P 21 PM Översatta meddelanden från Google Translate i Besim Boletinis mobiltelefon

## PM: Översatta meddelanden från Google Translate i Besim Boletinis mobiltelefon

Denna PM har till syfte att visa att Besim Boletini i perioden maj-juni 2019 hade tillgång till konversationer (på engelska) rörande företaget Bbn-Tele AB och dess organisering.

I Besim Boletinis mobiltelefon<sup>1</sup> har det funnits loggfiler från översättningstjänsten Google Translate, där meddelanden på engelska har översatts till svenska. Dessa meddelanden antas ha skickats från någon annan till Besim Boletini då han har behövt använda sig av översättningstjänsten.

Meddelandena i Google Translate-loggen är jämförda med material som mottogs i rättshjälp från Holland den 13 november 2020 (se R 3 Sweden partial answer EIO's (Chats+attachments)), som består av chattkonversationer från en beslagtagn telefon tillhörande Ahmed Gerard, holländsk medborgare. Det är framförallt innehållet i handling R 3b Chatt 25 Whatsapp NL materialet, som är en konversation mellan Gerard (alias Agi), "Donny" (alias John Leban), "Doc" (alias Doctor Leban), "Shav" (alias Shav Leban) och senare "Bruce" (alias Balli Thor Dxb), som använts. Chattgruppens namn är "H SUPPLY":

Det är utredningens uppfattning att organiseringen av Bbn-Tele ABs affärer, så som det framstår från översättningarna i Google Translate, stämmer överens med hur gruppen omkring Ahmed Gerard pratar om Bbn-Teles affärsverksamhet under samma tidsperiod, se P 24 PM Uppstart av handel med mobiltelefoner i Sverige maj-juni 2019.

Google Translate-loggen återfinns i sin helhet i handling K 2 BG239-1\_Besim\_2020-03-26\_SEARCHED\_ITEMS.

I Bbn-Tele ABs bokföring finns två fakturor med fakturadatum den 27 maj som rör försäljning av 500 respektive 300 iPhone XR till Mobile Experience AB (fakturanummer 2019003 och 2019004). Försäljningspriset för de 500 iPhone XR är 565 euro, precis som det föreslås i

chattkonversationen ovan. Försäljningspriset för de 300 iPhone XR är 562 euro, alltså något lägre. Dock är det totala försäljningspriset för de 500 iPhone XR 282,500.00 euro och de 300 iPhone XR 168,600.00 euro. 1% av respektive belopp är 2,825 euro och 1686 euro, vilket motsvarar de belopp som uppges i Google Translate ovan (notera att det är beloppet ex. moms som åsyftas).

I bokföringen finns också två fakturor från 17 maj som rör försäljning av AirPods, iPads och iPhones till Mobile Experience (fakturanummer 2019001 och 2019002). Det framgår inte av chattkonversationerna i R 3b Chatt 25 Whatsapp NL materialet från detta datum exakt vad Mobile Experience köper av Bbn-Tele AB till slut, men om man adderar beloppen från faktura 2019001 och 2019002 blir det totala försäljningsbeloppet 709,262.50 euro. 1% av detta är nästan exakt 7,092 euro, vilket motsvarar de belopp som uppges i Google Translate ovan (notera att det är beloppet ex. moms som åsyftas).

P 24 PM Uppstart av handel med mobiltelefoner i Sverige maj-juni 2019

## PM: Uppstart av handel med mobiltelefoner i Sverige maj-juni 2019

Denna PM beskriver omständigheterna som förelåg då Bbn-Tele AB började handla med mobiltelefoner och andra elektronikvaror i maj 2019. Den beskriver hur en extern grupp av personer, som ej består av de formella företrädarna för Bbn-Tele AB eller de andra inblandade bolagen, organiserar de inblandade bolagens handel, från det att varorna importeras till Sverige tills det att de exporteras ut från Sverige igen. I handelskedjan ingår även Jolumar Chamon AB.

Materialet som huvudsakligen ligger till grund för denna PM har mottagits i rättshjälp från Holland den 13 november 2020 (se R 3 Sweden partial answer EIO's (Chats+attachments)) och består av chattkonversationer från en beslagtagn telefon tillhörande Ahmed Gerard, holländsk medborgare.

### 1.1 Inblandade personer – alias, telefonnummer och hierarki

De kommande styckena bygger framförallt på innehållet från tre chattkonversationer (se handling R 3a Chatt 24 Whatsapp NL materialet, R 3b Chatt 25 Whatsapp NL materialet och R 3c Chatt 45 Whatsapp NL materialet) där följande personer deltar:

**Ahmed Gerard** – Holländsk medborgare och ägare till den telefon som materialet kommer ifrån. Han kallar sig för Mr Man, Mr Agi/Agi, Hulk och H och använder telefonnummer +971551610927 (landskod Dubai), samt ID-nummer 762503932 på appen Telegram.

**”Don”/”Donny”** – Okänd nationalitet och identitet. Han är döpt till John Leban i Gerards telefon men kallas för olika varianter av Don/Donnie/Donny, samt D och Davidh. Han använder telefonnummer +447467848958<sup>1</sup> och +447587606640 (landskod Storbritannien), samt +96171781105 (landskod Libanon).

**”Doc”/”Doctor”** – Möjligtvis libanesisk medborgare, identitet okänd. Han är döpt till Doctor Leban i Gerards telefon och kallas för Doctor och Doc. Han använder telefonnummer +46738924891, samt användarnamn drdanydanish på appen Wickr.

**”Shav”** – Möjligtvis libanesisk medborgare, identitet okänd. Han är döpt till Shav Leban i Gerards telefon och använder telefonnummer +96171659726<sup>2</sup> (landskod Libanon). Han blir vid något enstaka tillfälle kallad för Nurse.

<sup>1</sup> Detta telefonnummer finns inlagt i Daoud Chamouns mobiltelefon under namnet ”John Snow” (beslagnummer 2020-9000-BG258-19)

<sup>2</sup> Detta telefonnummer finns inlagt i Daoud Chamouns mobiltelefon under namnet ”Shafiq” (beslagnummer 2020-9000-BG258-20)

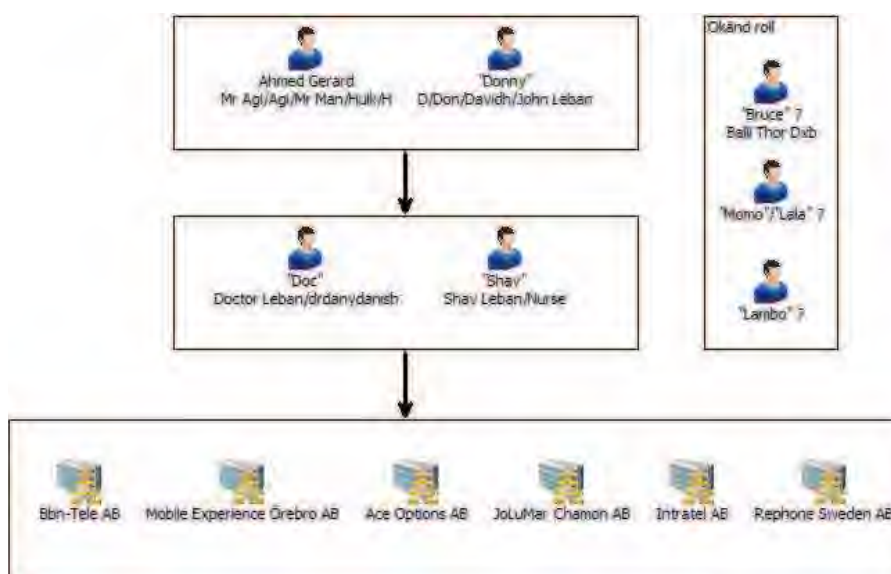

**”Bruce”** – Okänd nationalitet och identitet. Han är döpt till Balli Thor Dxb i Gerards telefon och använder telefonnummer +971523352448 (landskod Dubai).

**”Lambo”** – Okänd nationalitet och identitet. Han är döpt till Lambo i Gerards telefon och använder telefonnummer +447424512429<sup>3</sup> (landskod Storbritannien).

I konversationerna, som redogörs för nedan, framgår att det finns en viss form för hierarki i beslutsfattandet mellan dessa personer. Ahmed Gerard och ”Donny” planerar handelsupplägget och bestämmer vilka personer som ska vara involverade. ”Doc” och ”Shav” fungerar som ”back-office” och sköter kommunikationen med företrädare för de olika bolagen. De har även tillgång till vissa mailkonton, bland annat i Bbn-Tele AB. De får sina order från Gerard och ”Donny”. ”Doc” får ett tydligt mandat från Gerard och ”Donny” att det bara är han som ska sköta kommunikationen med företagen Bbn-Tele AB och Intratel AB, även om de också nämner att en ”Momo” sköter ”balanseringen” för Intratel AB. En ”Lala” nämns som möjlig ansvarig för logistik och ”balansering” men det är oklart om, och i så fall vilken roll, denna person får i slutändan. Det är möjligt att ”Momo och ”Lala” är samma person. ”Bruce” bjuds in till en av chattkonversationerna i ett senare skede i egenskap av att han styr de holländska företagen Avejurm BV och Jabino Trading BV. ”Lambo” ingår som deltagare i en konversation men det är oklart vilken roll personen har.

## 1.2 Uppstart och organisering av handel med mobiltelefoner till och från Sverige

Det framgår av konversationerna mellan Ahmed Gerard (Mr Agi/Agil) och ”Donny” (John Leban) i maj 2019 att de planerar att starta upp en handelsverksamhet med mobiltelefoner i

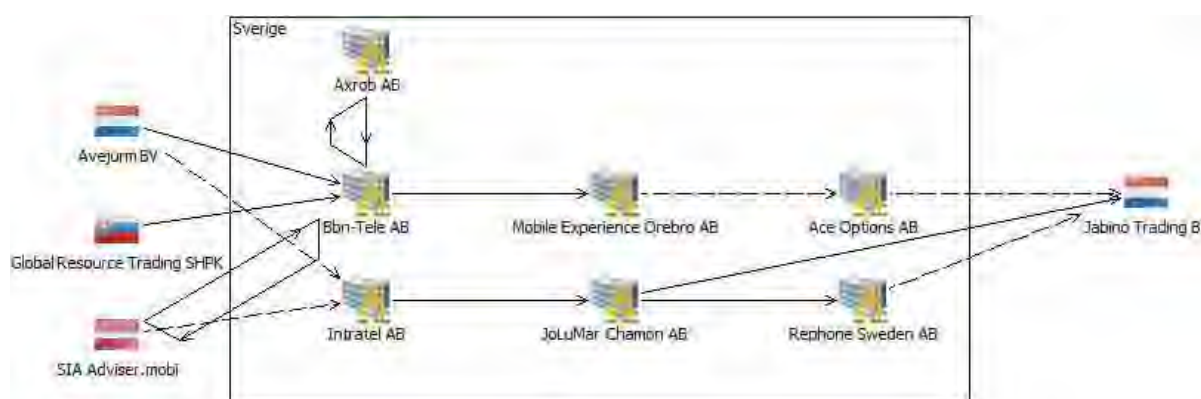

<sup>3</sup> Detta telefonnummer finns inlagt i Daoud Chamouns mobiltelefon under namnet ”Elliott” (beslagsnummer 2020-9000-BG258-20)

Sverige. "Donny" ska sköta försäljning, Gerard uppköpen och någon, eventuellt en person som kallas för "Lala" eller "Momo" (det nämns även fler alias som ej har kunnat identifieras), ska sköta frakt och "balansering". "Donny" har även ett "back office" som ska sköta pappersarbete och kontakt med företrädare som består av "Shav" och "Doc".

Gerard har kontakt med vad de kallar "Europeans" och "European buy back companies" som ska sälja till och sen köpa upp partier från svenska företag som "Donny" namnger. Gerard har även koll på vilka partier med varor som finns tillgängliga, t.ex. olika modeller av iPhones, AirPods etc. De svenska företagen omtalas som "master" och "exporter" och utgörs i perioden maj-juni 2019 av Ace Options AB, Jolumar Chamon AB (Chamon Investment AB), Bbn-Tele AB, Intratel AB, Mobile Experience AB och Rephone Sweden AB. De europeiska företagen som nämns i förbindelse med försäljning av partier in till Sverige är i huvudsak Avejurm BV, SIA Adviser Mobi och Global Resource Trading SHPK. Det europeiska "buy back"-företaget som nämns i huvudsak är Jabino Trading BV.

Från konversationerna nedan framgår att handelsupplägget vid denna tidpunkt ser ut på följande sätt:

Heldragna linjer är avstämda med Bbn-Tele ABs och Jolumar Chamon ABs bokföring för tidsperioden maj-juni 2019. Streckade linjer utgår från det som sägs i chattkommunikationerna då utredningen inte har tillgång till bokföringen i övriga bolag.

Följande urval är hämtade från handling R 3c Chatt 45 Whatsapp NL materialet, som är en konversation mellan Gerard (alias Mr Agi) och "Donny" (alias John Leban):

### 1.3 Balansering och contra-trade

Förutom att mobiltelefoner, airpods m.m. köps in från europeiska leverantörer, säljs ett par led i Sverige, och sedan säljs ut till Europa igen, sker det som gruppen kallar för en ”balansering” i de svenska bolagen i första led – de så kallade ”master”-bolagen. Gerard, ”Donny” och ”Doc” pratar om att Bbn-Tele AB och Intratel AB ska balanseras, vilket görs genom handel med begagnade mobiltelefoner (så kallad ”marginal stock” eller ”Grade A stock”), Sandisk minneskort och senare även hårddiskar. Balanseringen är till för att jämna ut företagets utgående moms med ingående moms, vilket bland annat blir tydligt när ”Doc” och Gerard diskuterar huruvida företagen ska balansera till 100% eller se till att betala in någon summa i moms till staten (se urval från chattkonversationerna nedan).

Balanseringen sker genom det gruppen kallar för ”contra-trade”, vilket innebär att varor ska bytas mot andra varor istället för att betalning sker. I Bbn-Tele ABs fall sker det en ”contra-trade” med SIA Adviser Mobi, Avejurm BV och Axrob AB i maj och juni 2019. Bbn-Tele AB köper in begagnade telefoner från Avejurm BV som senare säljs till Axrob AB. Som betalning mottager Bbn-Tele AB Sandisk minneskort från Axrob AB som senare säljs till SIA Adviser Mobi.

<sup>19</sup> Det är utredningens uppfattning att ”ave” syftar på Avejurm BV

<sup>20</sup> Det är utredningens uppfattning att ”jambin” syftar på Jabino Trading BV

| 468 | 46738924891@s.whatsapp.net<br>Doctor Leban | <p>Good morning</p> <p>I have some questions (not urgent)</p> <p>1. I presume we will do the same exercise with the other master.</p> <p>2. The value of the marginal stock Is too close to the weekly total value of deals purchased from European after adding vat.<br/>Shouldn't we have a slight difference to make it look realistic.</p> <p>3. Is the same procedure going to happen weekly. If yes that means the master importer never pays his European supplier by bank transfer but always by contra trade.</p> <p>4. Regarding the no2<br/>No 2 will invoice the Sandisk plus vat to master importer but they will be paid by marginal stock<br/>Also the<br/>Amount here must show a slight difference causing the importer to pay some vat to government rather than balancing at 100%.</p> <p>5. I presume no 2 will export the marginal stock so no vat will be liable.</p> <p>6. How long can we do the same exercise without flagging<br/>Has this been done before ?</p> <p>7. Eventually if the master has a visit, it will look weird that they never pay their supplier with cash<br/>Maybe that might become a problem</p> <p>I'm just thinking out loud<br/>We just need to understand the method so we can perform better</p> <p>Yesterday we had a delay in paperwork and payments due to the fact that the master importer didn't understand what was going on and we had to explain to him in detail<br/>But I'm sure they will be asking the same questions shortly<br/>So maybe we need to put their mind to rest</p> <p>Take care</p> | 18-5-2019<br>6:57:49(UTC+2) |

| 470 | 971551610927@s.whatsapp.net Agi | <p>Good morning</p> <p>1 yes we do with all this way</p> <p>2 yes we can, I only done it for you to understand it easy normally I do couple deals and just mix all up and like now you done 1 invoice 2740pcs I would split this in 3parts. But you understand it now so play with it how you want on buying side from balancing line and from the marginal side.</p> <p>3 yes we can do bigger money weekly hisab and sent slightly bigger amounts to make EU bank strong and your balancing line too now I done couple thousand but you can do 30k 50k. Or do once a week or 2weeks or month calculations and pay balance off</p> <p>4 yes agree and dont forget on the marginal vat stock you pay 25% vat over your profit means if you buy used phone 500euro and sell 600euro you have 100euro profit, the 100euro profit is split as follow 75euro is profit and 25euro vat cause you have 25%</p> <p>So if you want to pay tax means also you buy less qty used stock but your profit is higher so you pay more tax</p> <p>So you can pay from the sandisk side and from marginal side you will always pay</p> <p>5 yes and we need to balance him off too</p> <p>6 I am doing this past 16years all over Europe Contra is normal and allowed by law</p> <p>7 we will pay but slowly build up the amount cause banks get blocked if you do to big volume from nothing</p> <p>I agree and the way I always worked is making many invoices and payments even small ones just to make it all a bit messed up so it's hard to see what's really happening but most importantly is that if you count all incoming and outgoing stock that the qty match and the payments too</p> | 18-5-2019<br>11:45:24(UTC+2) |

Email communication between master importer and European.<br>(Offers need to be sent, negotiated and then accepted before issuing invoices).<br>2. Communication between master importer and freight has to be prompt with instructions of release etc.<br>3. Master importer and the customer communication is slow ( ideally having access of the customers emails would speed things up rapidly )<br>4. Balancing master needs to exchange with European - need to also exchange with the import master | 17-5-2019<br>5:43:42(UTC+2) |

| 34 | 608982660 Rick Stark | Yesterday during the meeting with the owner of Safe Carrier Logistics, a valid question come up; if his company recieve goods he cannot give it away without having his back covered. I told him of course we solve this through paperwork. Do you have a clear solution for this issue? | 5-4-2019<br>11:53:49(UTC+2) |

| 36 | 608982660 Rick Stark | So how do I pitch this to the owner.<br>For the moment he think the customers are traders who want to have an extra insurance and put their stock to a secret place.                                                                                                                     | 5-4-2019<br>12:01:41(UTC+2) |

| 45 | 608982660 Rick Stark | <p>Then I need to solve the paperwork with owner so he feel safe.</p> <p>I am trying to get a meeting and possibility to sit down; its best, and come to a conclusion that works for him. But havent got any answer yet.</p> <p>In that meeting I also want to get the landnumber and IBAN.</p> <p>Yesterday he said he wanted to go to the warehouse and see for himself the spot where we gonna unload and he also wanted to talk to his insurance company and give us the price.</p> <p>Now we dont need the insurance if stock already is insured. I am chasing him, trying to get everything done; but I do feel that if I push to hard it gonna give him a bad feeling and hi might back off.</p> <p>So we need to let him take his time to get back to me; hopefully today but it is friday! And already lunch here.</p> | 5-4-2019<br>12:56:13(UTC+2) |

Denna PM redovisar urval av kontakter mellan ett antal identifierade och ej identifierade individer.

**Urvalen är gjorda för att visa på att nätverket som styr handeln av elektronikprodukter genom BBN Tele AB och Jolumar Chamoun AB under första halvåret 2019 även styr och kontrollerar Safe Carrier Logistics AB's och Logistimania AB's logistikverksamhet som hänför sig till denna handel.**

**Urvalen visar även på att en del av elektronikgodset som handlas genom BBN Tele AB och Jolumar Chamoun AB via Safe Safe Carrier Logistics AB är manipulerat alternativt enbart existerar på manipulerade handlingar (benämnt "ghost").**

Materialet som redovisas är hämtat från chattar som via internationell rättslig hjälp säkrats av Ekobrottsmyndigheten i en mobiltelefon som togs i beslag från Ahmed Gerard av myndigheter i Nederländerna i juni 2019 (se R3 Sweden partial answer EIO'S). Underbilagor till materialet redovisas löpande i kommunikationen och presenteras sist i PM.

Klockslagen är angivna i svensk tid (UTC+1 för vintertid och UTC+2 för sommartid). När UTC står specificerat i konversationerna nedan betyder det att klockslaget har anpassats till svensk tid i efterhand då tidsangivelserna i originaldokumenten följer en annan tidzon.

Från utredningsmaterialet görs följande bedömningar:

- Personen som omnämns som "Dani" och "Danny Deapsheet" menas Daniel Lundström
- "Safe" syftar på Safe Carrier Logistics AB

## PM: Danny Ruby och emailadressen danny@bbn-tele.se

Denna PM har till syfte att visa att personerna ”Doc” och ”Shav” har tillgång till emailadressen danny@bbn-tele.se och skriver under email med namnet Danny Ruby. Det är utredningens uppfattning att Danny Ruby sannolikt är en påhittad person.

Syftet med mailen som skickas bedöms vara att göra affärer för Bbn-Tele ABs räkning.

Materialet som ligger till grund för denna PM har mottagits i rättshjälp från Holland den 13 november 2020 (se R 3 Sweden partial answer EIO's (Chats+attachments)) och består av chattkonversationer från en beslagtagen telefon tillhörande Ahmed Gerard, holländsk medborgare.

De kommande styckena bygger framförallt på innehållet från två chattkonversationer (se handling R 3a Chatt 24 Whatsapp NL materialet och R 3b Chatt 25 Whatsapp NL materialet) där följande personer deltar:

**Ahmed Gerard** – Holländsk medborgare och ägare till den telefon som materialet kommer ifrån. Han kallar sig för Mr Man, Mr Agi/Agi, Hulk och H och använder telefonnummer +971551610927 (landskod Dubai), samt ID-nummer 762503932 på appen Telegram.

**”Don”/”Donny”** – Okänd nationalitet och identitet. Han är döpt till John Leban i Gerards telefon men kallas för olika varianter av Don/Donnie/Donny, samt D och Davidh. Han använder telefonnummer +447467848958<sup>1</sup> och +447587606640 (landskod Storbritannien), samt +96171781105 (landskod Libanon).

**”Doc”/”Doctor”** – Möjligtvis libanesisk medborgare, identitet okänd. Han är döpt till Doctor Leban i Gerards telefon och kallas för Doctor och Doc. Han använder telefonnummer +46738924891, samt användarnamn drdanydanish på appen Wickr.

**”Shav”** – Möjligtvis libanesisk medborgare, identitet okänd. Han är döpt till Shav Leban i Gerards telefon och använder telefonnummer +96171659726<sup>2</sup> (landskod Libanon). Han blir vid något enstaka tillfälle kallad för Nurse.

**”Bruce”** – Okänd nationalitet och identitet. Han är döpt till Balli Thor Dxb i Gerards telefon och använder telefonnummer +971523352448 (landskod Dubai).

**”Lambo”** – Okänd nationalitet och identitet. Han är döpt till Lambo i Gerards telefon och använder telefonnummer +447424512429<sup>3</sup> (landskod Storbritannien).

<sup>1</sup> Detta telefonnummer finns inlagt i Daoud Chamouns mobiltelefon under namnet ”John Snow” (beslagsnummer 2020-9000-BG258-19)

<sup>2</sup> Detta telefonnummer finns inlagt i Daoud Chamouns mobiltelefon under namnet ”Shafiq” (beslagsnummer 2020-9000-BG258-20)

Email communication between master importer and European.<br>(Offers need to be sent, negotiated and then accepted before issuing invoices).<br>2. Communication between master importer and freight has to be prompt with instructions of release etc.<br>3. Master importer and the customer communication is slow ( ideally having access of the customers emails would speed things up rapidly )<br>4. Balancing master needs to exchange with European - need to also exchange with the import master to receive offers.<br>(Hulk will provide The balance master) also need to appoint a designated person to control emails and communication for this co.<br><br>I have gone through the balance structure with hulk and I will explain this to the master importer in detail. It's important that the director understands how this works. I will explain to him in detail.<br><br>If I have missed anything in the above list. Pls share. | WhatsApp | 2019-05-17 | 17-5-2019 5:43:42(UTC+2)  |  |  |  |  |  |  |  |  |

I presume we will do the same exercise with the other master.<br><br>2. The value of the marginal stock Is too close to the weekly total value of deals purchased from European after adding vat.<br>Shouldn't we have a slight difference to make it look realistic.<br><br>3. Is the same procedure going to happen weekly. If yes that means the master importer never pays his European supplier by bank transfer but always by contra trade.<br><br>4. Regarding the no2<br>No 2 will invoice the Sandisk plus vat to master importer but they will be paid by marginal stock<br>Also the<br>Amount here must show a slight difference causing the importer to pay some vat to government rather than balancing at 100%.<br><br>5. I presume no 2 will export the marginal stock so no vat will be liable.<br><br>6. How long can we do the same exercise without flagging<br>Has this been done before ?                                                                                                                                                                        | WhatsApp | 2019-05-18 | 18-5-2019 6:57:49(UTC+2)  |  |  |  |  |  |  |  |

But you understand it now so play with it how you want on buying side from balancing line and from the marginal side.<br><br>3 yes we can do bigger money weekly hisab and sent slightly bigger amounts to make EU bank strong and your balancing line too now I done couple thousand but you can do 30k 50k. Or do once a week or 2weeks or month calculations and pay balance off<br><br>4 yes agree and dont forget on the marginal vat stock you pay 25% vat over your profit means if you buy used phone 500euro and sell 600euro you have 100euro profit, the 100euro profit is split as follow 75euro is profit and 25euro vat cause you have 25%<br>So if you want to pay tax means also you buy less qty used stock but your profit is higher so you pay more tax<br>So you can pay from the sandisk side and from marginal side you will always pay<br><br>5 yes and we need to balance him off too | WhatsApp | 2019-05-18 | 18-5-2019 11:45:24(UTC+2) |  |  |  |  |  |  |  |
