its entire life, capturing both borrower and servicer behavior.

- **Step 2 – Security mapping**

  BVAL separates Non-Agency RMBSs by collateral type: Prime, BVAL EVALUATED PRICING SCREEN – BVAL <GO> Subprime, Alt-A and Pay Option Arm (POA) in order to properly distinguish collateral quality, credit enhancement and probability of default characteristics.

- **Step 3 – Observed Comparables model**

  BVAL uses validated market observations (trades, executable levels and indicative quotes) to feed its proprietary Non-Agency RMBS relative value model to price a Target RMBS. While direct market observations are used when available, given the relative illiquidity in the Non-Agency RMBS asset class, indirect market observations from comparable Non-Agency RMBSs are also used, on a normalized basis, to determine a Base Loss-Adjusted Yield (Base LAY or I-Yield).
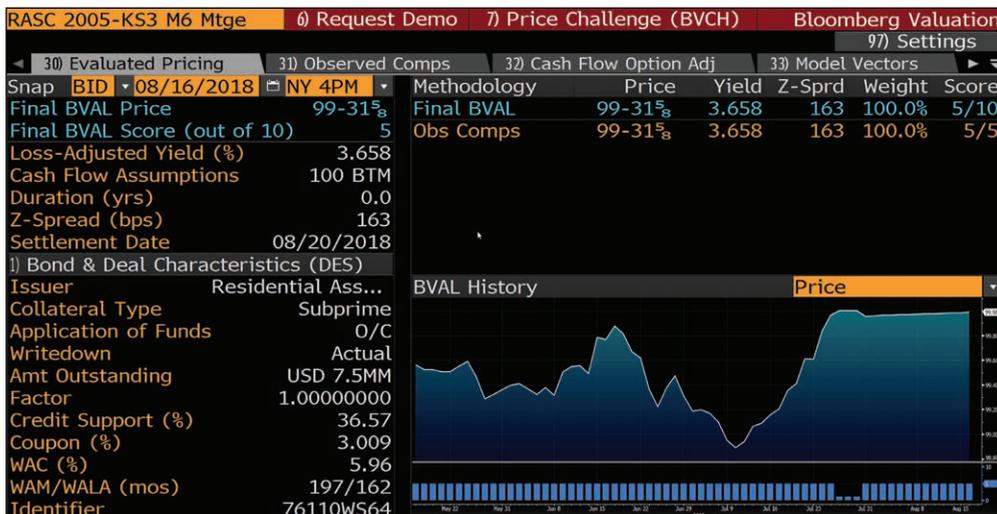

Figure 1 – BVAL Evaluated Pricing screen BVAL <GO>

Step 1 Generating cash flows	Step 2 Security mapping	Step 3 Relative value pricing
• Apply proprietary loan-level credit model • Macroeconomic inputs for housing, unemployment and interest rates	• Identify collateral and structural characteristics • Understand bond's behavior under various scenarios	**Comparables approach** • Access market data • Identify market-observed comparable bonds to calculate appropriate Loss-Adjusted Yield

766

Fup bilaga 15 B

BVAL for U.S. Non-Agency residential mortgage-backed securities

---

Step 1
Generating cash flows – Bloomberg transition model

BVAL leverages the Bloomberg Transition Model (BTM), a simulated loan level transition model that takes each loan's status into account along with loan level origination and performance attributes, macroeconomic variables, ZIP code level home price appreciation (HPA) etc., to determine the probability of transitioning from one state to another. BTM is a highly flexible model designed to project loan level mortgage performance using simulation based transition rates. The projections include 4 classic vectors: Voluntary Pre-payment Rate (VPR), Collateral Default Rate (CDR), 60+ Delinquency (60+ D) and Severity (SEV). The transition probabilities were fitted based on property data, loan characteristics, historical performance and economic data (e.g., mortgage rates, Metropolitan Statistical Area (MSA) level unemployment, ZIP code-level HPA (where available)):

BTM inputs

Four sets of variables are used to calculate transition probabilities: Loan Characteristics, Loan Status, Economic Environment and Other Variables. Loan Characteristics include Loan Size and FICO score. Loan Status Variables include Previous Delinquency, Current LTV and Months in Present Status. Economic Environment Variables include year-over-year HPA and Seasonality. Other variables include presence of Judicial States and Servicer.

BTM simulation

A key feature of the simulation model is its ability to derive a loan's status/state (such as Current (CUR), 30 Days Delinquent (D30), Prepay etc.) using full payment status history. This feature sets the simulation based transition rate model apart from traditional transition rate models. For a loan in a given month, the model estimates the probabilities of transitioning from the present state to all permissible states. In these estimations, the loan's past payment history is taken into account through a number of past performance variables. Once the transition rates are estimated, a simulation with these rates as input parameters is conducted in order to determine the next month's state. This process is repeated until the loan is projected to be in a prepayment state, liquidation state, or scheduled for payoff state (other terminal states are not considered) and thus is one sample path for this loan. If the loan is projected to be liquidated, loss severity is then estimated by using the loss severity model. For each loan, multiple paths need to be simulated. Loan level projection vectors are obtained by the average of the paths.

Fup bilaga 15 B

BVAL for U.S. Non-Agency residential mortgage-backed securities

---

Severity model

A separate sub-model predicts severity. Once a loan is projected to be liquidated, losses can come from two major sources. Each is modeled separately. The first source of losses is the interest and principal payments advanced by the servicer to the trustee while the loan was in delinquency. Interest and principal payment advancing is derived as a function of the number of months a loan was delinquent and includes the specific servicer advancing rate. The simulation framework ultimately enables an accurate estimation of the number of delinquent months prior to liquidation, giving a corresponding estimate of these losses. The second source of losses is home price depreciation and liquidation costs. Lastly, loss mitigation due to mortgage insurance (MI) is also considered. Specifically, the loss mitigation model takes into account the stated MI coverage rate and the MI purchase type (by borrower or lender) among other factors.

Step 2
Security mapping

Non-Agency RMBSs are classified by collateral type: Prime, Subprime, Alt-A and POA. There is also a separate pricing surface for Re-Real Estate Mortage Conduit (Re-REMIC) securities.

BVAL constructs a pricing surface for each Non-Agency RMBS collateral type using market observations from each sub-asset class based on duration, default breakeven and leverage to losses, as defined below:

Duration
Modified duration generated by the BTM.

Default breakeven
The point at which a senior or subordinated tranche incurs a 1% principal loss in the BTM.

Leverage to losses
The maximum dollar amount of loss that can be incurred after scheduled amortization and prepayments.

A Loss-Adjusted Yield (LAY) is then determined for each sub-peer group based on the above criteria.

768

Fup bilaga 15 B

BVAL for U.S. Non-Agency residential mortgage-backed securities

---

Step 3
U.S. Non-Agency RMBS Observed Comparables model

BVAL uses validated market observations to feed its proprietary, relative value Non-Agency RMBS observed comparables model to price a Target RMBS. While direct market observations are used when available, indirect market observations from comparable Non-Agency RMBSs are also used, on a normalized basis, to determine a Base LAY. BVAL also performs scenario analysis to determine a Cash Flow Optionality Adjustment to ultimately derive a Final BVAL Price. Further details include:

Market observations

Contributed market observations are appropriately weighted based on strength of observation type (trade, cover, two-sided market, bid only, offer only), age and lot size.

Comparable base yield

In addition to direct market observations, if available, BVAL uses market observations from like securities with characteristics similar to the Target RMBS, such as collateral, credit quality and cash flows, to price the Target RMBS.

Cash flow optionality adjustment

Given that comparable bonds are first normalized to determine a Base LAY, BVAL subsequently readjusts the Base LAY to factor in specific Target RMBS characteristics, namely cash flow optionality value. To determine the value of this very important structural factor, each Target RMBS is run through 25 scenarios with shifts to the base BTM vectors. The scenarios are weighted as a function of expected defaults and peer correlation. The difference between the Weighted Average Bid Price across scenarios and the Base Vector Assumption (VPR/CDR/SEV/Delinquency equal to 1.00) is BVAL's Cash Flow Optionality Adjustment.

Litigation settlement value

In cases where a certain Non-Agency RMBS deal is positively impacted by future mortgage litigation settlement proceeds, BVAL estimates the timing and amount of this recovery value and factors the respective portion into the Target RMBS's Final BVAL Price.

U.S. Non-Agency RMBS screens

Figure 3 shows the BVAL Evaluated Pricing screen, which summarizes the information used to price a Target RMBS. Key highlights include Final BVAL Price, the Final BVAL Score (out of 10 — discussed in further detail below), the Loss-Adjusted Yield and Cash Flow Assumptions used in the BTM. The bottom left quadrant displays a summary of a Target RMBS's collateral details. The lower right quadrant graphs the historical Target RMBS's Final BVAL Price and Yield over a three-month period and corresponding BVAL Score. For further details, click on the tabs at the top of the BVAL screen.

Figure 3 – BVAL Non-Agency RMBS Evaluated Pricing screen BVAL <GO>

Prime RMBS 2.0 & Manufactured Housing (MH) methodology

Figure 8 shows BVAL's Evaluated Pricing screen for an Prime RMBS 2.0 security. Key highlights include the Final BVAL Price, Final BVAL Score (out of 10 — discussed in further detail below), Loss-Adjusted Yield, spread-to-swaps (N-Spread) or pay-down to to-be-announced (TBA) and WAL. The lower-left quadrant details a Target Prime RMBS 2.0 security's unique characteristics. The lower-right quadrant graphs the historical Final BVAL Price and Yield over a three-month period and corresponding BVAL Score.

The Final BVAL Price for an Prime RMBS 2.0 or Manufactured Housing security is derived using a multistep approach based on a combined sequence of pricing algorithms:

- **Step 1 – Direct Observations**

   uses Bloomberg's proprietary screening algorithm to analyze market data received from BVAL's pricing contributors.

- **Step 2 – Observed Comparables**

   uses Bloomberg's proprietary relative value model to price bonds with limited or no direct market observations. A Target Prime RMBS 2.0 tranche is priced relative to comparable observable securities. The BVAL Prime RMBS 2.0 methodology cohorts securities based on the collateral and structure of each tranche. For Pass-Throughs and Senior Front Cash-Flows off fixed-rate collateral, BVAL adheres to the pay-down to Agency TBA convention whereas for adjustable-rate mortgage (ARM) collateral these tranches are priced using a spread-to-swaps (N-Spread).

   Within fixed-rate collateral, the Pass-Through tranches are further refined by coupon and weighted average loan age (WALA) and Senior Front Cash-Flow tranches are refined by coupon, weighted average life (WAL) and principal window. Both Pass-Throughs and Senior Front Cash-Flow tranches off ARM collateral are priced using N-Spread refining the cohort by coupon, weighted average life (WAL) and principal window.
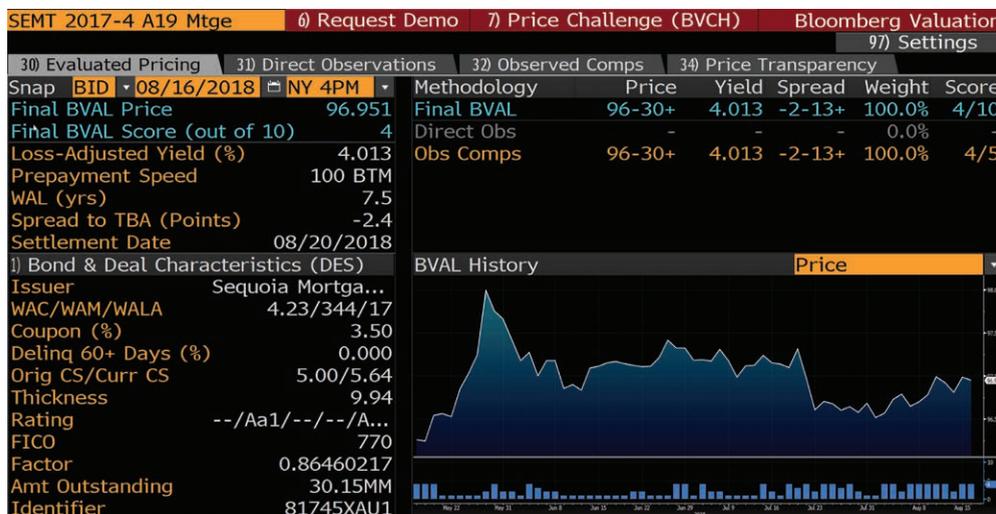

Figure 8 – BVAL Prime Jumbo RMBS 2.0 Evaluated Pricing screen BVAL <GO>

BVAL for U.S. Non-Agency residential mortgage-backed securities

For Intermediate, Last Cash-Flow and Subordinate bonds off both fixed-rate and ARM collateral BVAL prices these securities using N-Spread. Intermediate and Last Cash-Flow tranches are further refined by coupon, WAL and principal window while subordinate tranches are further refined using credit enhancement, duration and leverage.

For Manufactured Housing bonds comparable securities are determined based on the credit support and duration of the security. All Manufactured Housing bonds are priced on a yield basis.

For Prime RMBS 2.0, Regardless of what cohorting is used, for a given tranche the Bloomberg Super-Prime BTM model is primarily used to generate cash-flows. The Super-Prime BTM model is specifically calibrated for the superior underwriting standards of this collateral taking cues from the historical performance of Jumbo Agency MBS. Figure 9 displays the market data used in deriving the pay-down or N-Spread for a Target RMBS 2.0 security in addition to bond-specific adjustments.

For Manufactured Housing bonds deal specific credit and prepayment assumptions are used based on the performance of the deal.

- **Step 3 – Final BVAL Price**

  To corroborate the results of each algorithm, market data are run through both steps. The Final BVAL Price is derived by appropriately weighting and aggregating the Direct Observations and Observed Comparables models based on their respective strength to derive a final pay-down or N-Spread. In this way, BVAL produces a high-quality price on every RMBS 2.0 and Manufactured Housing security, regardless of the quantity of market data available.

Figure 9 – BVAL RMBS 2.0 Observed Comparables screen BVAL <GO>

BVAL for U.S. Non-Agency residential mortgage-backed securities

BVAL Score

The BVAL Score is a proprietary and innovative metric designed to gauge the level of market data used in constructing the Final BVAL Price. The BVAL Score measures the amount and consistency of the market data used in each step of the BVAL Evaluated Pricing Methodology. For Non-Agency RMBSs, a BVAL Score is calculated for the Final BVAL Price and Observed Comparables model, measured on a scale of 1 (the lowest) to 10 (the highest). Given that the BVAL Score measures the amount and consistency of direct market observations and the large majority of Non-Agency RMBSs are priced using observed comparables, the Final BVAL Score is capped at 5 when indirect observations on comparable bonds are used to derive the Final BVAL Price.

Price transparency screen

The BVAL function, available on the Bloomberg Terminal®, enables clients to view BVAL Evaluated Prices, the BVAL Score, related metrics and useful information available to Bloomberg Data License clients via data feeds. Throughout the BVAL function, you can examine how BVAL pricing methodologies are applied and the depth of data supporting the algorithms. A breakdown of the portion of the price which is derived from direct observations and observed comparables relative value model, is provided as well as whether those inputs are indicative or executable. These transparency fields are available for clients to use in creating leveling rules to meet IFRS 13 and ASC 820 accounting standards disclosure requirements. The interface provides a level of transparency unavailable anywhere else. This visibility greatly assists our clients in making highly informed fixed income valuation decisions.

Summary

The Final BVAL Price is a product of Bloomberg's proprietary quantitative approaches and methodologies. The algorithms used, along with Bloomberg's wealth of information, analytics and transparency, are all key features that set BVAL apart from its competitors. Distinct from a single-technique approach, BVAL is able to corroborate its pricing by employing multiple methodologies to produce separate prices for a Target Bond based on the amount of quality market data used in each step. These prices are ultimately combined to derive a Final BVAL Price.

The BVAL Score, which measures the amount and consistency of market observations used in the BVAL algorithms, is a valuable and unique concept created specifically by Bloomberg's evaluated pricing service. The transparency available on the Bloomberg Terminal® via BVAL <GO>, the ability to integrate Bloomberg's Enterprise feed into our clients' infrastructure via Data License and the access to a global team of evaluators in New York, London and Asia with significant capital markets experience are second to none. Quality pricing, broad-based asset-class coverage, timely distribution and full transparency establish BVAL as the highest standard in the evaluated pricing industry.

THOMSON REUTERS PRICING SERVICE

TRANSPARENT. INDEPENDENT. ACCURATE.

Pricing information you can count on.

Thomson Reuters Pricing Service (TRPS) is an independent, global evaluated pricing source covering over 2.5 million fixed income securities, derivatives and bank loans. Coverage spans all major financial markets and prices are available at multiple times daily. TRPS evaluations, which provide detailed transparency and market insight, are designed to support Asset Managers, Custodian Banks, Mutual Funds, Investment Banks, Accounting Firms, and Financial Research Providers.

EXTENSIVE GLOBAL COVERAGE

- TRPS provides evaluated pricing for all asset classes across all global markets

ASSET CLASS COVERAGE

- Global Government and Corporate bonds including Sovereign debt, investment grade and high yield bonds, convertible securities and money market instruments
- US Municipal bonds
- Mortgage backed securities including fixed and floating rate instruments
- Structured Finance instruments including asset backed securities (ABS), collateralized mortgage obligations (CMO), residential mortgage backed securities (RMBS), commercial mortgage backed securities (CMBS), collateralized loan obligations (CLO) and collateralized debt obligations (CDO)
- Interest rate, Credit, Commodity and Equity derivatives and Structured Notes
- Bank Loans

FULL SCALE PRICING SERVICE

- Comprehensive Terms and Conditions support our evaluations every day
- Market color is actively monitored throughout the day and applied as appropriate to our evaluations
- Strict validation processes are in place to monitor tolerance breaks, unchanged prices, broker quote consistency and data integrity
- In-house and external pricing models are rigorously tested to handle large volumes and volatile market conditions
- Up-to-date market standards and procedures, coupled with our SSAE 16 certifications

LEADING EVALUATORS

With over one hundred evaluators across the world, Thomson Reuters brings clients global coverage with local knowledge. Our professional and experienced evaluators apply consistent and transparent pricing methodologies, incorporating observable market data and standard market convention practices.

DELIVERY

- Evaluations are available throughout the day – Intra Day and at standard market snapshot times
- Extraction flexibility is available through Thomson Reuters DataScope Select and Thomson Reuters DataScope Onsite

TRANSPARENCY

- Transparency is offered for all evaluations and includes price recipes, corresponding market color and other relevant data. Commentary is available for issues that break tolerance thresholds
- Direct access to an evaluator for price challenges is always available and allows clients to access additional color, clarification and validation. All challenges are addressed prior to the next day's pricing cycle

THOMSON REUTERS PRICING SERVICE

EXTENSIVE GLOBAL CONTENT FOR ALL MAJOR ASSET CLASSES

ASSET CLASS	COVERAGE	METHODOLOGY
Global: Asia-Pacific, EMEA, Americas		
Investment Grade All	Australasian, EMEA and American markets	Evaluated on nominal spread, discount margin or OAS basis depending on how the market trades a security or sector
High Yield	Major issues priced. Other Markets covered on customer request	Individually evaluated, mostly on a price basis using the lead underwriter as primary source of information
Emerging markets	Benchmark issues priced. Others priced on customer request	Evaluated on spread or price basis
Money markets	T-Bills, Commercial Paper, CDs	Evaluated on spread or discount rate basis
Syndicated Loans	Syndicated bank loans	LSTA pricing methodology – average of bids and offers from the broker/dealer community
Derivatives	CDS (Credit Default Swaps), IRS (Interest Rate Swaps), TRS (Total Return Swaps), OTC Equity options and warrants, Bond Futures, Currency options, Swaps, Forwards, Caps and Floors, Swaptions, Structured products, Equity Derivatives	Extensive library of analytics and market data
Asset Backed Securities, Commercial MBS	ABS, RMBS, CMBS	Individually evaluated using historical and projected prepayment speeds and loss scenarios. Methodologies implemented using spreads obtained from market participants, trade prices and dealer quotes
Convertible Bonds	Convertible Bonds and Convertible Preferred Stocks	Thomson Reuters internal convertible pricing model uses dealer quotes and a delta model incorporating a real time equity feed
Collateralized Debt Obligation	ABS, CRE and TruPS	Fair market value approach using cash flows that incorporate market observed prepayment speeds and loss rates and yields observed from trades prices and dealer quotes
Collateralized Loan Obligation	Covering both broadly syndicated and middle market structures, across the entire capital structure	Fair market value approach using cash flows that incorporate market observed prepayment speeds and loss rates and yields observed from trades prices and dealer quotes
Americas		
Treasuries	Bills, Notes, Bonds, STRIPS	Thomson Reuters receives daily valuations on bills, notes, bonds and STRIPS from multiple contributors
Agencies	Discount Notes, Bonds, Medium Term Notes	Agencies individually evaluated on an OAS basis or nominal spread for non-callable issues
Fixed-Rate Mortgage Pools	GNMA, FNMA, FHLMC: TBA, Fixed Rate, Balloon and Graduated Payment	All seasoned pools are priced off MBS TBA prices. TBA prices are obtained from market makers and live trading systems. Seasoned quotes are obtained from dealer community and trade prices
Adjustable-Rate Mortgage Pools	GNMA, FNMA, FHLMC: COFI, CMT, LIBOR, MTA	Individually evaluated on an BEEM (Bond Equivalent Effective Margin) basis
Hybrid – Adjustable Rate Mortgage Pools	GNMA, FNMA, FHLMC: 3-1, 5-1,7-1, 10-1	Priced by Z spread to balloon date
Agency CMO	GNMA, FNMA, FHLMC: Fixed Rate, IO/PO (Interest Only/Principal Only) Simple and Complex Floaters and Inverse Floaters	Individually evaluated using OAS and nominal spread. OAS valuations use the Andrew Davidson prepayment model and Thomson Reuters OAS calculator. Cashflows are calculated internally
Non Agency RMBS, Commercial MBS	Multiple Issuers: Prime, Alt A, Subprime; CMBS	Individually evaluated using historical and projected prepayment speeds and loss scenarios. Methodologies implemented using spreads obtained from market participants, trade prices and dealer quotes
Consumer ABS	Auto and Boat loans, Credit Card, Recreational Vehicle loans	Individually evaluated on a nominal spread basis. Spreads obtained from trade prices and dealer quotes
Municipals	All municipal investment grade and high yield debt, including general obligation, revenue and assessment bonds, distressed and defaulted debt, taxable municipals, and short term markets	All investment grade as well as certain non-rated categories are priced with a credit curve driven attribute model. High yield, distressed and defaulted debt are hand priced. In all cases sell side, buy side, underwriting and inter-dealer broker trading desks provide primary information and market color
Canadian Mortgage-Backed Securities	Price valuations and analytics for over 10,000 instruments including all fixed rate and floating prefixes	Fair market value approach using cash flows generated from historical prepayment speeds and loss rates and spreads observed from dealer quotes

MORE TRANSPARENT VALUATIONS.
MORE INFORMED DECISIONS.

Thomson Reuters Valuation Navigator makes pricing and reference data more transparent for valuation and risk processes across the entire enterprise.

• Automates daily pricing and valuation workflows
• Provides transparency into the evaluation price
• Offers data consolidation and data reformatting
• Integrates accurate, reliable market color

Our high-performance search technology and pre-built modules give middle- and back-office teams the ability to iterate and customize their analyses and workflows – in less time and with fewer errors.

THOMSON REUTERS™

784

Fup bilaga 15 B

THOMSON REUTERS VALUATION NAVIGATOR
TRANSPARENCY AND AUTOMATED WORKFLOWS FOR PRICING AND REFERENCE DATA

Guiding More Accurate Portfolio Valuations

Thomson Reuters Valuation Navigator makes market and position data more transparent for valuation and risk processes, reducing errors, and enhancing insight for the entire enterprise. Using high performance search technology and pre-built modules, middle- and back-office teams can rapidly iterate and customize their analyses and workflows.

Unlike traditional spreadsheet-based solutions which are time-consuming to set up and costly to manually maintain, Valuation Navigator allows for fast and easy search across large data sets. The solution automates manual data wrangling activities and provides rigorous version control for audit processes – leaving more time for analysis, insight, and risk mitigation.

KEY ADVANTAGES
- **Reference Data Agnostic:** There is no limit to the sources of data. Thomson Reuters data is pre-integrated – and other vendors and data feeds are available.
- **Rapid Time-to-Value:** Valuation Navigator comes with out-of-the-box modules and pre-integrated data feeds that accelerate implementation.
- **Unmatched Customization:** Firms can rapidly implement their specific workflows and processes in Valuation Navigator and be up and running in days.

ANALYZING COMPLEX AND SCATTERED MARKET DATA

Most financial institutions have access to market data that is adequate to support their operations, but many struggle with key objectives: transparency, accessibility, audit support, and workflow automation. Market and position data is often scattered across multiple databases, vendor feeds, and emails. Spreadsheets are traditionally utilized to manage integration and analysis processes, which are fragmented and unreliable.
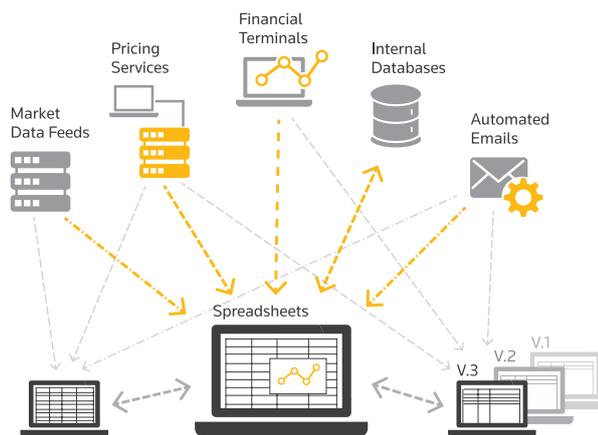

CONSOLIDATING PRICING AND REFERENCE DATA

Thomson Reuters Valuation Navigator collects scattered financial data into a single, searchable repository; supports a building-block approach to modeling; is extensible for complex workflows; and enables shared insight across your entire organization.

785

Fup bilaga 15 B

THOMSON REUTERS VALUATION NAVIGATOR
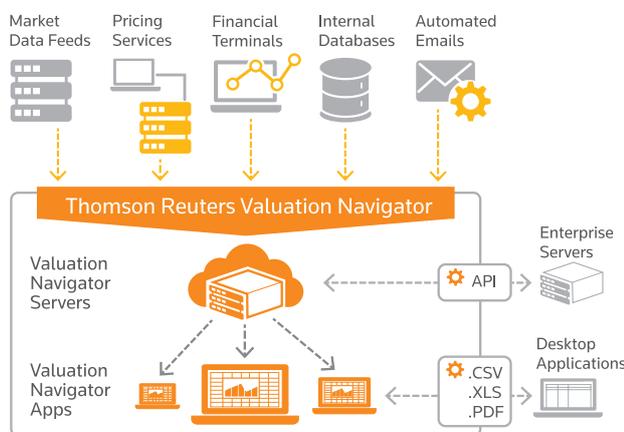

FUNCTIONALITY

Rapid Data Collection

Thomson Reuters Valuation Navigator enables back- and middle-office teams to easily import market and position data into one manageable solution. Data sources can include multiple databases, market feeds, emails, PDFs, and spreadsheets. Many common market data feeds are pre-integrated – accelerating time-to-value. The solution is a distributed repository, so you can bring together data from multiple sources – private as well as public – without disrupting your current feeds or processes.

Easy Search

Thomson Reuters Valuation Navigator provides easy and fast search across your entire reference data landscape – giving you views of your data that were previously impossible. Want to know everything there is to know about a certain CUSIP? The speed and breadth of the search capability allows for in- depth analyses and insights. And search results can support a variety of workflow requirements and provide inputs for numerous analytic modules.

Formal Modules

Robust and auditable modules can encapsulate detailed analytic workflows such as: NAV pricing and tolerance testing. By automating common manual processes, modules leave more time for analysts to review and mitigate outliers. Modules also include historic logging, so you always know how you got to the answer yesterday, last week, or last year.

Shared Insight

The insight produced can be quickly shared across the organization as either read-only or interactively, where participants can try different "what-if" scenarios – such as selecting from evaluated pricing, most recent trade price, or another type of price. Thomson Reuters Valuation Navigator is an end-to-end analytics solution – optimized for financial data workflows.

COMMON USE CASES

Automates Daily Pricing & Valuation Workflows

Current daily pricing processes are frequently driven by multiple spreadsheets and databases – which create unreliable and time-consuming workflows. Thomson Reuters Valuation Navigator streamlines these workflows with automated data collection and tolerance rule application. The solution provides summary views and detailed asset level drilldown, while capturing the end-to-end process for audit support. This gives your organization a comprehensive view of daily pricing and valuation processes to maximize what you can do with your reference data.

Provides Transparency into the Evaluated Price

What influences an evaluated price? Thomson Reuters Valuation Navigator offers wide access to your organization's reference data feeds giving you better insight into market observable inputs on evaluated prices. The solution's integrated rules enable rapid processing of market inputs to determine asset leveling and support regulatory capital requirement processes. Thomson Reuters Valuation Navigator can integrate with back-office accounting systems for purposes of financial statement disclosures and level reconciliations.

Offers Data Consolidation and Data Reformatting

Thomson Reuters Valuation Navigator enables you to quickly and easily reformat your vendor data feeds to match your internal system requirements. The solution aggregates and applies formatting rules to transform data from multiple feeds into one stream which is adjusted for holidays, regional market closings, and time of day pricing availability. With Thomson Reuters Valuation Navigator you can define your own hierarchy of price selections from a variety of data sources, transforming your organization's pricing and valuation insight.

SOLUTION COMPONENTS

NAME	DESCRIPTION
Application	Allows users to search multiple reference data sources – as well as to run analytic and workflow modules which use this data. The Client can connect to multiple Valuation Navigator Servers at the same time.
Server	Provides easy and fast search across your entire reference data landscape. Servers can be deployed on-site, hosted by Thomson Reuters or as a combination of hosted and on-site installed servers.

INTRADAY EVALUATED PRICING
CONTINUOUS UPDATES. INCREASED TRANSPARENCY

Assess the true value of your entire portfolio at any point in time

In today's market, regulators, investors, and auditors are demanding greater clarity behind the value of investment and trading portfolios. These requirements place a heightened importance on the ability to calculate net asset value (NAV) at any given time interval. Intraday evaluated pricing through Thomson Reuters Pricing Service (TRPS) enables these calculations by providing continuously updated evaluations during market hours.

INTRADAY EVALUATED PRICING

Intraday prices are calculated using TRPS recipe updates, real time bench mark curves and stringent quality checks.

TRPS offers intraday evaluated pricing on the following asset classes:

- Global Sovereign Debt
- Global Investment Grade Corporate Bonds
- Global High Yield Corporate Bonds
- Global Money Market Securities

PRICE RECIPES FROM TRPS

TRPS evaluators, a team of over 150 global fixed-income specialists, update credit spreads and bond prices throughout the day. Spreads are obtained from trade prices, dealer quotes, and the primary market.

REAL-TIME BENCHMARK UPDATES

Benchmark curves are available on the Thomson Reuters real-time data network. These curves are updated throughout the day from contributing market makers and brokers. Many bond pricing recipes are linked to a benchmark curve that is associated with the bond's market and asset class.

Intraday prices are benchmark-adjusted throughout the day, incorporating a yield derived from the latest TRPS price recipe and appropriate benchmark point which "ticks" continuously 24/5 around the globe.

INTRADAY QUALITY CONTROL CHECKS

TRPS evaluators perform the following quality checks throughout the day to ensure pricing accuracy:

- **Yield Curve Analysis:** Yield curve quality checks are performed by two teams – the Fixed Income Content Team and TRPS. The Fixed Income Content Team monitors all real-time benchmark curves for consistency and accuracy and proactively contacts contributing dealers when curve points appear erroneous. TRPS evaluators monitor yield curves at periodic benchmark snap times (e.g., 12:00 / 14:00 / 16:00 / 18:00 UK time and 14:00 / 15:00 / 16:00 NY time).

- **Intraday Price Movement Check:** Tolerance checks are performed every two hours beginning at 10:00 Tokyo time and finishing at 18:00 New York time.

DATASCOPE SELECT FILE DELIVERY

Intraday evaluated pricing is available through TRPS, within DataScope Select (DSS). Customers have the ability to customize extraction times to meet their requirements by using the real-time reporting template. Intraday prices are available within seconds of the scheduled extraction time.

ABOUT THOMSON REUTERS PRICING SERVICE

Thomson Reuters Pricing Service (TRPS) is a global solution that covers over 2.5 million fixed income securities, derivatives and loans, priced daily. Prices are delivered throughout the day or at market closing times around the world depending on the asset class, with supporting commentary to provide insight on the day's events.

Fup bilaga 15 B

THOMSON REUTERS PRICING SERVICE

COLLATERALIZED DEBT OBLIGATIONS

A comprehensive solution to help you manage risk and make informed decisions on your CDO investments.

The Thomson Reuters Pricing Service (TRPS) gives you direct access to independent evaluations of Collateral Debt Obligations (CDOs). Our platform allows for direct access to mark-to-market scenarios on all underlying structured products. Furthermore, TRPS's RMBS, CMBS, and ABS Desks allow evaluators to readily access end of day pricing on all underlying securities to determine tranche Net Asset Value (NAV). Providing you with an impartial basis for risk management and any other decisions involving your CDO, Thomson Reuters brings to bear a wide range of data, tools, and strategic partnerships unique to the marketplace.

THROUGH PROCESS ENSURE ACCURATE END OF DAY PRICES

Each CDO is individually priced by incorporating the following information, techniques, and resources:

- Independent evaluations based on a granular, asset-level analysis of the CDO
- End of day prices on all three major CDO types – ABS, CRE and TruPS
- Analysis and insights of our expert evaluators, all of whom perform structural analysis, and who leverage relationships with key market participants
- The Moody's CDONet Analytics library, which provides deal waterfalls and asset-level performance data
- Risk mitigation integrated into your strategy – we automate the process to address reporting and fund board requirements

MITIGATE RISK WITH VALUATIONS YOU CAN TRUST

- We employ rigorous quality control checks multiple times a day to ensure pricing accuracy
- All securities are reviewed daily for price based tolerance, recipe changes and price changes above a certain level or beyond a certain period of time
- Nothing is missed – Alerts are generated for data that is missing and/or not received in a timely manner, and data specialists immediately research any data-related issues that highlights that there is an automated system

REUTERS/Lucas Jackson

EXPERTISE AND DATA QUALITY

The combination of our expert evaluators, quality of data, and powerful analytics – gives you unique insights. This, combined with rigorous processes, ensures you have the confidence you need in the quality and independence of the end-of-day prices you receive.

WHY THOMSON REUTERS?

Reliable and consistent – In the current volatile market, our evaluated prices offer proven reliability and consistency. Independent – We are a completely independent third party pricing provider with no conflicts of interest since we do not originate, issue, trade, buy, sell or position these instruments. Expert team – Our evaluated pricing service is delivered by a team of more than 100 experts located around the globe, who are in constant contact with market participants.

THOMSON REUTERS PRICING SERVICE COLLATERALIZED DEBT OBLIGATIONS

GLOBAL COVERAGE FROM THOMSON REUTERS PRICING SERVICE

ASSET CLASS	COVERAGE	METHODOLOGY
Global: Asia-Pacific, EMEA, Americas		
Investment Grade All	Australasian, EMEA and American markets	Evaluated on nominal spread, discount margin or OAS basis depending on how the market trades a security or sector
High Yield	Major issues priced. Other Markets covered on customer request	Individually evaluated, mostly on a price basis using the lead underwriter as primary source of information
Emerging markets	Benchmark issues priced. Others priced on customer request	Evaluated on spread or price basis
Money markets	T-Bills, Commercial Paper, CDs	Evaluated on spread or discount rate basis
Syndicated Loans	Syndicated bank loans	LSTA pricing methodology – average of bids and offers from the broker/dealer community
Derivatives	CDS (Credit Default Swaps), IRS (Interest Rate Swaps), TRS (Total Return Swaps), OTC Equity options and warrants, Bond Futures, Currency options, Swaps, Forwards, Caps and Floors, Swaptions, Structured products, Equity Derivatives	Extensive library of analytics and market data
Asset Backed Securities, Commercial MBS	ABS, RMBS, CMBS	Individually evaluated using historical and projected prepayment speeds and loss scenarios. Methodologies implemented using spreads obtained from market participants, trade prices and dealer quotes
Convertible Bonds	Convertible Bonds and Convertible Preferred Stocks	Thomson Reuters internal convertible pricing model uses dealer quotes and a delta model incorporating a real time equity feed
Collateralized Debt Obligation	ABS, CRE and TruPS	Fair market value approach using cash flows that incorporate market observed prepayment speeds and loss rates and yields observed from trades prices and dealer quotes
Collateralized Loan Obligation	Covering both broadly syndicated and middle market structures, across the entire capital structure	Fair market value approach using cash flows that incorporate market observed prepayment speeds and loss rates and yields observed from trades prices and dealer quotes
Americas		
Treasuries	Bills, Notes, Bonds, STRIPS	Thomson Reuters receives daily valuations on bills, notes, bonds and STRIPS from multiple contributors
Agencies	Discount Notes, Bonds, Medium Term Notes	Agencies individually evaluated on an OAS basis or nominal spread for non-callable issues
Fixed-Rate Mortgage Pools	GNMA, FNMA, FHLMC: TBA, Fixed Rate, Balloon and Graduated Payment	All seasoned pools are priced off MBS TBA prices. TBA prices are obtained from market makers and live trading systems. Seasoned quotes are obtained from dealer community and trade prices
Adjustable-Rate Mortgage Pools	GNMA, FNMA, FHLMC: COFI, CMT, LIBOR, MTA	Individually evaluated on an BEEM (Bond Equivalent Effective Margin) basis
Hybrid – Adjustable Rate Mortgage Pools	GNMA, FNMA, FHLMC: 3-1, 5-1,7-1, 10-1	Priced by Z spread to balloon date
Agency CMO	GNMA, FNMA, FHLMC: Fixed Rate, IO/PO (Interest Only/Principal Only) Simple and Complex Floaters and Inverse Floaters	Individually evaluated using OAS and nominal spread. OAS valuations use the Andrew Davidson prepayment model and Thomson Reuters OAS calculator. Cashflows are calculated internally
Non Agency RMBS, Commercial MBS	Multiple Issuers: Prime, Alt A, Subprime; CMBS	Individually evaluated using historical and projected prepayment speeds and loss scenarios. Methodologies implemented using spreads obtained from market participants, trade prices and dealer quotes
Consumer ABS	Auto and Boat loans, Credit Card, Recreational Vehicle loans	Individually evaluated on a nominal spread basis. Spreads obtained from trade prices and dealer quotes
Municipals	All municipal investment grade and high yield debt, including general obligation, revenue and assessment bonds, distressed and defaulted debt, taxable municipals, and short term markets	All investment grade as well as certain non-rated categories are priced with a credit curve driven attribute model. High yield, distressed and defaulted debt are hand priced. In all cases sell side, buy side, underwriting and inter-dealer broker trading desks provide primary information and market color
Canadian Mortgage-Backed Securities	Price valuations and analytics for over 10,000 instruments including all fixed rate and floating prefixes	Fair market value approach using cash flows generated from historical prepayment speeds and loss rates and spreads observed from dealer quotes

Clients globally subscribe to our Thomson Reuters LPC Pricing Service on the liquid secondary loan tranches along with terms and conditions for more than 273,463 facilities.

DATA DELIVERED THE WAY YOU WANT IT

Thomson Reuters DataScope Select

Thomson Reuters DataScope Select is the strategic data delivery platform for non-streaming cross-asset content globally, which can be deployed almost instantaneously. The platform can be integrated by financial firms through three interfaces including browser based, FTP and REST or SOAP API.

Thomson Reuters DataScope Onsite

A Thomson Reuters managed system is deployed to the customer site – this box and leased line setup is typically installed outside clients' internal firewalls (in a DMZ) and holds a Sybase Database, which is updated automatically from Thomson Reuters data. Clients have SQL access to the content in the DataScope Onsite Product.

Fup bilaga 15 B

COLLATERALIZED LOAN OBLIGATIONS

BETTER PRICING. GREATER ACCURACY.

Know the exact contents and true market value of your CLO holdings at any point in time.

The 2008 crisis brought volatility to many asset classes, including Collateralized Loan Obligations (CLOs). Today, having emerged from the crisis relatively well, the CLO market is flourishing again. However, to successfully navigate this market, you need to know the precise contents of your holdings, understand the value of the underlying assets, and accurately value their contents in real time.

THOMSON REUTERS: A SINGLE SOURCE THAT COMBINES POWERFUL, PROVEN CLO PRICING AND ANALYSIS SOLUTIONS

We offer comprehensive on-line CLO analysis, enabling users to view underlying assets of their CLOs, identify exposure to specific assets or issuers and compare market value coverage for CLO tranches, while our Evaluated Pricing Service provides a highly accurate, current and granular view of the value of your CLO assets. Using our proprietary methodology, Thomson Reuters pricing experts calculate an independent theoretical value of CLOs.

Together, our platform and our evaluated pricing help ensure your CLO portfolios are demonstrably healthy, accurately priced, and in full compliance with all governing regulations.

Fup bilaga 15 B

A deeper look at the CLO pricing solution from Thomson Reuters

CLO PRICING

The methodology that delivers accuracy

Our evaluated pricing service provides end of day prices on Global Cash Collateralized Loan Obligations (CLOs). These include both broadly syndicated and middle market CLOs across the whole capital structure (AAA-EQ). CLO prices are determined based upon cash flow models incorporating market observed prepayment speeds, loss rates, yields from secondary trades and dealer quotes.

We price each CLO security individually, incorporating the following information, techniques, and resources:

- Granular loan-level data
- Thorough structural analysis
- Library and cashflow engine
- Credit assumptions: Prepayment and default speeds/recoveries
- Pricing assumptions/discount margins
- Vigorous quality control checks by our team of evaluators
- Market news from Reuters editorial staff

CLO ANALYSIS

Visualize the overall health of your CLO portfolio and it's underlying assets

Our on-line CLO analysis platform (LPC Collateral) focuses on the loans that generate cash flow by mapping our loan pricing service to the loan 'asset pool' on a daily basis. This allows you to show the overall health of the portfolio that backs your assets. By monitoring individual asset prices, you can quickly identify "problem assets" at risk of default on the interest or the loan itself – either of which negatively affects the value of your CLO portfolio.

With our service you can:

- View the underlying assets of your CLO universe in a standardized format
- Sort and search CLO holdings data and identify exposure to specific assets or issuers
- Monitor CLO performance over time
- Chart trades against loan prices from the Thomson Reuters Pricing Service
- Run Market Value Analysis and NAV scenarios on CLO tranches, as well as highlight important portfolio breakdowns

---

WHY THOMSON REUTERS?

- **Global data coverage** – Thomson Reuters has extensive coverage of market data, evaluated and contributed pricing, corporate actions data, legal entity and compliance data, and other differentiated content.
- **Transparent and trusted provider:** We bring transparency for CLOs and their underlying assets, and have been a trusted provider of information to the syndicated loan community since 1985.
- **Managing Valuation Risk** – We have made major investments in bringing accurate, transparent pricing for hard to price fixed income securities and credit derivatives to clients. Our professional evaluated pricing service is delivered by a team of more than 100 experts around the globe, who are in constant contact with market participants.
- **Better data quality, integration and support** – We have decades of experience in integrating and distributing market data, ensuring data quality "out of the box."
- **24/7 Service** – Our global service centers can offer you support around the clock and our local account teams can respond quickly to your queries.

THOMSON REUTERS PRICING SERVICE

DERIVATIVES EVALUATION

REUTERS/Lucas Jackson

Transparent, independent and accurate evaluated pricing.

Thomson Reuters Pricing Service offers independent, accurate and timely pricing of derivatives. The service covers all derivative asset classes from plain vanilla to highly structured and exotic instruments. Thomson Reuters unique access to contributed, broker, and exchange data enables Thomson Reuters to provide the most accurate and up to date evaluations. Prices are delivered throughout the day or at market closing times around the world per client or regulatory requirements. The derivatives and structured notes evaluation service is available through Thomson Reuters DataScope Select.

FUNCTIONALITY & FEATURES

Complete Coverage

Thomson Reuters provides complete coverage on all plain vanilla instruments and exotic classes. Our vast market data including cash prices (real-time and historical), market rates, combined with comprehensive financial libraries give Thomson Reuters the ability to evaluate all derivative asset classes. Thomson Reuters covers swaps and options including interest rate, credit default, commodity and currency, as well as exotic instruments such as structured and credit linked notes.

Transparency you can count on

All pricing inputs such as interest rates, credit spreads, and volatilities are available as output fields within DataScope Select. Customers have access to the evaluation team and can speak directly with them regarding methodologies and individual evaluations. All price challenges and queries will be answered within 24 hours.

Easy to use

Instruments can be uploaded through the DataScope Select user interface, standard data templates, or through customized solutions. Customers can customize output files for specific data fields and formats. Thomson Reuters support staff can assist all the way through the pricing workflow.

Fast turnaround time

All plain vanilla instruments can be added to the client portfolio and priced on a same day basis. Complex and structured instruments can take up to an average of 24 hours.

In-house financial engineering group

Thomson Reuters Financial Engineers will model all complex transactions, map to appropriate market data, and test results.

Credit	Bond Total Return Swaps Loan Total Return Swaps Credit Linked Notes	Underlying cash prices obtained from Thomson Reuters Pricing service.
Currency	Swaps Baskets	Spot rates, forwards rates, and volatilities are obtained from contributing broker dealer network.
Equity	Total Return Swaps Barrier Options Asian Options Binary Options Equity Linked Notes	Spot and historical prices directly from exchanges. Implied volatilities from listed options across all tenors and strike prices.
Commodity	Total Return Swaps Commodity Linked Notes	Spot and historical prices directly from exchanges.

ADVANTAGES

Extensive global market data

The Thomson Reuters data network includes transmissions of all exchanges, contributed broker/dealer data, and actual live trading markets.

- Thomson Reuters swap rates are used globally and represent standard rates for market participants
- Thomson Reuters Dealing is the market leading, peer-to-peer trading application with a community of approximately 19,000 users in 120 countries. It is the largest, most established FX and money market community in the world
- Over 2,500 credit curves are obtained from the dealer community and are closely monitored by our fixed income evaluation team

Consistent, accurate evaluations

Thomson Reuters incorporates stringent quality control procedures to ensure accurate evaluations. Evaluators monitor market data feeds, test pricing models, and view all final prices prior to delivery.

Access to evaluation staff

Thomson Reuters experienced evaluation staff are available to answer all methodology and coverage questions. With staff in Tokyo, London, and New York, we are able to respond quickly to all queries and price challenges. Staff members are knowledgeable in all derivative asset classes and specific client deliveries.

THOMSON REUTERS PRICING SERVICE PLUS

STRUCTURED NOTES & OTC DERIVATIVES

A transparent and tailor-made valuation service for your structured notes and OTC derivatives.

Regulations such as Dodd-Frank and the European Market Infrastructure Regulation (EMIR) are devoting a great deal of attention to illiquid and complex instruments, with a particular focus on derivatives and structured products. Highly transparent valuations are required to meet these stringent requirements.

THOMSON REUTERS PRICING SERVICE PLUS

Thomson Reuters Pricing Service Plus (TRPS Plus) offers tailor-made and transparent valuations, along with risk calculations for structured notes and hard-to-value over-the-counter (OTC) derivatives. This award-winning service guarantees full access to the pricing process: cashflow descriptions, market data inputs, numerical methods and model assumptions to help you address your transparency and regulatory requirements. TRPS Plus covers over 650 structured notes and derivatives and is now available on DataScope Select. Combined with legacy Pricing Partners financial library, TRPS Plus effectively supports all standard or non-standard derivatives pricing without limit.

REUTERS/Arnd Wiegmann

KEY FEATURES

ON-DEMAND PRICE CHALLENGES

- Direct access to your portfolio valuation and associated dynamic pricing file (calculator excel sheet), allowing you to challenge the intermediary pricing step by step
- A team of experts are ready to assist and verify any price discrepancy between our valuation and issuer/vendor price

RISK CONTROL

Risk measures are available at trade level through direct access to the excel calculation files, allowing the ability to produce Credit Value Adjustment (CVA), Debt Value Adjustment (DVA), VaR, CVaR & Greeks.

MOST UP-TO-DATE MARKET DATA

All methodologies are supported with stringent quality control checks.

FLEXIBLE DELIVERY

Valuation reports are delivered by:

- Email
- Web services
- FTP
- DataScope Select
- Other platforms

BENEFITS

100% TRANSPARENT PRICING PROCESS

- Direct access to the entire pricing process and full breakdowns: review payoff description; audit market data used; analyze model assumptions; adjust calibration and numerical methods
- Direct access to dynamic excel calculation files: plug and play with various market data and models assumptions to measure and analyze the impacts on the price

TAILOR-MADE VALUATION SERVICES

- Option to include both evaluated price and risk indicators such as Greeks in valuation reports
- Valuation reports are produced according to your desired frequency (intraday, daily, weekly, bi-monthly, monthly, etc.) and output information (options, zero-coupon, fix leg, etc)

ABOUT THOMSON REUTERS PRICING SERVICE

Thomson Reuters Pricing Service (TRPS) is a global solution that covers over 2.5 million fixed income securities, derivatives and loans, priced daily. Prices are delivered throughout the day or at market closing times around the world depending on the asset class, with supporting commentary to provide insight on the day's events.

THOMSON REUTERS ENTITY RISK

THOMSON REUTERS ENTITY RISK BY THE NUMBERS:

- Over 1 million entities
- Across 250 markets
- Cross asset integration
- Hundreds of dedicated content experts
- 100+ legal entity attributes
- Auditable sources

MAINTAINED AND UPDATED BY A DEDICATED GLOBAL TEAM

This product is built and maintained by a dedicated global team of hundreds of editors, market analysts, content specialists and Six Sigma Black Belts quality assurance experts. The data is manually verified using detailed market-based process rules – guaranteeing the delivery of world-class, auditable, and transparent content.

FLEXIBLE DELIVERY OPTIONS

Thomson Reuters Entity Risk is available via the DataScope delivery platforms, which are easy to integrate within existing workflows and offer a flexible set of implementation options both deployed and hosted – browser-based, FTP and REST or SOAP API.

THOMSON REUTERS HOSTED DATASCOPE SELECT

Thomson Reuters DataScope Select is the strategic data delivery platform for non-streaming cross-asset content globally, which can be deployed almost instantaneously. The platform can be integrated by financial firms through three interfaces including browser based, FTP and REST or SOAP API.

THOMSON REUTERS DATASCOPE ONSITE

A Thomson Reuters managed system is deployed to the customer site – this box and leased line setup is typically installed outside clients' internal firewalls (in a DMZ) and holds a Sybase Database, which is updated automatically from Thomson Reuters data. Clients have SQL access to the content in the DataScope Onsite product.

THOMSON REUTERS ENTITY RISK
COUNTRIES OF RISKS FOR LEGAL ENTITIES

A new way to see the bigger picture.

How do you manage risk when the companies you invest in are complex, international, and face a myriad of regulatory regulations? How do you assess the risk exposure to a legal entity that is headquartered in a relatively "safe" country, but has key subsidiaries spread across more volatile, less known locations?

SEE – AND QUANTIFY – YOUR RISK EXPOSURE WITH COUNTRIES OF RISK

This new offering provides you with a key piece of the risk picture, available exclusively from Thomson Reuters. No one else gives you such clear visibility into the credit risk of countries where a particular corporation does business.

Instantly see where your risks lie for a particular corporation, including:

- The **primary** country of risk is for that company
- The **next nine** other countries with the greatest risk exposure

A coup in Nigeria? Crisis in Greece? Know with certainty what the risk exposure is to the entities in your portfolio.

COUNTRIES OF RISK EXAMPLE IN ACTION

You invest in a Spanish paper product company that you learned was majority-owned by a big company with US headquarters and incorporated in the US. You might assume it was only US-exposed. But is it? What if there was a strike in China? What would the impact be?

Providing multiple views of Countries of Risk helps evaluate the true exposure to a firm.

UK 1%
France 1%
Italy 1%
Russia 1%
Japan 2%
China 6%
India 2%
US 68%
Brazil 1%
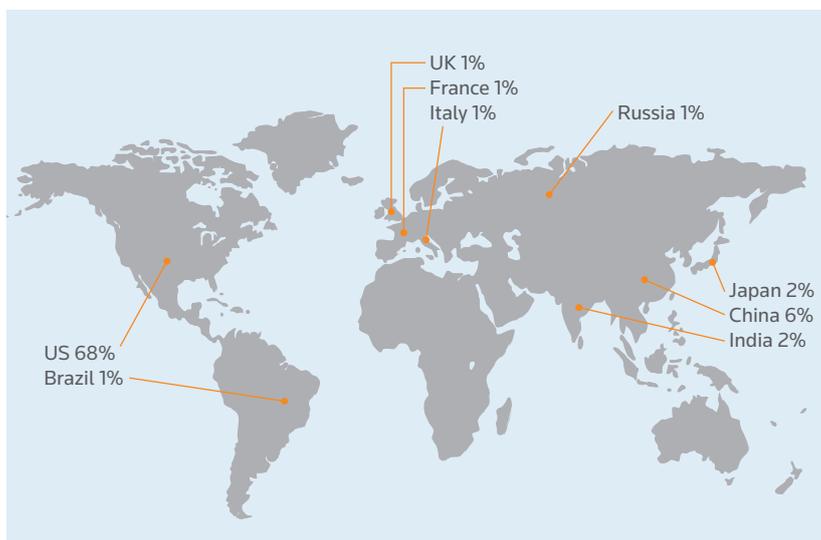

STARMINE ANALYTICS AND EXPERTISE ENSURE OBJECTIVE, ACCURATE, ACTIONABLE DATA

Countries of Risk is based on a combination of analytics, algorithms and human intelligence from StarMine. Our analysts weigh these factors in determining the countries that have the greatest risks:

- Revenue by geography
- Company headquarters country
- Trading country of primary security listing
- Filing currency country

The StarMine analysis takes opinion and guesswork out of the equation. The result is data that is unbiased, verifiable, and auditable proof of due diligence.

It's this simple: today you need solutions that fit the complexity of global legal entities. To only look at the country of a company's headquarters often misses underlying exposure risks that could affect both your portfolio's performance and your compliance requirements. Countries of Risk ensures you see the full risk exposure, no matter where a company does business.

ABOUT THOMSON REUTERS FINANCIAL AND RISK

Financial & Risk provides critical news, information, analytics and transaction capabilities for trading, investing, financial and corporate professionals, and also offers leading regulatory and operational risk management solutions. Financial & Risk's products and services help our customers discover profitable insights and opportunities, access liquidity, drive efficiencies in their business and operations, anticipate risk and ensure compliance." Risk Provides a comprehensive suite of solutions designed to help our customers address pricing and valuation, enterprise risk management, compliance management, audit management, financial crime, anti-bribery and corruption issues and board of director services.

THOMSON REUTERS FOR FATCA GRANDFATHERED OBLIGATIONS

YOUR CRITICAL PARTNER TO HELP MANAGE REGULATORY CHANGE

FAST FACTS ON FATCA

- The Foreign Account Tax Compliance Act (FATCA) is an effort by the U.S. Congress to identify U.S. persons who have attempted to hide their income from U.S. tax authorities and end this type of tax evasion.

- FATCA also imposes a withholding tax, when the required documentation and/or reporting requirements are not met.

- Banks will need to register as a Foreign Financial Institution (FFI) and report to the IRS or become "recalcitrant."

With all the challenges and complexity of FATCA (Foreign Account Tax Compliance Act) withholding beginning July 1, 2014, are you ready to identify which specific instruments are grandfathered and exempt from withholding?

Thomson Reuters is your critical partner to help you manage this regulatory change. Our new FATCA GO solution combines market-leading content widely used by organizations around the world. You will have access to a full securities report identifying which securities are eligible for exemption and which are grandfathered, providing you with a complete view and eliminating the need to create your own development program to identify GO flags.

IDENTIFY AND MANAGE GRANDFATHERED OBLIGATIONS

By definition, a grandfathered obligation is one that is outstanding on June 30, 2014. Interest and gross proceeds from the sale or other disposition of a grandfathered obligation are exempt from FATCA withholding. Any material modification (which is determined based on the relevant facts and circumstances) to a grandfathered obligation will cause it to lose its grandfathered status.

MORE WAYS TO OVERCOME INDUSTRY CHALLENGES

- Identify which securities are subject to FATCA withholding and which are exempt
- Identify grandfathered securities or contractual obligations
- Define and monitor material modification of grandfathered obligations that would cause them to lose their exempted status
- Establish processes to monitor material modifications
- Integrate the Grandfathered Obligation status into the withholding process

ELIGIBLE SECURITIES FOR FATCA GO

- Government/Corporate Debt
- MBS Pools (Fixed and ARMs)
- Agency CMOs (Fannie Mae, Freddie Mac, Ginnie Mae securitizations)
- RMBS (non agency residential securitizations)
- CMBS
- Consumer ABS (autos, credit cards, student loans)

THOMSON REUTERS FATCA GO REPORT INCLUDES:

- **Reference Data:** Grandfathered Obligation & Legal Entity Classification Security IDs (CUSIP, ISIN)
- **FDAP Flag:** Y/N
- **Grandfathered Flag:** Y/N
- **FATCA Audit Field:** Shows the attributes used for GO determination and needed for reconciliation
- **FATCA Date of Last Update:** dd/mm/yyyy
- **FATCA Materially Modified Flag:** Y/N
- **FATCA Material Modification Date:** Date on which terms and conditions of the "Grandfathered" instrument changed its state – as of the FATCA effective date of July 1, 2014

Thomson Reuters FATCA GO filters over 12 million active records to determine which securities are grandfathered. It integrates the grandfathered obligation status into the withholding process and tracks material modifications. Thomson Reuters FATCA GO solution is powered by the Thomson Reuters DataScope Suite. Thomson Reuters DataScope is the strategic data delivery platform for non-streaming content globally. It provides a full cross-asset offering with intelligently linked data for all Thomson Reuters DataScope content including reference data, corporate actions, legal entity data, end-of-day/intraday pricing and evaluated pricing services.

Fup bilaga 15 B

RUSSIAN SANCTIONS TRACKING SERVICE

BETTER MANAGE YOUR RISK

In 2014 the European Union (EU) and the Office of Foreign Assets Control (OFAC) issued a number of executive orders and sectoral sanctions against Russia in retaliation for the Russian government's annexation of Crimea and activities to destabilize Ukraine. The EU and OFAC sanctions are an unprecedented event where individual companies are being surgically targeted for sanctions in a market that is widely held by American and European investors.

The intent of the sanctions is to limit the ability of select Russian banking, energy, and military concerns to finance their operations through western capitals markets. The result of these sanctions creates a big impact on investment and trade compliance as financial institutions and infrastructure providers must ensure they do not trade specific new debt or equity issued by sanctioned entities. The sanctions also apply to any subsidiary of a sanctioned entity, which further complicates the tracking process.

THOMSON REUTERS SANCTIONS TRACKING SERVICE

Thomson Reuters Russian Sanctions Tracking service provides all the required information on sanctioned entities, their subsidiary relationships, and all instruments that are impacted by the sanctions.

As a result, It enables you make the best investments in Russian businesses and do so in accordance with the sanctions currently in place.

Key Features

- Proactive tracking of Sectoral Sanctions Identifications "SSIs" identified in OFAC/EU directives
- Tracking of new instruments issued by SSIs– issued prior to July 16 (legal to trade) and those issued on or after July 16 (illegal to trade)
- Regular refresh of entity and instrument sanctions list and proactive alerts for any new issues
- Access to support analysts for specific queries and research
- 200+ market analysts across the world, in 50 languages
- Corporate relationships
- Auditable sources
- Quality control and quality assurance built into data collection processes

WHY THOMSON REUTERS?

Transparent depth and breadth of Entity data

Our extensive universe of over 1 million entities across 250 markets, includes the organisational structures of parent entities, their subsidiaries, joint ventures and affiliates, all from auditable sources you can trust.

Streamlined Delivery

Content is delivered to you via Thomson Reuters DataScope Select a robust and scalable delivery platform used by over 2300 firms worldwide.

Unique services and proven expertise

Thomson Reuters offers Russian Sanctions monitoring through its leading World-Check suite of products. This service monitors over 400 sanction, watch and regulatory law and enforcement lists, and hundreds of thousands of information sources, often identifying high-risk entities months or years before they are listed. World-Check currently exceeds terrorist coverage on the four leading sanctions (OFAC, EU, UN, UK HMT) by more than 70,000 records.

Better data quality, integration and support

We have decades of experience in integrating, distributing market data, ensuring data quality "out of the box."

Global presence

Thomson Reuters is committed to providing support, account management, hosting, development and exchange relationships, worldwide.

THOMSON REUTERS FOR SHAREHOLDING DISCLOSURES

Monitor thresholds of ownership accurately so you can report with confidence

Increasingly stringent regulatory requirements mandate that asset managers monitor and report any breach in a threshold of ownership of a given issuer. But calculating percentage ownership creates a significant challenge due to the complexity of rules, high volume of disclosures, and the availability of accurate data on outstanding shares.

Thomson Reuters allows you to monitor the threshold of ownership in the share capital of a given issuer, leveraging our comprehensive content, fundamentals, reference data, and total shares and voting rights.

THOMSON REUTERS HELPS YOU ANSWER THE REPORTING CHALLENGE

Our Shareholding Disclosures allow you to monitor the threshold of ownership of a given issuer by providing you with accurate, quick, and reliable access to:

- Shares and voting rights collected from over 150 reliable and timely sources across 99 countries
- Total shares and votes data at instrument and issuer level for all classes of shares (including unlisted share classes)
- All share types covered (issued, listed, outstanding, treasury) at issuer and instrument level
- Reference data and analytics required to support disclosures (e.g., industry classifications, deltas, depository receipts, and more)
- Detailed review of all sources, field definitions, procedures, and quality checks for every major market

WHAT THOMSON REUTERS OFFERS YOU:

Accuracy of shares outstanding content

Our collection methods are based on detailed review and audit of all sources, field definitions, procedures, and quality checks for all major markets in collaboration with leading buy-side institutions.

Precise and unique data

Thomson Reuters offers a large number of fields that allow you to conduct more precise calculation on total shares and voting rights denominators including all listed/unlisted share classes, support for all the share types that may be required by local regulators (listed, issued, treasury, outstanding), reference data, and analytics.

Outstanding service

Thomson Reuters successful and long-standing collaboration with leading buy-side institutions has allowed us to create a trusted and reliable service for our customers. Our team of content and service experts across the world has deep domain knowledge and is available to service customers 24x5.

Focus on quality assurance

All terms and conditions data is validated by Thomson Reuters through an extensive quality assurance program. We employ over 100 database validations on our source databases to check data before it reaches our products.

Flexible delivery

Thomson Reuters DataScope provides access to data across a wide range of delivery platforms, making it easy to integrate into your enterprise. It offers immediate access via request/retrieve to comprehensive reference data and pricing in a user-friendly, customizable Web interface, which offers delivery by FTP, CSV, and XML with custom file layout.

If we can help you produce accurate, reliable, significant shareholder reporting you can deliver with confidence, please email prd.community@thomsonreuters.com or visit prdcommunity.com.

Fup bilaga 15 B

THOMSON REUTERS SOLVENCY II DATA SERVICE

Thomson Reuters is the world's leading source of intelligent information for businesses and professionals. Through our award winning pricing and reference content sets we are now able to offer market practitioners a dedicated Solvency II Data Service information feed. This service helps subscribers in meeting their Pillar I and Pillar III obligations under Solvency II and provides them with the necessary data needed to assess their capital adequacy.

BACKGROUND

In light of the guidelines set down for financial institutions by the Basel Committee on banking supervision, the Solvency II regulatory insurance framework and the advice from the European Insurance and Occupational Authority (EIOPA): Insurers and their asset servicers are now obliged to have a deeper understanding of the trading and investment risks that they have entered into and/or are connected to and the levels of capital that they need to keep in reserve.

No longer can related firms solely focus their attention on the potential returns they may obtain, but must now actively consider their risk exposure to their current and future investments, over prolonged periods of time and must ensure that they have sufficient capital reserves to meet any potential risks that they may face at any stage during the agreed timeframe.

In many cases the obligation to provide this data is falling to asset servicers such as Asset Managers, Fund Administrators and Custodians in addition to third party vendors who support differing Insurers.

The general pricing and reference data requirements for these requirements are outlined in the graph below.

Asset Servicers, Asset Managers, Custodians, Fund Administrators, Other

PILLAR 1 **Granular Data Requirements**	PILLAR 2 **Continuous Data Requirements**	PILLAR 3 **Comprehensive Data Requirements**
Investment data at security level	Investment data required to track investment exposure and risk	Investment data reported by non standard instrument classifications
SCR/MCR*	ORSA	QRT

Solvency II Regulatory Reporting

SCR – Solvency Capital Requirements; MCR – Minimum Capital Requirements

SOLUTION

The Thomson Reuters Solvency II Data Service addresses these challenges by providing subscribers with access to the key data sets they need to suitably power their risk mitigation, capital adequacy and disclosure tools.

Furthermore the feed enables Insurers and their asset servicers to obtain a detailed 'look-through' for their investments and funds of investments going from issuer to security at all levels and provides the necessary referential content sets they need to map these instruments.

Subscribers can also forward project their risk up to 120 years, using the specialist Solvency II curves.

Specifically this data feed helps subscribers to:

- Undertake market-based valuations of their assets and liabilities on a security by security basis
- Calculate their minimum capital requirements (MCR) and the solvency capital requirements (SCR)
- Access the necessary identification codes required for mapping and reporting purposes under the directives
- Obtain 'look-through' data on funds and other investment structures in order to identify the ultimate asset
- Generate a composite rating or provide a Credit Quality Step (CQS) to support the required Quantitative Report Templates (QRT)

The following chart outlines the key content sets Insurers and their asset services can expect to obtain from Thomson Reuters.

Type of Data	# Data Items	Examples
Instrument	11	Currency (ISO), Maturity Date, Identifier, Name, Strike, CIC, Duration
Geography	2	Issuer Country, Geographical Zone of Issue
Classifications	1	Issuer Sector
Income	2	Dividends, Interest
Valuation	1	Asset Price
Risk	1	Notional for Futures and Options
Structured	7	Fixed Annual Return, Call or Put, Variable Annual Return
Issuer	4	Issuer Name, LEI Code, Issuer Group, Counterparty Group
Agency Ratings	2	Name of Credit Rating Agency, Actual External Rating
Collateral	3	Collateral Type, Underlying Asset of Securitization, Group of Debtor

Fup bilaga 15 B

THOMSON REUTERS SOLVENCY II DATA SERVICE

The following chart explains in greater detail what the differing components of this Data Service are, and how they can help subscribers to deal with this challenge, please note this is not an exhaustive representation of the value this service offers to subscribers.

Requirement	Challenge	How Thomson Reuters can help?
Disclosure and transparency: Obligation to produce and submit Quantitative Report Templates (QRT) on a quarterly basis.	**Sourcing and mapping data** The templates are complex and it is difficult to understand the granular data requirements, and then to map the correct data to the appropriate field in the template for disclosure. *IMPACT: Errors or omissions in reporting will result in additional ad hoc reporting, or even additional capital requirements where regulators are dissatisfied.*	**Reduce data management burden with QRT mapping** Thomson Reuters has identified the required data for reporting in the QRT. *Reduce effort and the risk of errors in sourcing and formatting the data required for reporting, and streamline the generation of reports.*
Capital adequacy: Valuations for calculating Solvency Capital Requirements (SCR).	**Complex data requirements for calculating MCR & SCR** Practitioners are expected to obtain complex data sets from multiple sources and to process these in a timely manner in order to calculate their capital requirements. - Value of assets and liabilities, given the liquidity requirements, this needs to be calculated on an almost daily basis - Securities issuer sector and rating classification to understand the attributes/risk profile of securities the insurance company holds and the issuers concerned. *IMPACT: Requires sourcing and updating of multiple data sets, plus transparency into the underlying data sources and methodologies used.*	**Simplify SCR & MCR calculations with comprehensive and transparent pricing and classification data inputs** Thomson Reuters provides independent evaluated pricing with specific Solvency II attributes as well as benchmark curves with up to 120 years maturities, Last Liquidity Point (LLP) and Ultimate Forward Rate (UFR) to value assets and liabilities. In addition we have securities and issuer classifications including CICs (instruments), NACE codes, LEIs (entities), and issuer credit ratings. *Simplify the sourcing and updating of data required for SCR & MCR calculations.*
Capital adequacy: Constituent securities and issuers in fund holdings – as inputs to SCR.	**Finding fund holdings data ("look-though" data)** In order to understand their exposures, Insurers need to identify and classify the contents of fund holdings by asset and issuer across hundreds of asset managers – and then aggregate this data across holdings. *IMPACT: Without an accurate view of their investment holdings, insurance companies will face higher Solvency Capital Requirements. However, the effort involved in collecting and cleansing this data across all fund portfolios is enormous.*	**Reduce Solvency II Capital Requirements with an accurate and transparent view of assets across fund holdings** Thomson Reuters DataScope platform provides access to our proprietary Lipper global fund holdings data for constituent data, enriched with additional security-level information such as CIC codes and NACE codes. This enables subscribers to identify and classify fund holdings constituents; this data can then be aggregated across funds and with non-fund holdings. *Simplify the gathering and validating of fund "look-through" data required to optimize Capital Requirements.*
Credit Quality Steps (CQS): As an input to QRT and SCR.	**Generating a Credit Quality Steps number** Insurers are required to report a rating for their holdings; this rating is the 2nd best one, which is likely to be the CQS introduced under Basel II. The CQS is based on ratings from multiple Credit Rating Authorities (CRAs). *IMPACT: There is a significant data management overhead in sourcing the data and calculating CQS.*	**Reduce the cost of creating a Credit Quality Steps number** Thomson Reuters processes credit ratings feeds from multiple agencies around the world. We are able to deliver multiple feeds to clients to allow them to derive a composite rating/CQS number. *Reduce the cost and effort involved in creating CQS numbers for Solvency II SCR calculations*

DELIVERY

All this content can be delivered to you via feed from Thomson Reuters DataScope Select; a robust & scalable delivery platform used by over 2300 firms worldwide on a daily basis. The feed is fully flexible and subscribers may choose to access the whole feed or to take differing component sets of data depending on their specific requirement.

Fup bilaga 15 B

THOMSON REUTERS DATASCOPE REFERENCE DATA

GLOBAL AND COMPLETE DATA COVERAGE

FUNCTIONALITY AND FEATURES
DEPTH AND BREADTH OF DATA

Counterparty and Entity Data

Thomson Reuters Entity Risk is the most complete and comprehensive data source available for understanding complex corporate structures. With a universe of over 1 million entities across 250 markets and complete cross asset integration, the platform gives you clear visibility into the organisational structures of parent entities, their subsidiaries, joint ventures and affiliates in a hierarchical view. Ease the burden of compliance by meeting global regulatory obligations and mitigate your risk exposure through cross-asset instruments and Countries of Risk integration for a linked 360-degree view of exposure.

Reference Data, Terms and Conditions

Provides full terms and conditions data, including ratings and descriptive content, for each asset type. We maintain extensive market-level and issue-level industry standard numbering codes associated with each equity instrument including official clearing code identifiers (SEDOL, CUSIP, ISIN, CINs, Wertpapier, SICC, Local Exchange codes MIC/OPOL), Classifications such as GICS, Thomson Reuters proprietary (Thomson Reuters Instrument Codes), Thomson Reuters internal system-generated company level, issue level, and quote level codes. All futures and options carry underlying Thomson Reuters Instrument Codes for easy cross-referencing, linking and integration.

Corporate Actions

Corporate Actions data spans 98 countries, over 200 exchanges, approximately 94,000 companies, and more than 15 years' history for all mature markets. Data delivery is intraday and measured on a four-hourly target, from source to database entry. Delivery format includes Thomson Reuters proprietary standard format and ISO 15022.

- 5–10 years of history for emerging markets with comprehensive list of fields
- Same-day event coverage from announcement to completion

Historical Time Series Pricing

Thomson Reuters has approximately 20 years of price history available for established equity markets and 20+ years for Money and Index data. For most emerging equity markets, data goes back to the first day of trading. Subscribers to the DataScope History Service receive price histories for all live and delisted securities. For Futures markets Thomson Reuters has 10 to 15 years of history.

All data is cross-checked and delivered in customized data sets, including:

- Reference Data with Terms and Conditions
- Corporate Actions
- Deep Analytics
- Pricing (Intraday, validated end-of-day, historical)
- Evaluated Pricing Service

Flexible delivery

Thomson Reuters DataScope delivers across a wide range of delivery platforms, making it easy to integrate into your enterprise.

- Immediate access via request/retrieve to comprehensive reference data and pricing via DataScope Select
- Intraday and End-of-day deliveries of corporate actions and pricing
- User-friendly customizable web interface which offers delimited text and XML custom file layouts delivered by FTP
- ISO 15022 industry-standard corporate actions messaging
- Regional and global packages via large-volume bulk delivery or customized, portfolio-based retrieval

Symbol Cross Reference and Entity Management

Our coverage includes many internal and external entity sources that span 2.9 million organizations, 2.4 million instruments, and 6.2 million quotes.

Quality Assurance:

- All terms and conditions data is validated by Thomson Reuters through an extensive Quality Assurance program.
- Global reach, local knowledge with over 200 data experts dedicated to the collection, analysis and quality control of equity corporate actions content.
- Quality control and quality assurance built into data collection processes
- Over 100 database validations on our source databases, checking data before it reaches our products

THOMSON REUTERS DATASCOPE FOR CORPORATE ACTIONS

EFFECTIVELY MANAGE YOUR OPERATIONAL RISK
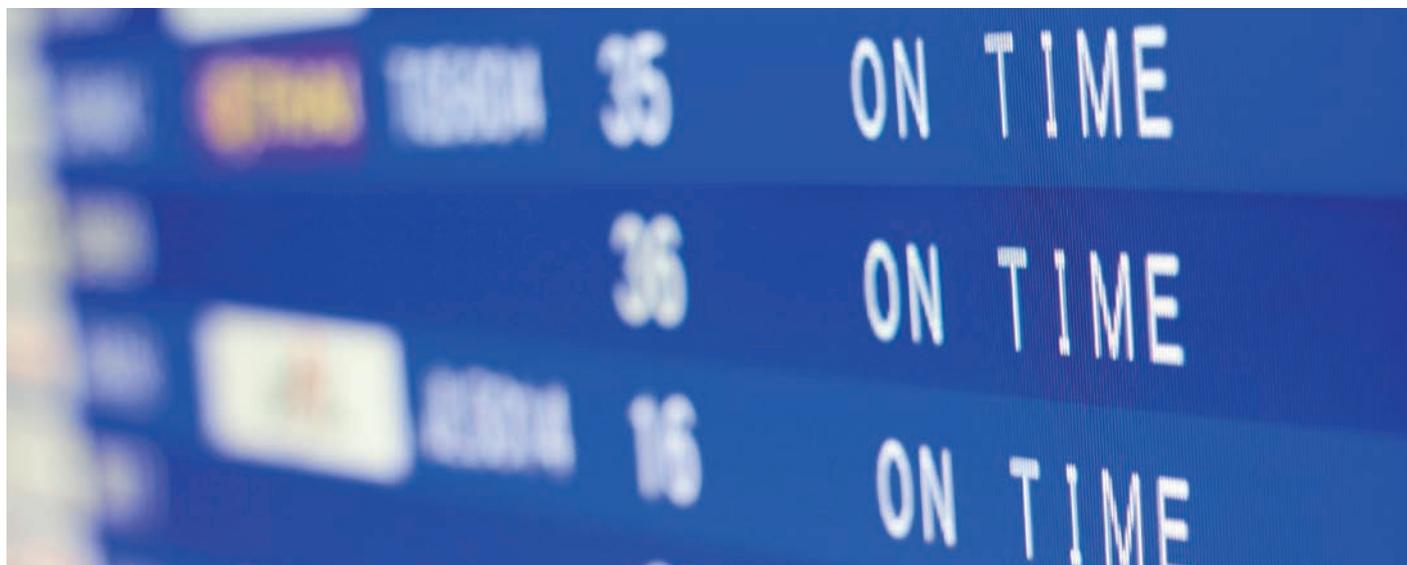

With the ever changing dynamic of the financial markets, accessing reliable information quickly and efficiently is crucial. The corporate actions market is complex and information has nuances that call for expertise. Whether you are focused on pre-trade or post-trade activities, Thomson Reuters DataScope for Corporate Actions offers a complete solution to support multiple processing activities across your enterprise.

MITIGATE YOUR RISK EXPOSURE – PROMPT AND ACCURATE DATA DELIVERY

Thomson Reuters captures events as soon as they are announced in the market, delivering you the news and data you need to act quickly and confidently.

- Know first – For Asia Pacific markets the data will be available on DataScope Select within 1.5 hours of the announcement. For the rest of the world the benchmark is 3 hours; in most cases publication turnaround time is shorter

- Rely on rich content – dedicated teams with local market and language expertise collect, analyze and verify data, using multiple sources to create one record

- Achieve consistency – our tagging system ensures you have a consistent, linked view of securities and how they roll up to their legal entities

- Minimize errors – manual and automated quality control and assurance are built into the data collection process , verifying data on an event by event basis

MANAGE YOUR DATA EFFICIENTLY – ONE SOURCE FOR ALL YOUR CORPORATE ACTION NEEDS

Serve the needs of your whole enterprise through one product. Thomson Reuters content includes extensive historical corporate actions events and data provided in our standard, proprietary format as well as in an ISO 15022 event format.

- Support activities across your business – comprehensive content including Number of Shares, Voting Rights, Earnings, Dividends, Capital changes, IPOs and Mergers & Acquisitions (Public target companies)

- Talk to our experts – our global team of corporate actions experts are available 24/5 via telephone, email or chat

- Go beyond corporate actions – access our full service including Evaluated Pricing, Security Cross Reference and Legal Entity, all linked and delivered via Thomson Reuters DataScope

DELIVERED IN THE WAY YOU NEED IT – FLEXIBLE OPTIONS AND PACKAGES

Integrate the data you need in a way that works for your business. Thomson Reuters DataScope for Corporate Actions offers a variety of packages and delivery platforms.

- Easily integrate or extract the data you need – deploy information almost instantaneously through a choice of customizable web interfaces and formats including FTP, CSV, XML and ISO 15022

- Receive flexible updates – Intraday corporate actions are available using quote or issue based instrument lists as well as broader, filecode extractions. M&A and IPO data is delivered hourly.

- Corporate Actions data is available via the DataScope delivery platforms, which are easy to integrate within existing workflows and offer a flexible set of implementation options both deployed and hosted – browser-based, FTP and REST or SOAP API.

THOMSON REUTERS DATASCOPE SELECT FOR CORPORATES

GLOBAL AND COMPLETE DATA COVERAGE

Pricing, reference data and derived analytics solutions for the forward-looking firm.

In today's ever-changing marketplace, adapting products and competitive strategies is key for the modern corporation.

As a corporate professional, you need more than simply financial data. You require relevant content to maximize your performance and overall return on investment. The quality and relevance of the information you obtain can ultimately empower you to find new opportunities and to keep pace with the regulatory changes impacting your sector.

Thomson Reuters DataScope Select for Corporates addresses these crucial needs. DataScope Select intelligently links all of our non-real-time data together, ensuring you can get all of the following content in one feed:

- Corporate actions, to support your decisions
- Counterparty, to identify whom you are working with and those who are issuing what instruments
- End-of-day/intraday pricing for hard-to-value and illiquid assets, to evaluate the real price of the assets you hold
- Access to data from exchanges around the world

COUNTER-PARTY DATA
- Global Instrument-Issuer linkage
- Parent IDs and Full Corporate Hierarchies
- Audited Data

Thomson Reuters DataScope Select is a remotely hosted delivery platform with a very low IT footprint. New functionality and content are added seamlessly without the need for end-clients to make infrastructural changes, saving you and thousands of our other clients from having to make expensive system upgrades.

FUNCTIONALITY

Fast onboarding and integration
Thomson Reuters is an award-winning provider of data delivery services: Our success is based on our commitment to providing the highest levels of coverage, reliability, performance and customer service. Our DataScope Select service is tailored to meet your needs with a range of data delivery interfaces including browser based, FTP and REST or SOAP API. This level of flexibility allows us to integrate into all major Treasury Management Systems (TMS) and Risk Management Frameworks.

Intelligent data
Delivered through DataScope Select, Thomson Reuters Pricing Service covers all major asset classes and is available on an intraday, end-of-day and time series basis. Securities are linked to issuers and markets and additionally linked to corporate actions and reference data.

Ease of use
Your data personnel can easily control what content they wish to extract and define from the browser, with XML-based actions submitted to the FTP, REST or SOAP API. Scheduling of extractions can be automated and based on event triggers or exact client-time requirements. Field-level formatting of the data output can be set up as fixed width, delimited or in XML.

Cost transparency
A complete and transparent method of billing is provided to all subscribers. All data extractions are recorded at the security and asset class levels and are made available in the "usage" screens. Current and past usage can be monitored on a per-user basis and at company-level basis, offering complete transparency about the amount and types of data being used.

FEATURES

Comprehensive and global coverage

The strategy behind Thomson Reuters DataScope Select for Corporates is to provide pricing, reference data and derived analytics across all asset classes so that only one source and a single retrieval method is required. That's why Thomson Reuters DataScope Select for Corporates covers all major asset classes including reference data, corporate actions, counterparty data, end-of-day/intraday pricing and evaluated pricing services.

Valuations transparency and audit trail

Transparency is offered for all evaluations and includes price recipes, corresponding market color and other relevant data. Commentary is available for issues that break tolerance thresholds. You have direct access to an evaluator for price challenges but also to obtain additional color, clarification and validation in an auditable format. Our evaluated pricing service applies consistent and transparent pricing methodologies, reflecting regulatory and accounting standards.

Full API service

DataScope Select's REST and SOAP APIs provide flexible and comprehensive access to the full data model and is suitable as an application data source or as embedded methodology in client side data retrieval workflows. The REST API, DataScope Select's next generation API designed around REST architecture, expands upon the SOAP API capabilities to provide added content, flexible extraction scheduling and increased validation and extraction processing limits.

Industry standard ISO 15022 data delivery

In addition to our flexible data formatting options, Thomson Reuters DataScope Select for Corporates can deliver corporate actions data in the industry standard.

WHY THOMSON REUTERS?

Widest data coverage – Thomson Reuters has unrivalled coverage of market data, evaluated and contributed pricing, corporate actions data, counterparty and compliance data, and other differentiated content.

Better data quality, integration and support – We have decades of experience in integrating and distributing market data, ensuring data quality and adequacy "out of the box."

24/7 service – Our global service centers can offer you support around the clock and our local account teams can respond quickly to your queries.

Global presence – Thomson Reuters is committed to providing support, account management, hosting, development and exchange relationships, worldwide.

Managing valuation risk – We have made major investments in bringing accurate, transparent pricing for hard-to-price fixed-income securities and credit derivatives to clients. Our professional-evaluated pricing service is delivered by a team of more than 100 experts around the globe; they are in constant contact with market participants. Using our unrivalled range of data and our expertise, we can provide reliable prices for individual instruments or entire portfolios.

Industry standard ISO 15022 data delivery

In addition to our flexible data formatting options, Thomson Reuters DataScope Select can deliver corporate actions data in the industry standard ISO 15022 format, adhering to guidelines provided by the securities and Market Practice Group.

Multiple product releases a year

Thomson Reuters DataScope Select is the strategic data delivery platform for non-streaming content globally and has an aggressive development and roadmap schedule. Each release is driven by partnering with our clients and ensuring we are meeting their demands in a competitive world with rapidly changing global and local market requirements.

Valuations transparency and audit trail

AskTRPS is integrated as part of the DataScope Select web-interface with intuitive screens for entering bond price challenges of various types. It provides customers with multi-bond challenge support via an imported comma separated value (CSV) file that includes predefined columns for simplified input. With AskTRPS, you can track and monitor progress of existing challenges from submission through resolution via on-screen controls that allow filtering and sorting. Consistent challenge responses are provided with evaluator details to enable audit trails. All challenges are resolved within 24 hours of submission, delivering the critical information you need in a timely manner. Prices managed through the AskTRPS are evaluated prices from our Pricing Service.

WHY THOMSON REUTERS?

Rating Scale and Definitions

Moody's Rating Scale

The following is a ranking (from highest to lowest) of Moody's long-term and short-term categories. The indicated relationship between long-term and short-term ratings is approximate and may not necessarily apply in all situations.

Long–Term	Short–Term
Investment Grade	
Aaa	P-1 (Prime-1)
Aa1	
Aa2	
Aa3	
A1	
A2	
A3	P-2 (Prime-2)
Baa1	
Baa2	
Baa3	P-3 (Prime-3)
Non-Investment Grade	
Ba1	
Ba2	
Ba3	
B1	
B2	NP (Not Prime)
B3	
Caa1	
Caa2	
Caa3	
Ca	
C	

Moody's Short-Term Rating Definitions

Moody's short-term ratings, unlike our long-term ratings, apply to an individual issuer's capacity to repay all short-term obligations rather than to specific short-term borrowing programs. Once assigned to an issuer, a short-term rating is global in scope; it applies to all the issuer's senior, unsecured obligations with an original maturity of less than one year regardless of the currency or market in which the obligations are issued. An exception to the global nature of these ratings occurs if an issuer's rating is supported by another entity through vehicles such as a letter of credit or guarantee.

Moody's employs the following designations, all judged to be investment grade, to indicate the relative repayment ability of rated issuers:

P-1 Issuers (or supporting institutions) rated Prime-1 have a superior or ability to repay short-term debt obligations.

P-2 Issuers (or supporting institutions) rated Prime-2 have a strong ability to repay short-term debt obligations.

P-3 Issuers (or supporting institutions) rated Prime-3 have an acceptable ability to repay short-term obligations.

NP Issuers (or supporting institutions) rated Not Prime do not fall within any of the Prime rating categories.

Moody's Long-Term Rating Definitions

Moody's long-term obligation ratings are opinions of the relative credit risk of fixed-income obligations with an original maturity of one year or more. They address the possibility that a financial obligation will not be honored as promised. Such ratings reflect both the likelihood of default and any financial loss suffered in the event of default.

Aaa Obligations rated Aaa are judged to be of the highest quality, with minimal risk.

Aa Obligations rated Aa are judged to be of high quality and are subject to very low credit risk.

A Obligations rated A are considered upper-medium-grade and are subject to low credit risk.

Baa Obligations rated Baa are subject to moderate credit risk. They are considered medium-grade and as such may possess speculative characteristics.

Ba Obligations rated Ba are judged to have speculative elements and are subject to substantial credit risk.

B Obligations rated B are considered speculative and are subject to high credit risk.

Caa Obligations rated Caa are judged to be of poor standing and are subject to very high credit risk.

Ca Obligations rated Ca are highly speculative and are likely in, or very near, default, with some prospect of recovery in principal and interest.

C Obligations rated C are the lowest-rated class of bonds and are typically in default, with little prospect for recovery of principal and interest.

Note: Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

Bank Financial Strength Rating Definitions

A Banks rated A possess superior intrinsic financial strength. Typically, they will be institutions with highly valuable and defensible business franchises, strong financial fundamentals, and a very predictable, stable operating environment.

B Banks rated B possess strong intrinsic financial strength. Typically, they will be institutions with valuable and defensible business franchises, good financial fundamentals, and a predictable and stable operating environment.

C Banks rated C possess adequate intrinsic financial strength. Typically, they will be institutions with more limited but still valuable business franchises. These banks will display either acceptable financial fundamentals within a predictable and stable operating environment, or good financial fundamentals within a less predictable and stable operating environment.

D Banks rated D display modest intrinsic financial strength, potentially requiring some outside support at times. Such institutions may be limited by one or more of the following factors: a weak business franchise; financial fundamentals that are deficient in one or more respects; or an unpredictable and unstable operating environment.

E Banks rated E display very modest intrinsic financial strength, with a high likelihood of periodic outside support or an eventual need for outside assistance. Such institutions may be limited by one or more of the following factors: a weak and limited business franchise; financial fundamentals that are materially deficient in one or more respects; or a highly unpredictable or unstable operating environment.

Types of Ratings

Long-Term Debt Ratings

Opinions of relative credit risk of fixed-income obligations with an original maturity of one year or more. These ratings address the possibility that a financial obligation will not be honored as promised. Such ratings reflect both the likelihood of default and any financial loss suffered in the event of default.

Short-Term Ratings

Opinions of the ability of issuers to honor short-term financial obligations which generally have an original maturity not exceeding 13 months.

Issuer Ratings

Opinions of the ability of entities to honor senior unsecured financial obligations and contracts.

Corporate Family Ratings

Moody's Corporate Family Ratings are generally employed for speculative grade corporate issuers. A Corporate Family Rating is an opinion of a corporate family's ability to honor all of its financial obligations and is assigned to a corporate family as if it had:

- a single class of debt
- a single consolidated legal entity structure.

A Corporate Family Rating does not reference an obligation or class of debt and thus does not reflect priority of claim. It applies to all affiliates under the management control of the entity to which it is assigned. Moody's employs the general long-term rating scale for Corporate Family Ratings.

Bank Ratings

Moody's will typically assign two ratings to a bank – Bank Deposit Ratings and Bank Financial Strength Ratings.

Bank Deposit Ratings Opinions of a bank's ability to repay punctually its foreign and/or domestic currency deposit obligations. Moody's deposit ratings are intended to incorporate those aspects of credit risk that are relevant to the prospective payment performance of the rated bank with respect to its foreign and/or domestic currency deposit obligations.

Bank Financial Strength Ratings Opinions of a bank's intrinsic safety and soundness and, as such, exclude certain external credit risks and credit support elements that are addressed by Moody's Bank Deposit Ratings.

Insurance Financial Strength Ratings

Opinions of the ability of insurance companies to repay punctually senior policyholder claims and obligations.

National Scale Ratings

Opinions of the relative creditworthiness of issuers and issues within a particular country. National Scale Ratings are not designed to be compared among countries.

Money Market and Bond Fund Ratings

Opinions of the investment quality of shares in mutual funds and similar investment vehicles which principally invest in short-term and long-term fixed-income obligations, respectively .

About the Company

Moody's Investors Service is among the world's most respected, widely utilized sources for credit ratings, research and risk analysis. In addition to our core ratings business, Moody's publishes market-leading credit opinions, deal research and commentary, serving more than 9,300 customer accounts at some 2,400 institutions around the globe.

Moody's independence and integrity have earned us the trust of capital market participants worldwide. Our ratings and analysis track debt covering more than:

- 100 sovereign nations
- 12,000 company issuers
- 29,000 public finance issuers
- 96,000 structured finance obligations

Credit ratings and research help investors analyze the credit risks associated with fixed-income securities. Such independent credit ratings and research also contribute to efficiencies in fixed-income markets and other obligations, such as insurance policies and derivative transactions, by providing credible and independent assessments of credit risk.

Moody's default studies validate our predictive ratings. Published research and investor briefings, that draw thousands of attendees each year, keep investors current with the rationale for our credit opinions.

In addition to its ratings services, Moody's publishes investor-oriented credit research, including in-depth research on major debt issuers, industry studies, special comments and credit opinion handbooks. While research, analysis and data are delivered through a number of channels, most of Moody's clients use www.moodys.com for access to such services in a real-time environment.

Moody's maintains offices in most of the world's major financial centers and employs approximately 3,000 people worldwide, including more than 1,000 analysts. The firm also has expanded into developing markets through joint ventures or affiliation agreements with local rating agencies.
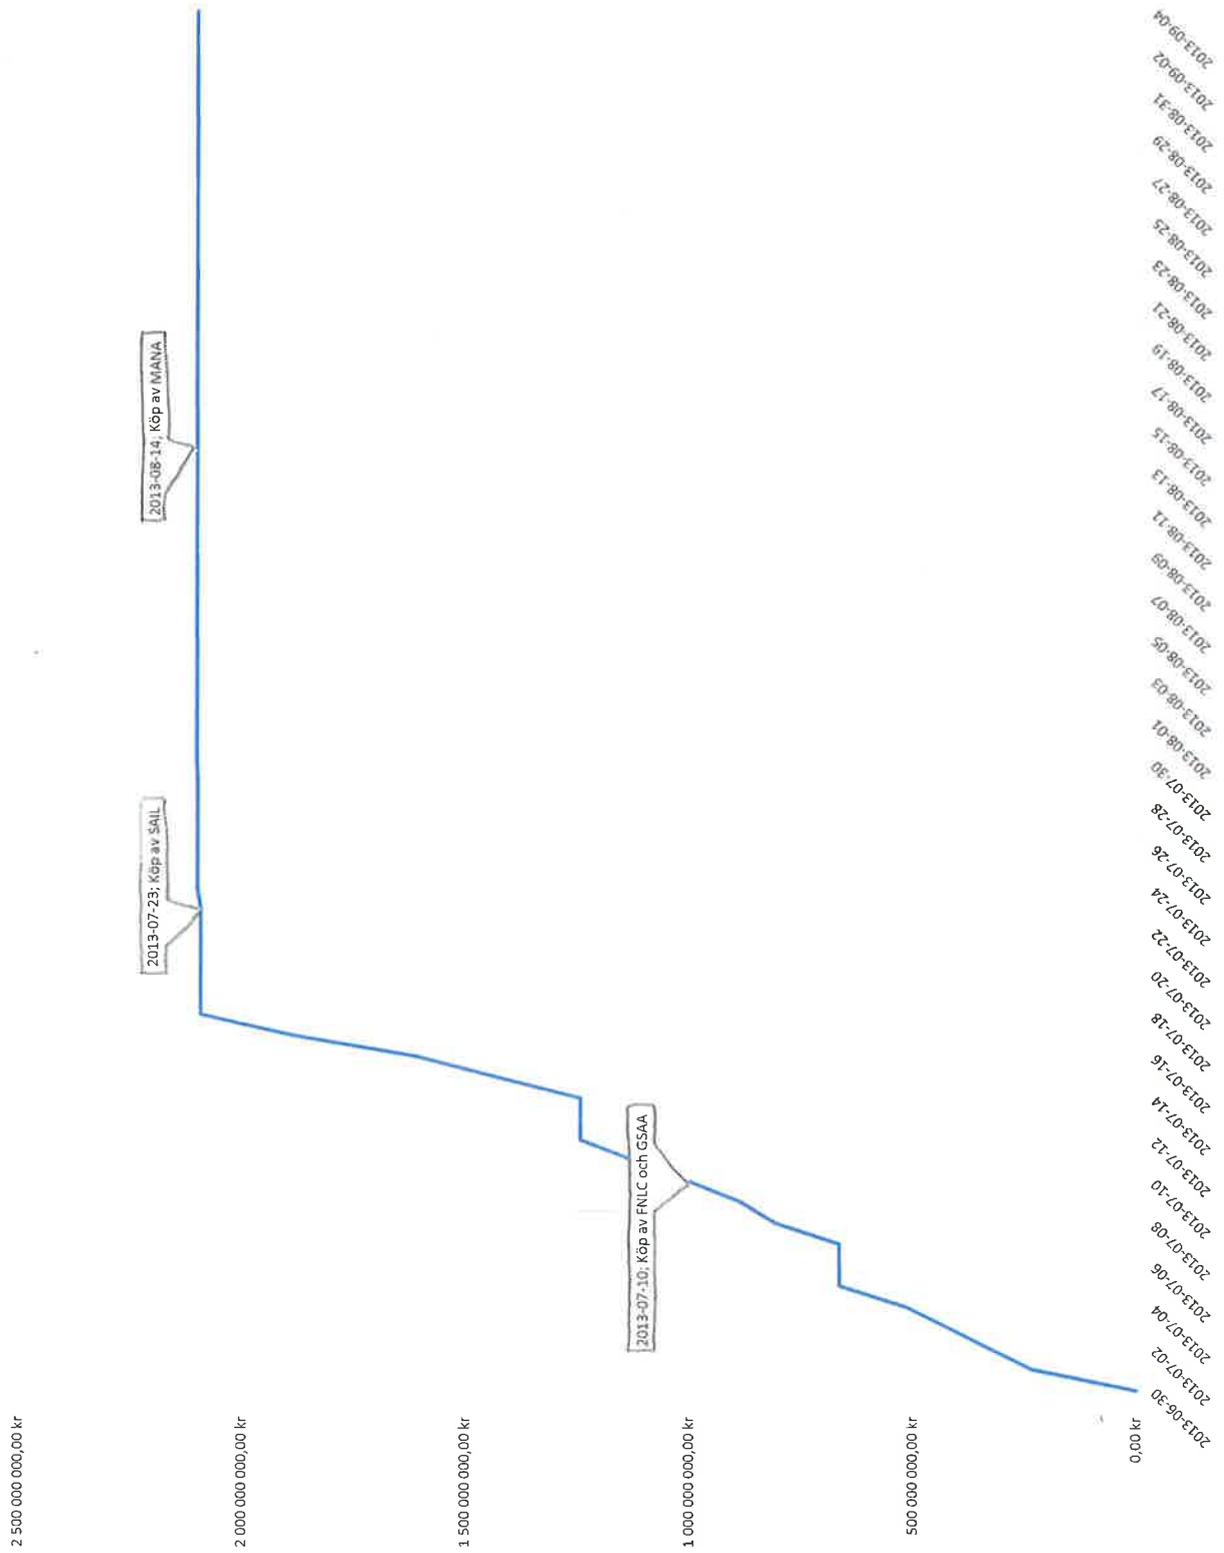

Customers include a wide range of corporate and governmental issuers of securities as well as institutional investors, depositors, creditors, investment banks, commercial banks, and other financial intermediaries.

About Moody's Corporation

Moody's Corporation (NYSE:MCO) is the parent company of the Moody's Investors Service credit rating agency, the Moody's KMV quantitative credit risk analysis business, and Moody's Economy.com, a provider of economic research and data services. The corporation, which reported revenue of $2.0 billion in 2006, employs approximately 3,000 people worldwide and maintains offices in 27 countries.

PM avseende Inflöde juni – juli 2012 Optimus High Yield (Materialet erhållet från Pensionsmyndigheten)

Det finns inhämtat material från Pensionsmyndigheten avseende flyttade pengar till High Yield för juni tom juli 2012. Underlaget finns i arbetsdokument 1071 Per 2012 Optimus High Yield 925628 juni juli 2012.

I filen kan man bla se datum och IP-adress. Jag gjorde en sammanställning över de flyttar som skett i juni/juli 2012 och det var två IP-adresser som stod ut: 212 112 173 226 samt 212 112 173 227. De två IP-adresserna tillhör IP Only.

IP 212 112 173 226 har för perioden juni flyttat 2 324 kunder till ett belopp om 127 353 112 MSEK, inga flyttar i juli i denna fil.

IP 212 112 173 227 har för perioden juni flyttat 2 344 antal kunder om 120 710 616 kronor. I juli har 2 st kunder flyttat om 29 239 kr. otalt för perioden har 2 346 kunder till ett belopp om 120 739 856 MSEK flyttats till High Yield fonden.

Totalt har det flyttats 248 092 968 MSEK

Den första som flyttar pengar (27/6 2012) till High Yield enligt filen från IP 212 112 173 226 är Emil Ingmanson/Max Serwin

Den första som flyttar pengar (27/6 2012) till High Yield enligt filen från IP 212 112 173 227 är Nina Hammarlund (extern VD SP)

Enligt uppgifter från vår analytiker Per så kopplas båda IP-adresserna till adressen Hammarby Kaj 16.
